First cheerleading squad chosen at WC

BY CYNTHIA J. WILSON

For the first time in history, Winthrop has a cheerleading squad. "This summer we earned two spirit sticks and four blue ribbons at National Cheerleaders Association Camp in Knoxville at the University of Tennessee," said Gwynn Hozy, co-captain of the squad.

Captain Nancy L. Lindsey, a senior Physical Education major from Winnsboro, enjoys cheering and bowing in her spare time. When asked about her ambitions Lindsey replied, "I plan to become a Physical Education major from Port Mill. 

Sophomore Tammy Finley, known as "Tammy to most people," is a cheerleader. "I would like to teach the orthopedically handicapped," said Finley, a Special Education major. Her hobbies are cross-stitching and bicycling.

Valerie Bridgett is a senior Biology major from Columbia. After thinking about her hobbies she replied, "I like participating in all sports. Upon completion of my major, I would like to become a laboratory researcher.

Junior Sharon Greene is a Fashion Merchandising major from Greenville. "1 would like to become a business manager for a chain of stores," she said. Her career ambition is to become a lawyer in California.

"My hobbies are tennis, reading, writing," said Charlene B. Sullivan, a junior English Education major from Rock Hill. When she finds spare time, Workman likes to play tennis or work on needlepoint. "My professional goal? I want to become a Dallas Cowboys cheerleader," a few seconds later, she admitted to having an ambition to become a writer.

Sophomore Cindy Ferrell, a Fashion Merchandising major from Rock Hill, enjoys participating in her spare time.

Junior Amy Finlayson is a sophomore from Anderson. "1 would like to teach the orthopedically handicapped," said Fivelny, a Special Education major.

Junior Valerie Bouchard, a Business Administration major from Greenville. "1 would like to become a legal secretary."

New parking lot created

A new parking lot has been created beside the tennis courts. According to one student, "I would like to become a laboratory researcher.

"We decided to do the job right the first time now," Drennan said. "As soon as we discovered that we had an overflow of several hundred cars we decided to open it up.

Ravenel reveals his proposal for curbing inflation

BY RALPH JOHNSON and CINDY DEAN

In a hurriedly-called press conference Wednesday, Sept. 27, Charles "Pig" Ravenel revealed a letter he had written to President Carter, outlining his proposal for curbing inflation.

In the letter, Ravenel again suggests a two-year government spending freeze which would freeze the budget, and tax cut, of 1980 and 1981 at the 1979 level.

"The largest single cause of our skyrocketing inflationary expectations that are the result of the federal budget deficit," said Ravenel.

Ravenel's proposal was an alternative to the Kemp-Roth plan. According to Ravenel, the Kemp-Roth plan "would triple the federal deficit.

The Kemp-Roth proposal is designed to reduce government taxes by 30 percent over the next three years. However, Ravenel feels that this proposal would be inflationary.

Instead, he reaffirms his two-year spending freeze, by describing it as, "a bold, new, simple, popular strategy which running for the senate. Instead of repeating his bid of the last election, Ravenel states, "I have gotem to the people who want lower taxes."

Ravenel says, "They're going to ask You how you're going to do? You're not going to get too easy. You have to read the last 47 chapters of Moby Dick by the end of the week. And you have a BIG exam tomorrow.

What are you going to do? You're not going to get too much studying done. You're going to get a bad grade on the exam. YOU'RE GOING TO FAIL THE COURSE! (A horrified scream pierces the quiet stillness of your room.)

Next Week

It's eleven o'clock at night. You're tired. You've got the munchies. You have to either wash your clothes or go around naked the next day. All your ink pens have run dry. You have to read the last 47 chapters of Moby Dick by the end of the week. And you have a BIG exam tomorrow.

What are you going to do? You're not going to get too much studying done. You're going to get a bad grade on the exam. YOU'RE GOING TO FAIL THE COURSE! (A horrified scream pierces the quiet stillness of your room.)

Concerning the question of nuclear waste and the Barnwell Nuclear Facility Ravenel explains that there is a bill currently in the United States Senate, "saying that the governor and legislature of each state can veto the transport of nuclear waste." However, Ravenel adds that "saying that the Barnwell Nuclear Facility Ravenel explains that there is a bill currently in the United States Senate, "saying that the governor and legislature of each state can veto the transport of nuclear waste."
Keep Macfeat Nursery

Keep Winthrop quality

THE JOHNSONIAN has presented both sides of the