First cheerleading squad chosen at WC

BY CYNTHIA J. WILSON

For the first time in history, Winthrop has a cheering squad. This summer we earned two spirit sticks and four blue ribbons at National Cheerleaders Association Camp in Knoxville at the University of Tennessee," said Gwyn Hurley, co-captain of the squad. Captain Nancy L. Lindsay, a senior Physical Education major from Rock Hill, enjoys cheering and bowling in her spare time. When asked about her ambitions Lindsay replied, "I plan to become a Physical Education teacher."

Co-captain Hurley, a junior Business Administration major from Fort Mill, said her ambitions are to become a lawyer. "My hobbies are playing racquetball and basketball," she said.

Sophomore Paul Barnes is a Fashion Merchandising major from Greenville. Described as a "shy person" by a close friend, Barnes said she finds the state modelling since an early age and has participated in many pageants. "I like participating in all sports, especially volleyball and baseball. I also enjoy basketball," she said. Her career ambition is to become a lawyer in California.

"My hobbies are tennis, reading, writing," said Charlene B. Sullivan, a junior English Education major from Rock Hill. When she finds spare time, Workman likes to play tennis or work on needlepoint. "My career goal is to become a Physical Education teacher," she said.

Junior Sharon Greene is a Biology major from Columbia. After thinking about her hobbies she replied, "I like participating in all sports."

Sophomore Jackie Farnell is a Fashion Merchandising major from Greenville. "I would like to teach the orthopedically handicapped," said Farnell, a Special Education major. Her hobbies are cross-stitching and bicycling.

Assistant Professor Valerie Bridgett is a senior Biology major from Columbia. After thinking about her hobbies she replied, "I would participate in all sports."

Sophomore Lisa Workman is a Business Administration major from Rock Hill. When she finds spare time, Workman likes to play tennis or work on needlepoint. "My career goal is to become a Physical Education teacher," she said.

Is this a modern-day flagpole sitter? Or is he trying to get a closer look at Tillman's clock? No, it's just Bob. Photographer Al Smith caught this worker in the act of installing a new rope and policy on the flagpole in front of Tillman, last Thursday.

New parking lot created

A new parking lot has been created beside the tennis courts. According to the administrator of the tennis courts, "The purpose was to accommodate the growing student body."

Sophomore Valerie Anderson is a Psychology major from Rock Hill. When she finds spare time, Workman likes to play tennis or work on needlepoint. "My career goal is to become a Physical Education teacher," she said.

Junior Tiffany Anderson, a Greenwell native, said, "I haven't decided my major or career goal. She enjoys skating and dancing.

Donna Turner is a Business Administration freshman from Greenville. "I would like to become a business manager for a chain of stores," she said. Her hobbies are swimming and playing tennis.

Ravenel reveals his proposal for curbing inflation

BY RALPH JOHNSON and CINDY DEAN

In a hurriedly called press conference Wednesday, Sept. 27, Charles "Jig" Ravenel released a letter he had written to President Carter, outlining his proposal for curbing inflation.

In the letter, Ravenel suggests a two-year government spending freeze, which would freeze the budget for 1980 and 1981 at the 1979 level.

"The largest single cause of our skyrocketing inflationary expectations are a result of the federal budget deficit," says Ravenel.

Ravenel's proposal is an alternative to the Kemp-Roth American Recovery Act, in Ravenel's words, would "triple the federal deficit."

The Kemp-Roth proposal is designed to reduce government taxes by 30 percent over the next three years. However, Ravenel feels that this proposal would be inflationary.

Instead, he reaffirms his two-year spending freeze, describing it as, "a bold, new, simple, popular strategy which would balance the budget within a reasonably short period of time," as he requested.

The Kemp-Roth proposal, Ravenel feels, is "no more than a tax cut" and includes, in his view, "my opponent, who wants to jump on the tax-cut bandwagon."

Ravenel's opponent is Senator Strom Thurmond, long-time veteran of Congress and former governor of South Carolina.

When asked about the possibility of a debate with Thurmond, Ravenel stated, "I have met with Senator Thurmond repeatedly for a debate and he has refused repeatedly. His attitude toward the debate is that if I don't need to subject myself to cross-examination by anybody. That is his attitude and that arrogance of power is what the people in the state of South Carolina, and the people across the nation are fed up with."

When asked why he was running for the senate instead of repeating his bid for the governorship, Ravenel replied, "I can do more good in a reasonably short period of time as governor of South Carolina."

Ravenel feels that these are the local issues for the people of South Carolina. The Kemp-Roth American Recovery Act is a national issue which affects all South Carolinians.

"People are hurting in this state. People who want jobs. People who can't afford insurance. People who want lower taxes. People who want less inflation. These aren't some distant problems that exist off for."

Ravenel also adds that inflation is an issue which affects all South Carolinians.

Next Week

"It's eleven o'clock at night. You've tried. You've got the munchies. You have to either wash your clothes or go around nailing the next day. All your ink pens have run dry. You have to read the last 47 chapters of Mark Twain by the end of the week. And you have a B.A. exam tomorrow. What are you going to do? You've not got too much studying done. You're going to get a bad grade on the exam. YOU'RE GOING TO FAIL THE COURSES! (A horrified scream pierces the quiet stillness of your room.)

In the next few weeks, I'll be presenting a series on How to Study. Hopefully, this series will be of some assistance to you in the semesters to come. So hang in there, kids — help is on the way!"

Keep Macfeat Nursery

The Johnsonian has presented both sides of the MacFeat-Withers issue. The controversy could still be in the air, though, if the Board of Trustees can be persuaded to reconsider the issue. Letters written in an appeal to save MacFeat Nursery and Withers Kindergarten can hopefully convince members of the Board to think twice about the closing of these two facilities.

President Charles B. Vail said in the September 18 issue of TJ that he was looking for better alternatives towards the general involvement of students in Early Childhood Education. He decided to close MacFeat Nursery and Withers Kindergarten. He said, "The obligation as I see it, is to be involved in the community programs." He also said that he was not involved in providing a good situation for Winthrop students and that because it was not an ordinary nursery school, tier students were not being prepared for real world situations. "The tendency is to think it is the very ideal setting when in reality it is a very atypical kind of setting," Vail said. "They simply fail short of the college level." He also said that if he were to close MacFeat, he should have, and the larger option that it opens up for the Winthrop students and what they will be called upon to do when they leave here.

Students are not concerned with what they will be called upon to do in the future. In the September 25 issue of TJ, they expressed more concern for what they are doing right now. They agreed that MacFeat was prepared for real world situations. The tendency is to think that MacFeat provided a sheltered environment just looking for the best effective set of circumstances for the students. "They say he's doing it for the students, but he didn't even ask us about it," one Home Ec. Education major said. "I feel sure that they would be."

Perhaps Vail's biggest mistake was not consulting the students when making his decision. His argument has been "Without MacFeat and the kindergarten I seriously doubt the quality of Winthrop's education programs will go down."

"You can't ask for the best effective set of circumstances for our students," said a member of the Board of Trustees. "But, did he bother to ask the students how effective they feel their education is now? Did he consider their argument in favor of the nursery and kindergarten? "He says he's doing it for the students, but he didn't even ask us about it," one Home Ec. Education major said. "I feel sure that they would be."

The next step in this controversy may be the Board of Trustee meeting scheduled for November 4, according to a member of the Board of Trustees. The meeting will be in an uproar, or, possibly, the Postal Union will strike on a couple of weeks; the situation would get petty.

So, sometimes it seems that our fortunes can be affected at will by the whims of public service unions. If we don't watch it, we're all going to strike out.

See ya.'

One, two, three strikes, you're out....

BY RON HOUCH

Keep Winthrop quality
Keep Macfeat Nursery

BY RON HOUCH

Well, troops, after last week's bolt to the outside, I supported (I hope) by somewhat hostile infers, I feel that it is time to return to pure biased, unsearched opinion. Oh, I just love it!

What am I gonna rouse about this week? Unions. Not the humanistic organized schemes of the Teamsters, but the little penny-ante unions which seem to spring up like dandelions.

Don't jump ahead of me--I've got nothing against the idea of unions. A great idea in principle--the little guy standing up to the outrages of management--but hazy in implementation. If I recall my history correctly, organized labor arose in order to protect the average Joe Blow from greedy, demanding, slave-driving bosses. Yet, unions now take it upon themselves to dictate to management (and to us) what working conditions are acceptable.

That's why we now hear of strikes by freshmen, cops, postal employees, university faculty (God forbid) baseball umpires.

That's right, troops. All these species are greedy, demanding, slave-drivers.

I mean, MacFeat is a lab facility such as a biology or math lab and is needed to provide the controlled situation necessary for the experi-enced student. One MacFeat instructor said, "... the beginning students need to be in a more controlled situation. Lab facilities are better equipped to handle students' problems and needs."

They wonder about the individual student who is missing one place in the nursery and kindergarten. "He says he's doing it for the students, but he didn't even ask us about it," said one Home Ec. Education major.

"The nursery school was my major reason for coming here."

Perhaps Vail's biggest mistake was not consulting the students when making his decision. His argument has been "Without MacFeat and the kindergarten I seriously doubt the quality of Winthrop's education programs will go down."

"You can't ask for the best effective set of circumstances for our students," said a member of the Board of Trustees. "But, did he bother to ask the students how effective they feel their education is now? Did he consider their argument in favor of the nursery and kindergarten? "He says he's doing it for the students, but he didn't even ask us about it," one Home Ec. Education major said. "I feel sure that they would be."

Letters to the editor

Vail vs. MacFait

Dear Editor,

Being a student in home economics and a mother with a child in MacFait Nursery, I am very concerned about President Veil's decision to close the nursery. Having had various nursery experiences with my two children, I know that MacFait is excellent. I am glad it is not a typical nursery. Most day care centers are less than adequate in one way or another. Our home economics students at Winthrop need a place like this so they may understand how a nursery should be operated. If this nursery is closed our students will have no future. I am sure the nursery would complete their child development requirements under inferior conditions.

Let those who doubt the usefulness and quality of MacFait come and observe it in action.

Donna Kilday
Senior Home Economics Education

New species identified at Winthrop

BY RALPH JOHNSON

Residence Hall living is designed, or should be designed, to provide an almost home-like environment for those students who choose to live in them. Frequently, however, certain students abuse the privilege of living in a residence hall.

After careful observation and analysis, it has been found that there are approximately six unclassified species of students who are indigenous to residence halls. Hereinafter, it will be believed that students who reside in halls are all of one species; however, this is not the case.

The first group is known as "property destructors." This group is characterized by an almost redneck love for destruction of property that does not belong to them. Evidence of their existence is clearly indicated by broken windows, torn signs, beer bottles in the halls and other numerous acts of pure destruction.

The next species is one that is easily identified. They are the "business freshmen." They are characterized by numerous large and complex stereos that are obvious to the consumer. They commonly have four foot high speakers and electronics that are very loud. Their volume and their Watts are huge and cause pure aggravation for those who think of doing such unimportant little things such as studying in their rooms.

The next species to be found is the "Asses Ignoramus." The female variety of the species characteristically walks into a male residence hall without an escort and when caught uttering a piercing cry of, "I didn't know." The male variety is probably the most ignorant of any species. They cannot tell time, date, day, week, month, year, and their main behavior seems to be malevolent. They are the "imtus jocks." This group sweeping of all the trash that belongs to students in the halls outside their doors.

The fourth class is the "Smiley Jocks." This group also known as frustrated jocks, and their main behavior seems an almost pathological passion to bounce balls. They bounce balls everywhere, in their rooms, in the halls, outside and on stairs. This group can be particularly irritating if you are studying and they decide to commercialize their odd behavior either above you or right outside your door.

In addition, there have been other groups and species of students discovered and classified that warrant mention at this time. There are the "bathroom door lockers" who keep a main pleasure out of life by locking the bathroom doors and not allowing anyone in. There are also the "hall sweepers" whose main occupation is the sweeping of trash that collects in their rooms into the halls outside their doors.

These are just a few of the countless variety of fauna that inhabit our residence halls. No doubt you have come across a few of these people. Who knows, you might be one of them.

Anti-paraquat bill allows U.S. to continue funding

WASHINGTON, D.C. (CP) After being delayed by the house, the Senate finally acted this week to allow U.S. to continue funding the International Security Assistance Act of 1978. The measure would have stopped the U.S. financing of a Mexican paraquat spraying program.

The bill was originally drafted to halt the paraquat spraying program—officially called Operation Condor—started in 1978 to spray marijuana fields with a herbicide called paraquat. Marijuana lobbyists, though, protested that paraquat-sprayed marijuana could cause severe lung damage, with symptoms of shortness of breath and the vomiting of blood. Consumers, moreover, could not tell without laboratory testing what marijuana had actually been sprayed.

In response, the amendment cut off U.S. money for Operation Condor. At the last moment, though, Congress inserted a provision that funding could continue if the Mexican government found a way to color the paraquat, and thus warn its potential consumers.

Sure enough, Mexico started spraying its paraquat with something called Rhodamine B in July, even before the bill passed Congress. The U.S. State Department told CPS that the dye won't wash off, and will glow under a black light. The State Department spokesman also said the dye met the provisions of the Act, and would allow U.S. funding to continue.

Mexico is also considering using other paraquat "markers," i.e., substances that would make obvious to consumers if marijuana had been sprayed. One of the markers under consideration would make the sprayed marijuana "smell like a skunk."

Mexico has informed the U.S. that it will use any kind of marker it would consider as long as it does not violate Mexican environmental laws.

Gifted children neglected

BY KATHY KIRKPATRICK

It isn’t true that bright kids just get brighter. Many gifted and talented children in this country suffer from frustration and boredom because of lack of attention in the classroom, according to Martha Bishop, professor of educational psychology at Winthrop University in Rock Hill, South Carolina.

“By not allowing gifted children to make the kind of progress they’re capable of, we’re stifling their creative levels and not meeting their needs,” Bishop said.

Many children who are not receiving special education programs are being held back. This is because some teachers believe that the gifted and talented should be allowed to work at their own pace and be diagnosed as one of “handicapped children.”

A study of gifted and talented high school students reported in the January issue of Exceptional Children found that 18 percent of the students had no plans to attend college or vocational schools.

Many gifted children are not being served by the present educational set-up. Bishop believes that the gifted and talented should be diagnosed as one who is capable of such high performance that regular school programs are inadequate to meet his or her needs. The problem is that when regular programs are inadequate, often there is nothing to take their place.

“Programs for the gifted are not being funded as they should be,” Bishop said. “These children are not being served.”

A recent national wide assessment of programs for the talent-ed and gifted conducted by the Council for Exceptional Children concluded that only seven states are now making funds to develop programs for the gifted.

At least part of the problem, according to Bishop, is that the current definition of children who require special educational programs is limited to handicapped children. If the definition were changed from one of “handicapped children” to one of “exceptional children,” gifted and talented students could be included in funding.

At present 21 states have included gifted and talented children within a definition of exceptional children. New Mexico’s definition of exceptional children “are the children whose abilities render regular education of their needs be inconsistent with their educational needs.”

Another factor in the neglect of gifted children is the misunderstanding of such children by the general public. "Many people believe these kids will learn in spite of conditions," Bishop said. "But that’s just not true. Children who are not receiving attention, and seeking help, are handicapped, because they’re being held back.”

"We have also assumed for too long that the gifted are strange," Duckworth continued. "There’s research to substantiate that gifted children are disturbed in any way as long as they get the kind of help they need.”

Help is being provided in South Carolina by the Institute of Teachers of the Gifted and Talented, an educational program for the gifted. Bishop also thinks that too many schools should be focusing on the wide variety of age groups.

"Nobody knows the extent to which intellectual aspects of growth and nurtured," Bishop said. "But this gifted child may play with kids of his own age and is able to get along with a wide variety of age groups.

The Institute of Teachers of the Gifted conducts a number of flexible gifted child may be an outlet for his or her talents and is able to get along with a wide variety of age groups.

South Carolina Department of Education.

“Programs for the gifted are not being funded properly, and we hope to have reached them all,” said Bishop, institute director. “Each district will at least have someone with some knowledge of the area in case the district wants to start its own program.”

Thanks in part to the Institute, 16 programs for the gifted and talented are now established in South Carolina. Programs are located in Spartanburg and Greenwood.

‘If regular teachers would allow gifted children to progress, we wouldn’t need special classes for them,” Bishop said. “Often, however, the teachers don’t want to present these students. Teachers of the gifted must be.”

There are those who believe that students who can teach THEM quite a few things. And they need to allow these students to accelerate through regular material besides adding enrichment.”

Bishop does not believe that there is any danger in allowing gifted children to move ahead in school, monitoring grade level not by age, but ability.

“If someone can learn twice as fast as another person, he should have the opportunity to do so,” Bishop said. “We’re no longer into the grade system, the one that says at this age children should learn this material. But what is to say what age is right for every child? You don’t put a size 8 piece of clothing on a kid who is eight years old, so why does a child have to stay in a certain grade because he’s a certain age?”

Bishop also thinks that too many schools allow children to fit into molds. “A child of five, who is already able to read, simply cannot communicate with children of his own age,” she said. "But this gifted child may play with kids of his own age and is able to get along with a wide variety of age groups.”

The Institute of Teachers of the Gifted, located at Winthrop University in Rock Hill, South Carolina, conducts a number of flexible programs. It is run by James H. Turner, coordinator of the Institute for Teachers of the Gifted and Talented.

Seven pounds and an ounce of prevention

BY CINDY DEAN

Johnny Carson once said, "Parents think that it's cute when little kids 'hold hands.' They push their kids into being alarmed. It's as if their children get a little older, opposite sex and make a big fuss over first dates. Yet, when their children get a little older, maybe 15 or 16, parents suddenly become alarmed. It's as if they give the kids the cake, and then won't let them eat it." Carson received one minute ovation.

The intent of this article is not to question the moral aspects of sexual behavior, or to encourage or discourage the use of contraceptives, but rather to acquaint you with birth control and available on-campus services.

Information about birth control is widely available at Crawford Health Center. Ms. C. Player, nurse counselor at Crawford, says, "If a student has a problem then I think she should come to us."

Ms. Player has been at Crawford for six years. Her hours are from 6:00 p.m. to 10:00 p.m. Monday through Friday. She cannot counsel any interested student on the methods of birth control.

Mr. Player elaborates, "I do the counseling. I take the medical history, blood pressure and weight, and try to talk to the student about anything she's got on her mind. Then when the student comes to see the doctor, she'll be ready."

Any student who has paid the infarmary fee can get birth control. If you're a full-time student, you've paid. The pill is $3.25 and the blood fee is 50 cents.

Dr. L. Lewis Bartois performs the GYN examinations every Wednesday. "If it's just a regular routine Pap smear or pelvic examination we do it on Wednesday afternoon from 1:30 to 4:30," explains Player.

The types of birth control which can be obtained through prescriptions at Crawford are: the pill, the diaphragm, and the IUD. The methods which can be obtained at a drugstore without a prescription are creams, gels, or aerosol foams, and condoms. Another method of birth control is the rhythm method, which "involves a lot of biological know how."

All of these birth control methods have their advantages and disadvantages and none are 100 percent effective. This is only one side, of course, the other is that they don't work at all.

The IUD (intruterine device) has an effectiveness rate of 90-95 percent. The IUD is inserted by a doctor and can be left in place for so long as the patient and the doctor decide that it should. The IUD prevents implantation of a fertilized ovum. Twenty-five percent of IUD's used by women cannot be retained, and are expelled from the uterus.

"The IUD is not recommended unless you have had a child and even then some doctors won't recommend it."

The rhythm method has a very low effectiveness rate of 70 percent. The rhythm method is based on ovulation. Since ovulation can vary from month to month, it depends on which side of the cycle the woman is on. "The rhythm method has a high risk of pregnancy if no contraceptive is used."

Another birth control method is the diaphragm which has an effectiveness rate of 85-90 percent. The diaphragm is inserted by a doctor and can be left in place six to eight hours afterward.

If properly fitted and inserted it can be used during intercourse. The diaphragm must be inserted no earlier than the day of menstruation. It must be left in place six to eight hours afterward.

Kate Wofford Wofford - "Her is a reputation that is national, even international."
Grad of '24 donates W.C. items

Louise Thomas Miller, a 1924 graduate of Winthrop College, has donated more than 20,000 items documenting the history of her family to the Winthrop College Archives.

Winthrop College archivist, Ron Chapin, says the collection includes letters, newspaper clippings, speeches, photographs, genealogical data, diaries and financial records. "The documents provide a valuable insight into the cultural attitudes, economic conditions and historical events of the South from 1880 until the mid-1970s," he says.

DONATED TO ARCHIVES—This photo of George Zachariah Thomas is among 20,000 items donated to the Winthrop College Archives by his granddaughter, Louise Thomas Miller of Rock Hill.

Huck Finn for a day

Hold on to your own, Sigma Phi Epsilon Fraternity and the sheriff's brewery are about to make Whiskey and Raffles history. Wednesday, October 11 at 2:00 p.m. they'll sponsor a raft race at the college farm.

"It's the first time the lake or the school has had anything like this," said Tommy Cook, Sigma Phi Epsilon member. "Hopefully, we can turn it into an annual event."

The race, approved by President Vail and Vice-President of Student Affairs Littlejohn, is an effort to get organizations involved in off-campus activity. However, any college student may participate.

For those of you who weren't willing to risk a dunking in the lake, but would like to watch, there will be $2.00 drinks, beer, food and entertainment after the races. Deadline for entries is Oct. 10. Each rafting group must pay a $10 entry fee. For more information, contact Freddy Jordan at 323-3598.

Rules for entry

1. Raft can be any size or shape but must be constructed by the members of the organization.
2. Raft must have no more than six members and no fewer than four members of the organization to man the raft. Those members will be allowed into the raft race free of charge and only these members.
3. All people on the raft must have a life jacket or ski vest certified by the U.S. Coast Guard. No one will be allowed on a raft if he or she has been drinking and a waiver of personal injury will be required to be signed by each person on the raft. NO SKI BELTS ALLOWED.
4. Each person on the raft will need a paddle since no motors of any type will be allowed on the raft.
5. Raft organizations can work on the construction of rafts at the Gimli Beverages, warehouse. The organization must furnish all materials in the construction of the raft. Gimli Beverages will furnish location and materials for the rafts to the college lake.
6. Prizes will be decided between a men's division and a women's division. Women can compete in men's division but men cannot compete in the women's division.
7. Modified boats with certified life guards and life jackets will be patrolling the lake during each race.

Tailer pictures

"Students who have not already had their photographs taken at the TAILER yearbook made at Douglas Studio on Oakland Avenue," said Linda McNeely, editor of TAILER. "There will be a $3.50 sitting fee.

Cumberland plans trip

Cumberland, the Episcopal Campus Ministry, will be sponsoring a trip to the River Bank Zoo in Columbia on Saturday (Oct. 6), according to I.V. Lyon, president. The board of students will aid the Admissions Office in various aspects of student recruitment and public relations. For more information or an application contact Iris Hinson in 116 Bancroft, or at extension 2191. Applications will be taken through Oct. 13.

Pi Kappa Phi organizes

A national fraternity, Pi Kappa Phi, is organizing a chapter at Winthrop, according to the college president. Bird said Pi Kappa Phi is an organization of men that is dedicated to improving the college experience of its members.

The fraternity is interested in athletic competition and social interaction. Goals of Pi Kappa Phi are leadership, development and involvement in Winthrop activities, according to Bird.

Men interested in joining Pi Kappa Phi should contact Jim Bird at 323-3598 or attend the weekly meeting at 8:00 in room 211, Dinkins, Wednesday, Oct. 4.

Pom club welcomes students

The Sigma Gamma Nu picnic to welcome all freshmen and transfer physical education majors was held Tuesday, Sept. 19 at the Shack, and was attended by over 100 P.E. majors, according to president Irene Witt. Old members presented a skit to introduce the faculty, and the new officers were installed. Vicki Hawkins will serve as vice president, Marie Stowe as secretary, and Tina Broome as treasurer.

The club is now in the midst of a membership drive, and all interested P.E. majors should contact DeWitt, ext. 3380, or call the P.E. Department for more information.

Young Democrats meet

Young Democrats will hold a meeting Tuesday, Sept. 26 at 7 p.m. in the Iva Gibson room, second floor Dinkins, according to Trida Breeze, club spokesperson.

The purpose of the meeting is to discuss plans for this year's activities. All interested students are invited to attend. For further information, contact Trida Breeze at 323-1197 or 323-4524.

Winthrop invitational

BY ARNETHA PERKINS

Nearly one hundred high school seniors have been invited to attend the Winthrop Music Invitational to observe the School of Music in action October 3-4.

Students will observe dance teams, classes, private lessons, and group rehearsals.

"The purpose of the invitational," said Dr. David Lowry, Assistant Professor of Music, "is to acquaint potential music majors with the school."

The guests will be treated to seats for the Tuesday night performance of the Charlotte Symphony followed by a trip to the Shack for a party. After an overnight stay in Morganton, students will continue a clinic and seminar schedule until the final event, a Wednesday noon recital by faculty and students of The School of Music.
Colleges steal fast food

BY HELEN CORDES

(CPS) - Each day, hundreds of University of North Carolina-Greensboro students crowd in front of two particular school cafeterias, waiting in line when they can often be served quicker at another dining hall. The attraction is this: they're able to eat burgers, fries and apple turnover sitting at bright red plastic tables and laminate tables.

Meanwhile, the State University of New York-Gene*o has just remodeled one of its dining facilities to resemble a burger chain, with a menu to match. The fact is, the overwhelming popularity of fast foods is prompting college food service directors to borrow some marketing tips from the chains. Students are, literally, eating it up. Fast food lines are getting to be a fixture at campus cafeterias, reads a recent report in Food Management magazine.

Of course, cafeterias have always offered fast food on occasion. The difference now is how they do it. "For years we served hamburgers. We just didn't market them," says Joe Bogart of SAGA, a food service contractor for some 400 colleges and schools. "Now we have a merchandising program built around fast food items."

The "merchandising" includes the chains in quickness and accuracy. "Typical is a cafeteria at Texas A&M University. Four separate lines for different foods - chicken and sandwiches serve over 50 students a minute, boasts Dollars.

The fast food concept is paying off, too. Food service directors are finding property marketed burgers and fries can account for substantial profit in cash sales and an increased popularity for board contracts.

But when the fast food chains themselves move onto campus, it's not quite the success story. When the world's largest McDonald's opened on the Ohio State University campus in 1974, chains began investigating campus franchising in earnest. But although chains like McDonald's, Hardee's, Pizza Hut, and Burger King maintain outlets on a score of campuses, they're finding a non-campus location may be preferable.

The Ohio State situation served as an example. Burger King and Pizza Hut joined McDonald's on campus, and although all three are still operating, Burger King isn't doing well. Surrounded by classroom buildings, it only does such a lunch and leg during weekends.

"Our campus franchises didn't make it," warns Dr. Jack Mayer of Tufts University, "because the operators realized their success depended on heavy traffic and patterns that offset waiting lines."

But campuses are still expanding open arms to the chains, because by leasing the space they realize from seven to 20 percent profit. This mounts up at places like the University of Cincinnati, where McDonald's doubled the food sales on the campus, and at Western Illinois University, where Hardee's did the same.

RETHINKING FAST FOODS

Yet the fast food has also inspired a controversy in the college food service industry. Nutritionists generally do not regard fast food as particularly wholesome, and view the trend as alarming. Leonard Hodgson of the National Association of College and University Food Service, which oversees non-competitive food services at two-thirds of all American colleges, thinks the trend best a fundamental mismanagement of college food service as a whole. "Do we feed the troops regardless of the food's nutritional value?" he wonders, "or use food to attempt some nutritional education?"

The nutritionists are grumbling the loudest about on-campus fast food services.

"The typical McDonald's meal," warns Dr. Mayer of Tufts University, "doesn't give you much nutrition. It's very low in vitamin B and C. It's typical of the diet that raises the cholesterol, and leads to heart (Continued on page 8)
Bristow looks at the South

BY LAURA DARNEY

Robert O’Neill Bristow, professor of English and communications, will give a reading entitled “The South Carolina Writer Looks at the South” sponsored by the National Endowment for the Humanities, October 6 at 8:00 p.m. in the Baruch Room of Joyner Center.

Bristow will discuss Southern culture, tradition, and race relations.

“We talk about the South, we can’t talk two days in a row the same way because we’re changing that fast. One of the biggest errors one can make of any region is to generalize,” said Bristow.

“I think that authors have to approach it from the way William Faulkner approached it. People will believe anything about the South if it’s ugly enough. A great many writers have made a lot of money exaggerating the grotesque aspects of our society. Those things exist but the important question is ‘Do those things generally exist?’ Is it a general truth? That very recently has not much concrete material was published reflecting the Southern atmosphere,” said Bristow.

“I’m going to try to discuss and contrast where we were and where we are now. And I believe our society, Southern society, is a much improved place to live for all of its people.” Bristow’s novels are “Time for Glory,” “Night Season,” “A God of One’s Own,” “The Man in the Maze,” and “Laughter in Darkness.”

He has received the award for Literature at the University of Oklahoma for “Time for Glory” and received the American Writers’ Award for “Parlour Drummer.” Bristow is the author of “Who’s Who in America.”

Senate approves nominations

During the Senate’s September 20th meeting, nominations to various branches were reviewed and unanimously approved. Those appointed as chairpersons were: Academic Affairs—Jeffrey P. Foresman, Jane S. Whitworth, and Bruce S. Dow; Student Life—Debbie Pringle, Fred F. Floyd, and William C. Smith; the Budget and Finance Committee—Richard A. Smith, Kathy C. Smith, and Charles P. F. Dow.

Baptist Student Union students will serve lunch to the Rock Hill Minster Association on Wednesday, Oct. 4 at 12:00 at the Baptist Student Center on Oakland Avenue.

Students are invited to BSU Thursday, Oct. 5, at 4:40 p.m. to hear Mr. Ken Hubbard, chairman of the Board of Regents, speak on the Importance of Education.}

BU activities

Baptist Student Union students will serve lunch to the Rock Hill Minster Association on Wednesday, Oct. 4 at 12:00 at the Baptist Student Center on Oakland Avenue.

“Congratulations to those students who were selected for the Ensemble and Trio,” Lucy said.

“Students will meet Thursday, Oct. 5, at BSU Center at 4:40 p.m. to visit the Nursing Home according to Lucy.

“Students are invited to BSU Thursday, Oct. 5, following the Ensemble and Trio announcements,” said Lucy. BSU will sponsor a yard sale and bike ride on Saturday, Oct. 14. “Money earned will go towards summer missions,” said Lucy, “and students are asked to bring in their ‘junk’ between now and Oct. 14.”

Frat holds rush

Alpha kappa Pi is having “rush” in the Thomson Rec-Room Oct. 11-12, 8:00 p.m. “Rush,” the activity of recruiting new members, is open to interested second semester business majors.

Rosso attends conference

Dr. Rosso, Chairman of Communications Dept., attended a conference entitled “Measuring Progress in Handicapped Children,” sponsored by the Bureau for the Education of Handicapped. The conference was held in Nashville, Tenn., September 12-14.

Topics included were innovative evaluations and measurement procedures with young handicapped children, according to Rosso.

The information that Rosso presented was measurement procedures that are in his preschool speech program which is currently operating in Georgia, North Carolina, South Carolina and Minnesota. The measurement procedures are ways of measuring progress that handicapped children gain in therapy programs, Rosso said.

The importance of that education in the area of handicapped children constantly refine their measurement techniques so that we can plan for improved therapy programming,” Rosso said.

Fast Food

(Cautionary from page 7)

“Tofu, adds concern about the lack of vegetables. “Tofu is really no vegetable,” says Jeanie Goldberg, also of the Friends of American Writers’ Association.

Advice for employment interviews

Jerry Smith, director of Placement and Career Planning, located in 142 Bancroft, stresses the importance of a successful interview in order for a successful job hunt.

Smith suggested several ways for students to go about having a smooth interview. "Job applicants need to communicate their need for a job in a doctor's office, but the applicant should look at an interview as an opportunity to demonstrate how he or she can benefit a company to show what skills he or she has to offer that can be of value to an employer," Smith says.

Smith urges applicants to look for feedback, good or bad, from the interviewer, and either to ask a candidate question if it isn't offered.

"Applicants feel negative feedback," he says, "but it's better to know the employer doubts so you can respond to them."

"Don't go home not knowing whether or not you're in the running for a job," Smith says. "If you've interviewed several applicants particularly need to prepare themselves in advance of the job interview, and their job interview often makes a decision about the applicant within the first five or ten minutes of an interview," Smith says.

Smith urges students to stop by the Placement office for help and information concerning their job interviews.

In-service courses offered in Home Ec.

The School of Home Economics will be offering In-Service Graduate Courses during the spring semester according to Dr. Carol A. Bosan, Associate Professor and Acting Chairman of Home Economics Education.

The In-Service Program consists of graduate courses designed for men and women employed in Public and Private Schools and Colleges, Extension Services, Family Service Agencies, Hospitals, Businesses, or unemployed homemakers with an undergraduate degree.

"In-Service gives a person a chance to run into practice and apply that which she has learned in the classroom directly to job situations," Smith urges applicants to attend the courses to prepare themselves in advance of the job interview.

Faculty members to attend PCAS convention

Four members of the Winthrop English Department, Dr. Howard Smith, Dr. Carl Sturgess, Dr. Eva Mills, Dr. Gordon, N. Ross, and Dr. Christopher M. Smith, will attend the eighth annual convention of the Popular Culture Association in the South at the University of Tennessee in Nashville October 8-10, said Dr. Earl J. Wirick, Chairman of the Department of English and Drama.

The PCAS studies deal with the customs, attitudes, artifacts, events, myths, and languages that are learned and shared by a significant portion of a culture or subculture. There will be 40 sections at the convention offering papers and discussions by scholars from the wide range of Arts and Sciences disciplines.

Dr. Eva Mills, one of the coordinators for the convention, will serve as chairperson of a session dealing with Folk Literature and Art.

In this session, Bernard M. Timberg of the University of Tennessee will present a paper entitled "The Demoniac Possession of Fatty Hart," which explores the connection between the demonic imagery of Fatty Hart's kidnapping and ultimate conversion to the SLA and the 17th century kidnapping by Indians and alleged demonic possession of a 17-year-old girl in Puritan New England.

Ms. Lippings, will read some of her poetry based her work "Wisconsin Death Trip," about a small Wisconsin town, around the turn of the century.

Dr. Ross will show the influence of Fatty Hart, a black jazz pianist, in Eudora Welty's "Powerhouse," as well as play some of the old Fatty Hart tunes.

Dr. Smith will give a paper entitled "Humanism in the 1960's," dealing with the .non-fictional work of Ralph Dennis. "A very interesting kind of phenomena in itself is that he writes detective novels set in the South," said Smith. "The novels are full of power structure in the South and the Southern landscape."

Dr. Mills said, "It's very exciting from a strictly academic meeting."

"It takes seriously what most people don't take seriously," said Dr. Smith.

Initial Ink

Ink was initially manufactured by the Thaddeus Davids Ink Company, New York City, in 1853. Only a few hundred bottles were manufactured — in various sizes — and sold during the first year of operation.

WNW presents films

In the final presentation of the 1977-78 season, the WNW will present three movies. The two-part series dealing with sex roles entitled "Sex is Awful" will play Thursday, Oct. 6 at 6:00 p.m. at the Wele House, corner of Stewart and Park Avenues.

A MAN, a film which is an account of one man's efforts to break free of society's expectations for men as he deals with the death of his father, will be shown, according to Rev. David Valisanti, director.

Newman State Retreat will be held beginning Friday, Oct. 6 in Lake Greenwood. Rev. Bob Rixon, a Paduch priest from the University of St. Mary of the Lake, will lead the weekend discussions dealing with communications, relationships and male-female relationships. Students from Clemson, Furman, The Citadel, College of Charleston will also be attending. Cost of the weekend will be $10.00 and it opens to everyone in WNW according to Rev. Valisanti.
Leadership retreat a success

The Student Affairs Office sponsored a Winthrop Student/Staff Leadership Retreat in Mountain Rest, S.C., Sept. 22-23, according to Dr. Mary T. Littlejohn, vice-president for Student Affairs.

Former Winthrop Career Counselor Frank Joseph led the workshop, and attending staff members included Dean Richard Cummings.

Sixteen students, and fire staff members attended the retreat held at the summer camp of Athletic Director Neil Gordon, said Cummings. During the numerous sessions, the participants assessed their individual styles of leadership, observed the various styles of leadership, and practiced new styles of leadership, said Cummings. "The assessing, observing, and practicing of various leadership styles was done with the hope of understanding the need for different styles within a system."

Student participants agreed that the retreat atmosphere made it a real learning experience. "It was great," said Jody Guy, student coordinator for this year's Model UN. "It's good to get away from campus. The sessions were quite helpful, and I personally learned that I'm going to have to list—more to other." Junior Ann Marie Williamson, who has been involved in this type of activities, had a similar view point. "I had a fantastic time," said Williamson. "I was involved in last year's workshop which was held here on campus, and the retreat atmosphere of this year's workshop was a big help. I got to know administrators and campus leaders. I wouldn't have known as well before. It was a positive experience for me."

"It was great," said freshman Julie Teal. "I learned about problem solving and working together with others. The relaxed atmosphere helped us get to know each other better too."

Cummings said that the Student Affairs Office hopes to make the workshops a bi-annual event. Another group will probably be selected to attend in the spring, he said.

Model U.N. officers appointed

BY RICK TOBIN

The Model U.N. has added one Secretary General and seven Undersecretaries to its staff, according to Jody Guy, President.

Guy, Joyce Flyer and Patti Abbott, all Student Coordinators for the organization, interviewed these students extensively, and then appointed them to their positions. They were later approved by the Model U.N. Steering Committee, composed of Student Government leaders, Model U.N. Coordinators, and representatives from the Faculty Administration.

Most of the people appointed here have had Model U.N. experience before, and are very enthusiastic about their new positions, according to Guy. They will soon be coming on campus to urge students to join in the activities that will occur within the four-day conference in April.

COLLEGE POETRY REVIEW

The NATIONAL POETRY PRESS

ANNOUNCES

The closing date for the submission of manuscripts by College Students is November 5

ANY STUDENT attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred because of space limitations.

Each poem must be TYPED or PRINTED on a separate sheet, and must bear the NAME and HOME ADDRESS of the student, and the COLLEGE ADDRESS as well.

MANUSCRIPTS should be sent to the OFFICE OF THE PRESS.

Agoura, Ca. 91301

Classics library opens

The Classics library will open October 2 in Room 229. Wilbur Building is a project of the Modern and Classical Language Department, according to Dr. W. S. Withers, chairman of Latin, History, and Modern and Classical Languages and Cultures.

The opening of the library is made possible largely because of a donation from Mrs. L.S. Stroupe, 400 W. Carroll Street, Cherryville, N.C.

Mrs. Stroupe is an alumna of Winthrop College with a B.A. and an M.A.T. in languages and education and has been teaching Latin and French in public schools in South Carolina.

She has donated materials to the new library collected during her travels in the ancient world.

The library holds over 500 books and other materials on classical languages and cultures, mainly Latin and Greek.

Shealy said the Library is open to anyone. It will be especially helpful for those students taking Latin 101, 102, 201, Classics 105, 106 and some history courses.

Greek students of Latin 101 have been working on a catalogue of all the materials available.

Shawley said that in the meantime, the secretary of the department will hold specific requests.

Hours are 8:30 a.m. until 5:30 p.m. Monday through Friday.

Greek festivities coming

The first annual "Thiasos" (greetings, in Greek) Greek Festival, will be held October 5-7 at the Hellenic Center of Charlotte. The festival is sponsored by the Greek Community of Charlotte.

The festival will include dances and "Bouzoukes" (Greek guitar) music, live music by members of Greek Community and "Kombo Ellis," a Greek Orchestra, and films featuring the Greek mainland and islands of the Aegean.

Greek arts and crafts and newly-imported goods will be displayed and sold. Authentic Greek goods, "Koulouria, "patissieres," "gyro," and beverages will be another attraction.

Guided tours to the Holy Trinity Greek Orthodox Cathedral will be given daily during the festival. An exhibition in Byzantine Architecture and Iconography.

The festival will be 11:00 a.m. until 9:00 p.m. daily. Admission is $2 and children under 12 admitted free.

Transportation from Winthrop will be provided by The Winthrop International Club, said Mr. Thomas A. Shealy, sponsor of VTC. Shealy may be reached at 323-2191, or 208 Bancroft for further information.

Belkin and Charlotte Symphony to perform

BY ARNETHA PERKINS

Russian-born violinist Boris Belkin will perform with the Charlotte Symphony under the direction of Leo Delibes, at 8 p.m., Oct. 3 in Byrnes Auditorium on the Winthrop College campus.

The performance, opening the 1978-79 Fine Arts Association's season, features Belkin in Paganini's Concerto in D major on the Winthrop College organ.

Belkin is widely considered a rising star throughout the classical music world. He is praised for his spontaneity, brilliance, and poetic feeling. The New York Times lauded Belkin's "rare poetic feeling." The Jerusalem Post cited Belkin as a "hand-maiden of Interpretation" while the Jerusalem Post called Belkin an "outstanding young artist." Belkin's "tasteful" performance of Kuhnaw by the Copenhagen Philharmonic Orchestra in Copenhagen, Denmark and France, was in Germany, Switzerland, and Sweden. Other major appearances include concerts with the New Philharmonic Orchestra, the Donor's New Philharmonic Orchestra, and the Philadelphia Orchestra. In addition to his regular U.S. tours, Belkin has performed with the Concertgebouw Orchestra, London's New Philharmonic Orchestra, and various other major orchestras.

The opening work on the program is the sonata on a theme by the contemporary Dutch composer, Henk Andriessen. Conductor Delibes, who is also a Dutchman, studied in the Conservatory at the Hague, where Andriessen was the director.

The last half of the evening is devoted entirely to a performance of the Saint-Sans Organ Symphony No. 3, The Organ, devoted entirely to a performance of the Saint-Sans Organ Symphony No. 3. The Saint-Sans organ is used as an instrument in the world of music, as examples of its use are shown in the book, which states: "Organ music is a beautiful, emotional, and exciting art form that can be enjoyed by all."

Tickets are free, and part-time student tickets are $2.00 at the Byrnes box office.

Rustam-been Boris Belkin has been the cause of mounting excitement throughout the music world.

Trip reveals changes

Dr. Guillermina Castillo, associate professor of Spanish, and his wife, spent three weeks last summer in a tour of Spain, with emphasis on the country's cultural aspects. Castillo said that though he had been to Spain three times already and was familiar with the country, he noted a remarkable change, since his last visit in 1976, just after the death of Francisco Franco.

What particularly impressed him was the vigorous atmosphere in the society, especially in the political field. Posters and campaign signs of extreme parties, such as the Fascists and Communists (the surrounding party of Franco's policy) were prominent.

On the other hand, their cultural activities had increased. Plays, theaters, and movies, both modern and classic, obviously expressed the influence of the changed society they had experienced for the past three years. One reason for the increased activity is that there are now access to everything, good or bad, which used to be under strict censorship. But he noted their confusion in this situation. "It seems they just don't know any rules," Castillo said, "For people were suddenly permitted to demonstrate their opinion freely." Another notable aspect was the rapid improvement of the living standard, such as a rush of automobiles and up-to-date fashion clothing, which was not apparent in his previous trips.

As his general impression, Castillo said, "They threw away lies and put on blue jeans."

Diary of Anne Frank

Winthrop Drama Theatre's first production, "The Diary of Anne Frank," will be presented October 19-21 at 8:00 p.m. in Johnson Auditorium, according to Blair Beasley, Assistant Professor of Drama.

Beasley said that the play opens during 1945 with a flashback to when the Jewish family is hiding in the attic of the Nies. Anne Frank, the main character, is a 13-year-old girl who writes a diary while in the attic. Auditions were held September 5 and 6. The auditions were outstanding," Beasley said. "There was a high level of competition and quality which made the selection choices delightfully difficult."

The cast of five women and five men is headed by Sandy Constantinou, sophomore in English, who plays Anne Frank. Sherae Watson, senior in Interior Design, will play Anne's mother. Don Saville, Graduate student in Education, will be Anne's father. Margot Frank, Anne's sister, will be portrayed by Selena Caughman, sophomore in Speech/Drama, and will be played by Kathy Bishop, freshman in Speech/Drama.

Physicist Arrill, sophomore in Speech/Drama, will be Mrs. Van Dam with Bart Silver, sophomore in Speech/Drama, and Stanley Arrill, sophomore in Speech/Drama, will be Mr. Dussel, and Jeff Sterling, senior in Speech/Drama, will play Mr. Kraler.

Tickets will be $1.00 with a Winthrop I.D. and $2.00 for the public.

One or the other

When Arthur Ishane was asked whether newspapermen are newspapermen, it is reported that he replied: "Would you call Barnacle a ship?"

Sterilization use increases

Eighty million couples worldwide are using sterilization as their method of fertility control, according to the World Health Organization. France is estimated to have 3 to 4 million couples in 1950, to 20 million in 1974.

The Johnsonian critic

BY SIDNEY A. BREEZE

The Johnsonian critic has started writing newspaper reviews. His first review was of "The Diary of Anne Frank." He said that the reviewer (or, if you wish, critic) should be a hand-maiden of Interpretation. A review is a report of what happened, then give your own, unbiased opinion. Now, I will be the very first to admit that my own opinion probably isn't worth a ping pong ball in a hurricane to many people. But I DO credit myself with having a common sense and judgment to know whether something was excellent or not. In fact, any review immediately after having seen, heard, or read what is to be reviewed, so that I do not decide against my initial impressions, which are the most important. I do not decide against my initial impressions, which are the most important.

What particularly impressed him was the vigorous atmosphere in the society, especially in the political field. Posters and campaign signs of extreme parties, such as the Fascists and Communists (the surrounding party of Franco's policy) were prominent.

Business internship

Internships paying $3,000 per year for one-half time appointments in the Small Business Advisory Center will be available to graduate students in the Winthrop College School of Business Administration beginning January 1, 1979. Graduate students will be assigned for 20 hours per week at a rate of $3,000 per year to the delivery of management services to small businesses in this region. There will be opportunities for the interns to work with faculty, Service Core of Retired Executives (SCORE), and other consulting organizations to small business managers.

Internship recipients may pursue the MBA or the Master of Science in Business and Industrial Relations degrees and may be able to include a nine-semester hour course in management while serving in the Small Business Advisor Program.

Applications for the internship will be received until the positions are filled.

Winthrop College will be represented by three acts in the Consortium School Shows. Davidson College, November 4, according to Ronald Laffite, Direct Sales Activity Committee Chairperson. Students wanting to put together an act, minimum length of 15 minutes, must submit information to Direct Sales Information Desk before the deadline, October 20. Students must give the name of the act, the billing, and a description of performers. If more than three acts apply, the students will be notified.

news briefs

Showcase auditions held

The directing class will hold auditions for Showcase, Tuesday, Oct. 3, 4:30-5:30, in Johnson theatre.

The class needs students to take part in management of plays to give them practice in directing. Scenes performed for the directors may be selected for the Fall Showcase, Nov. 29-30.

Students may bring a short selection to perform if they wish. The auditions are open to all students interested in acting, regardless of whether they are experienced or not.

Dr. Carl Reynolds and Mr. Blair Bradley will answer any questions.

Watergate movie

"All the President's Men," starring Robert Redford and Dustin Hoffman, do the Washington Post reporters who uncovered the Watergate scandal, will be shown Wednesday, October 4, at 9:00 p.m. in Tillman Auditorium, according to Robby Hines.

Other movies scheduled for October are "Blazing Saddles" October 18, "The Trial of Billy Jack" October 24, and a special feature "The Omen of Halloween" October 30.

GET YOUR ACT TOGETHER

Winthrop College will be represented by three acts in the Consortium School Shows. Davidson College, November 4, according to Ronald Laffite, Direct Sales Activity Committee Chairperson. Students wanting to put together an act, minimum length of 15 minutes, must submit information to Direct Sales Information Desk before the deadline, October 20. Students must give the name of the act, the billing, and a description of performers. If more than three acts apply, the students will be notified.

Already Quit

On her son's 17th birthday, Mrs. Fred Brown: "Promise you'll tell me when you start smoking. Don't let me find out from the neighbors." "No problem, Ma. I quit smoking a year ago."
Sound and Silence unite at Byrnes

Sound and Silence, a concert performed by the Paul Winter Consort and Keith Berger, mime, will be presented at Winthrop College in Byrnes Auditorium, Thursday, October 25, at 8 p.m.

The performance, part of a four-college tour, was made possible by an arrangement with Mars Hill College, N.C., and a grant from the National Endowment for the Arts, according to Robby Sisco, Dinkins Student Center graduate assistant.

Tickets, which go on sale Oct. 1 in Dinkins Information Desk, are $2.00 for students with a Winthrop I.D. and $4.00 for guests.

Dinkins Student Center has arranged workshops conducted by the artists from both performances, scheduled for the day by the artists from both performances, conducted workshops at schools, according to Robby Sisco, Dinkins Student Center graduate assistant.

New sorority formed

Delta Sigma Theta received its charter as a national sorority at Winthrop on April 16, according to Annette James, president of the sorority.

James said that 25 women presented a petition for the sorority to Richard H. Comming, Dean of Students, in 1977 fall semester. Bessie Moody of the Education Department conducted the group, deciding when to enter or when to be silent and letting stiffness and Inhibited students down to 14 members who were Initiates at a meeting on April 16. After initiation, they elected their Executive Board. Annette James was voted president; Nancy Lindsey, vice president; Glenda Hoytes, corresponding secretary; and Louise Flanigan, recording secretary. Also elected were Annette Stults, treasurer; Sonya White, paralegal; Barbara Anderson, chaplain; and Rosa Rivers, sergeant at arms. These women will hold their offices until next April.

Delta Sigma Theta is a public service sorority which promotes leadership and scholarship. Women in the sorority must have a 2.5 GPR. They must also be involved in campus and community activities.

Most of the fund-raisers held by the sorority are to benefit campus and community activities.

Welcome Winthrop Students and Teachers!

We at HAIR BENDERS I would like to invite you into our salon for the latest in precision hair cuts for guys & gals.

We are offering a 10% discount with a Winthrop I.D.

for the month of October on perms, henna's, sun streaking, frosting and hair cuts!

We also remove facial hair by waxing.

HAIR BENDERS I is a Redken Retail Center and we have a complete line of Redken ph plus make-up, eye shadow, blush and skin care products.

For the total look: Call Linda Hinson, Becky Stallings, or Patty Farris.

Great Looking Hair
You Just Wash and Wear

Welcome Winthrop Students and Teachers!
And then there are the Liberal Arts Majors

(CPS)—Liberal arts majors, it seems, are having the roughest time finding a job this year. Ralph Keller, director of the Stanford Career Planning and Placement Center, puts it this way: "The job prospects for liberal arts majors are not promising. Not much improvement can be expected in the foreseeable future."

Placement offices have, nevertheless, been reporting increases in the number of jobs offered to humanities and social science majors this year. Sam Brown, director of the ACTION agency in Washington, D.C., has even announced a new recruitment policy that favors liberal arts majors over graduates with more technical degrees.

The increase in job offers, though, is relatively minimal. The College Placement Council (CPS) reports only an eight percent increase, compared to a 25 percent increase in the scientific disciplines.

Many observers, like Ver- non Wallace of the San Francisco State College, attribute the increase to the "whole community picking up," rather than any job boomlet. As it stands, state and federal government agencies are primarily responsible for hiring the humanities and social sciences majors.

The questionable "marketability" of liberal arts graduates seems to have worried the discipline into some drastic measures. Even the National Endowment of the Humanities, according to one of its press releases, "encouraging the development of courses which will take the humanities outside the academic realm." The hope, of course, is to endow liberal arts majors with a better chance of gainful employment.

LOW SALARIES

Those who have tried to find it have also tried to re-educate themselves. Sara Wong of the City College of San Francisco has witnessed a stream of "liberal arts majors returning to school to find some way back into the job market at higher salary levels."

The average starting salary for humanities and social science majors is $598 per month. The Michigan State University Placement Center found that liberal arts starting salaries have gone up only 4.4 percent since 1968, far lower than the corresponding increases in the Consumer Price Index.

news briefs

Dean search

A committee to assist in the search for a new dean of the College of Arts and Sciences has been appointed by President Charles Vail.

Chaired by Richard Vociott, of the Department of History, the committee members are John Ellis (social services), Howard Federman (political science), John Freeman (history), Allen Love (English) and Mary March (art).

A E Rho deadline

Deadline for applications for membership in Alpha Epsilon Rho, the communications honor society, is October 6, according to Kathy Kirkpatrick, president.

Communications majors and minors with a 2.0 GPR in communications courses and a 3.0 in all other courses may apply. Applicants also must have completed Com 345, Introduction to Broadcasting, to be eligible for membership, according to Kirkpatrick.

"We don't want to be an exclusive society this year," said Kirkpatrick. "We're planning to produce spots and programs for use at WNSC and possibly throughout the state."

Application forms are available in Johnson 208. For more information contact Kathy Kirkpatrick at 327-2635.

NRC programs for postdoctoral research

Applications are now being accepted for the NRC Research Associateship Programs for 1979. These programs provide scientists and engineers opportunities for postdoctoral research in the fields of Atmospheric & Earth Sciences, Chemistry, Engineering, Environmental Sciences, Life Sciences, Mathematics, Physics and Space Sciences.

Awarded contracts are available for problems of their choice in selected federal research laboratories at approximately 60 locations in the United States. The programs are open to recent recipients of the doctorate and, in many cases, to senior investigators also. Some programs are open to non-U.S. citizens.

Approximately 250 new awards will be made on a competitive basis in 1979. The basic stipend (subject to income tax) will be $12,000 for recent recipients of the doctorate. Higher stipends are awarded to seniors and investigators. The awards include relocation grants and funds for limited professional travel during tenure.

Applications must be made to the NRC and must be postmarked by January 15, 1979. Results will be announced in the spring.

Application materials and detailed information about specific opportunities for research are available from the Associateship office, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. 20418, (202) 385-6554.
Ronnie Laffitte—doing a great job at ATS

BY LYNDAL HADDOX

If you haven't been to ATS this semester you are in for a big surprise. Ronnie Laffitte, chairman of the Dinkins Program Board, has a lot on the ball this year.

He has already accomplished quite a bit, this being his first year as chairman. If you haven't noticed, ATS, downstairs in Dinkins, was redecorated over the summer. "Right now," said Ronnie, "I am trying to get new lights and new equipment for the P.A. system, which will help a lot."

Ronnie has many new and fresh ideas that will definitely bring ATS up in the eyes of Winthrop College students. "The most important thing I can stress is that ATS is a unique place," said Laffitte. "It is the only place in Rock Hill that is exclusively for Winthrop students and their guests. The atmosphere is good, the upcoming entertainment is excellent, and the beer is a reasonable price. I feel that we are here to cater to everyone," said Laffitte. "I am trying to get a variety of entertainment that will appeal to everyone. I don't know if the programs and events sponsored by Winthrop attract all the students."

In a few weeks there will be a questionnaire in Dinkins," he said, "to get the opinions of the students so we will know more what they want and how they feel about what we have done. We had Cool Ray, a black disco, here one weekend and the turnout was so big that we had to hold people out of the door. There were about three or four hundred people."

In addition to the scheduled performers this semester, Ronnie hopes to have a sock hop (fifties night) in October. Everything will be geared for the fifties.

"Also," said Laffitte, "I want to have a beer tasting contest. It would involve 20 or 25 people who would be blindfolded and taste the various kinds of beer."

The person correctly identifying the most would win a case of beer. For all you Monday night football fans, ATS is the place to go. As Ronnie said, "The ball games cut out the juke box people, but it is only one night and there are a lot of guys and girls who like to watch football and drink beer."

Besides entertaining students, ATS offers help to some of the local groups. "We take about three groups to Davidson College, in North Carolina—they perform with other groups from other colleges and the surrounding area, and get engagements for next year at other colleges," said Laffitte. "This year we are taking Daydream and WCBD and anyone else who wants to go."

"Anyone can perform at ATS," said Laffitte, "all they have to do is get in touch with us. They don't really have to audition."

Ronnie became interested in ATS and the program board last year. He has done just about all there is to do at ATS—tending to hopping, mopping. He realized the importance of ATS last year, and when elections came around, he ran and won the office. Now Ronnie is bringing ATS to life, and making it known. "I've got a really good committee this year. (30 members). There is no butter as there has been in the past, and not as many problems. The board is good—mom, dad, family. I can go to anyone of them and say 'help me do this'. We just get along real well."

Ronnie Laffitte. (Photo by Anne Page Copley)

"There has been more response to the individual performers at ATS this month than there was last year. This is because of better promotion and more word of mouth. This year we are trying to reach more people, but we can't reach everyone. I want to push all the performers equally," he said.

Here is a schedule of the upcoming events at ATS:

- Oct. 6-7, Alex Erwin; Oct. 29-31, Teen Parks; Oct. 20-27, Eric Baas; Nov. 3-4, Kirt Immedia; Nov. 9-11, WCBD; Nov. 13-14, Dan Titen; Nov. 18, Mike Cross; Nov. 29-30, Johnny Hilton; and Dec. 1-3, Benarde, Katz & Youngblood.

news briefs

First short course successful

The first Dinkins Short Course of the fall semester, House Plant Care, was a success. Instructor for the course, Dr. John Dille, Associate Professor of Biology, said, "The students appeared very interested in learning more about plant care and that each was very interested in the course. If I am asked to teach another short course, I am sure that I would."

Several students participating in the course gave their reactions. Diane Garrison said, "I found out why my African Violet were not blooming." Sharon Dandridge learned about different house plant pests and how to get rid of them. Jackie Osborn discovered "what it really takes to make plants grow."

As a bonus, each of the students received several plant cuttings for their dormitory rooms. Also, many of the students expressed their desire to sign up and attend such upcoming short courses as Cooking Great British (Oct. 11 and 18), Macrame (Oct. 24, Nov. 7, and 14), and International Cheeses and Wines (Nov. 1 and 8). Sign-up sheets will appear in the Student Center Desk at later dates.

Poetry reading at Joyce's

Chuck Sullivan, author of VANISHING SPECIES, will read from his poetry at Joyce's Cafe, Tuesday, Oct. 5 at 8 p.m. according to Susan Luftig, Winthrop poet and English professor.

Sullivan has had his poetry published in VILLAGE VOICE, ESQUIRE and the CAROLINA QUARTERLY.

Everything you always wanted in a beer.

And less.
**Soccer season in full swing**

**Intercollegiate soccer wrap-up**

BY BILL FLOYD

The week of Sept. 18-25 proved to be a good one for the Soccer Eagles of Winthrop. The Eagles took four wins in a row, including a double overtime victory over Brevard, before bowing to highly regarded Central Wesleyan on Sept. 25.

**Eagles fall to Central Wesleyan**

Winthrop's Soccer Eagles fell to highly regarded Central Wesleyan 5-3 in an intercollegiate soccer match played Sept. 25.

The match began with Winthrop jumping out to a quick 2-0 lead in the first 17 minutes on two goals from Frankie Griffin. Central Wesleyan came back strong and tied the score 2-2 by the half.

The second half saw Winthrop take a 3-2 lead on a third goal by Frankie Griffin. It was the sixth hat trick of Griffin's career. Central Wesleyan took control of the match and tied the score at 3 and went on to win 3-3.

Winthrop outshot Central Wesleyan 34-22 on shots on goal. Coach Jim Casada said the loss was a heartbreaker and explained that the team "never gave up." "Defensive breakdown," Casada said was the key in the defeat and commended the play of Frankie Griffin and Mike Mitchellree for their play in the match.

The Eagles are in action once again tomorrow as Winthrop faces arch rival UNC-Charlotte.

**Eagles top Brevard in double overtime, 3-1**

The Winthrop Eagles defeated Brevard College 3-1 in an exciting double overtime soccer match played at the college farm Sept. 23.

The Eagles dominated the match but a stubborn Brevard defense continually turned Winthrop back. Tim Peay put Winthrop on the scoreboard at the 10:48 mark of the first half. Brevard countered with a score from Bobby Stinnent at the 20:35 mark of the first half.

The remainder of the first half saw the match settle into the toughest defensive match of the young season for the Eagles. Winthrop continually struck at Brevard's goal throughout the second half, but the Eagles couldn't convert a goal as the match drew to a close. The first overtime saw much of the same type of play.

**2-0 victory against Wildcats**

The Winthrop Eagles defeated Davidson Sept. 22 at the college farm. Winthrop dominated the entire match overpowering Davidson in every respect, with the Eagles having 32 shots on goal to 11 for the visiting Wildcats. Goalkeeper Bob Bowen of the Eagles had his first shutout of the young season performing exceptionally with seven saves to his credit.

The Eagles scored at the 5:51 mark of the second half with halfback Steve Gibson putting the ball in between the posts from 30 yards out. Tim Peay added another goal at the 17:02 mark of the second half to make the final 2-0. Davidson's offense was completely shut down throughout the second half as the Eagles dominated play in the second half.

Coach Jim Casada was happy with the win saying, "It was the best defensive play of the season for the team," and "Mike Mitchellree had his usual steady game at fullback." The Eagles face Allen University Oct. 3 at 3:30 on the college farm.

**Eagles trounce Coastal Carolina**

The Winthrop Eagles tied two school records in defeating Coastal Carolina in an intercollegiate soccer match played Sept. 20 in Conway.

Forward Carlos Gonzales scored four goals and Frankie Griffin made four assists in the victory. Both tied school records in these two departments. Tim Peay, Fauizo Heurtes de Pino, Pend Armlstead, and Allan Rlkard added one goal each.

The victory moved Winthrop's NAIA District Six record to 1-1.

**Upcoming soccer game**

Tomorrow, the Eagles face Allen University at the soccer field. The game will begin at 3:30 p.m. U.N.C. Charlotte comes to town to face the Eagles Thursday, and Coastal Carolina will face Winthrop on Friday.

Both games will begin at 4:00 p.m. Let's support the Eagles!

Eagles drop field hockey opener to Clemson

BY KELLY GORDON

The Women's Field Hockey team lost their season opener to Clemson 1-0 in a game played at Clemson Sept. 21.

Clemson's goal was scored 20 minutes into the first half by the Tiger's Susan Alton. Coach Mardrita Bobb said the lack of an effective offense was Winthrop's downfall. "We only had six shots at the goal in the first half, and none in the second," Bobb said. "Defensively we did well not to prevent more scoring." Karen Lerman, team captain and goalie, was credited with 14 saves. Bobb also cited the play of right wing Vicki Hawkins and center backfield Pat Graham as playing an outstanding game.

The next Field Hockey game will be against Catawba College on Oct. 3. The game will be played at Catawba.

**INTRAMURAL SCORE BOARD**

**FLAG FOOTBALL**

| Sept. 20 | All of the Above - 6 | Sig Eps - 4 |
| Sept. 21 | Bluegrass Buzzards - 6 | Greased Lightning - 0 |
| Sept. 25 | Young Bucks - 46 | Sig Eps - 0 |

| Oct. 5 | Splosh Splash vs. Drowning Dingbats |
An outing in the wilderness

BY ELLEN DODD

Can you imagine co-ed tents? That is only one of the aspects of camping out with the Winthrop Outing Club. The outing club took a trip to Linville Gorge in North Carolina on the weekend of September 22. The group was led by Instructor Phillip Astwood of the Chemistry and Physics Department and Dr. John Dille of the Biology Department, both are advisors to the outing club.

Camp was set up only a few miles from the top of the Linville River around dark, Friday night. Half of our group still had energy after a day at school so we took an evening hike up to the top of the river. It is an eerie feeling to be near the wild rush of water in the dark but not be able to see it. As we walked back from the river we encountered many night insects.

Back at camp, we prepared to settle down for sleep, but found that one of our tents was not to be slept in that night for the slight rain caused the tent to leak. We doubled up.

It was interesting to wake up in the middle of the night to find one of your professors giving a lecture in his sleep.

The next morning we woke early to the smell of frying bacon and eggs. After breakfast, we left our tents and went hiking down the Linville River. We fished along the river and then attempted to cross it, but not without a minimum of wet shoes and pants legs.

Once we made it across the wet and slippery rock we went down the river to Babbel Tower on which we would go rock climbing. The rock tower gives a good view of the river and after completing the climb we started our three-mile hike to the river. On the hike back from the tower we came to spots where it appeared as though the trail would vanish into the rock that completely covered the trail at points.

During the afternoon, we went up to Table Rock which was many miles from the river. Upon reaching the top of this area we found that we could not see more than a few feet in front of ourselves and someone made the comment that it reminded us of Hanesville Falls because of all the fog that was around.

It was nesting suppertime, so we headed back to camp and ate. As the chill of the evening set in, we lit a campfire and sat around telling stories. That night as we went to sleep we were thankful for a great day.

On Sunday, we went back up to the top of Linville Falls and saw what it looked like in the daylight... Then we picked up and came back to Winthrop. Anyone seeing us would have thought we had been gone for a week rather than for only three days.

Our group consisted of ten people, in addition to the advisors. They were Dave Tilley, Narel Chappell, Shelby Bright, Ellen Dodd, Keith Windum, Randy Herron, Jo Ann Hanning, Jan Robinson, Bev McCalla and Freda Gallegly.

Zeta Tau Alpha pledges

BY KATIE C. LEE

Zeta Tau Alpha Sorority pledged 15 second semester freshmen and sophomore women into their organization Sept. 6, according to Shanda Hipsey, historian for the sorority.

The sorority held two Rush Parties in the Johnson lobby on the afternoons of Sept. 5 and 6. Newsletters were sent to second semester freshmen and sophomore women to inform them about the sorority and invite them to the parties. Jill Reynolds, Zeta Tau Alpha Field Representative from Chicago, came to assist the sorority with their Rush period. Reynolds gave a presentation at the parties explaining the different aspects of the sorority. Exhibits were also set up to show the visiting women Zeta Tau Alpha’s various areas of interest. Postcards were held after the Rush Parties.

The new pledges include Mary Alley, Pam Bayer, Cindy Crocker, Jane Freeman, Judy Hewett, Laura Holland and Donna Lumpkins. Also included are Donna Leckrone, Terri Mose, Ann Tsey, Jane Shirley, Susan Summers, Cherry Wyant, Page Doley and Tara Willis.

Linde Stewart was pledged as a special initiate. Stewart is a Winthrop College graduate and was chosen from the community by the members of the sorority. Hipsey said that the pledges will be initiated at the end of October when the chapter goes through national installation.

Prospective graduates must take test

The Graduate Management Admission Test (GMAT) will be offered on October 28, 1978 and on January 27, March 17 and July 7, 1979. The GMAT is a test of academic aptitude designed to estimate an applicant’s promise to succeed in a program of graduate study leading to an MBA or equivalent degree. About 850 graduate schools of management require their applicants to submit GMAT scores, including Winthrop College.

Registration materials for the test and GMAT Bulletin of Information are available locally from Dr. K.R. Manning, 124 Nicholson Building or by writing to GMAT, Educational Testing Service, Box 966, Princeton, New Jersey 08541.

The GMAT fee for candidates tested at published test centers in the United States, Canada, and Puerto Rico is $12.50. It covers a score report sent to the candidate, to as many as three graduate schools designated on the registration form, and to the candidate’s undergraduate counseling office if they have asked to receive their students’ scores. The fee for candidates tested at locations in other countries is $17.50. GMAT registration forms and test fees must be received at ETS on or before the registration deadline announced in the Bulletin. A $4.00 late registration fee is charged for registration forms received after the deadline. There is a service fee of $10.00 for testing at supplementary test centers (centers not listed in the bulletin).

Candidates who cannot register in advance may wish to consider registering on the test day in the test center. Walk-in registration is permitted. Candidates who cannot register in advance may wish to register on the test day in the test center. Walk-in registration is permitted. To be admitted as a walk-in registrant, a candidate must present a completed registration form and a check or money order for the regular test fee plus an additional $10.00 service fee. The $4.00 late registration fee does not apply here.

news briefs

Political Science club

The Political Science Club met and scheduled a trip to New York and Washington, D.C. during Winthrop’s Spring Break, according to Joyce Flyer, club president.

The trip will last eight days and nights and is open to all Winthrop students who would like to attend, said Flyer. The main point of interest during this trip will be a stop at the United Nations building in New York City where students will visit different delegations within the U.N. The trip will include other sights of interest in New York, as well as almost all of the major landmarks in Washington, D.C.

According to Flyer, the Political Science Club is very excited about this trip which has always been an overwhelming success in the past.

“The club will sponsor several political speakers on campus at various times throughout the school year. These speakers always provide interesting political views and are very informative,” said Flyer.

Winthrop Invitational club to meet

The Winthrop Invitational Club will meet on Sept. 27, at 8:00 p.m., in the International room of Deuce Library, according to Mr. Shealy, faculty sponsor.

The program will include a film on Kuwait’s folklore and a discussion of the culture of the country by students wearing their native costumes.

Shealy said, “There’s no charge and all students and friends of the Middle East are invited.”

ACS sponsors dinner

The Student Affiliation Chapter of American Chemistry Society will sponsor a dinner at the house of Dr. Jim Berry, advisor, on Monday, October 2, at 6:30 p.m., Renee Bell, president, announced.

Bell urged all chemistry and related science majors and minors to attend. “The purpose of the dinner is to get the interested students acquainted with our student officers and chemistry professor,” she said.

According to Bell, transportation will be provided and directions will be given to Dr. Berry’s house beginning 5:35 p.m. in front of Sims on the evening of the dinner.

Nigerian celebration

Nigerian students will hold an evening of celebration on Saturday, September 30, the eve of the Nigerian Independence Day, at 8:00 p.m. at the Shack, according to Mr. Shealy, sponsor of Winthrop’s Nigerian students.

There will be Nigerian music and dances, disco and food and drinks.

Phi Alpha Theta

Phi Alpha Theta will hold its fall initiation of new members on October 16, 1978 at 7:30 p.m. in 230 Dinkins. Members are reminded of the $5.00 annual chapter dues.
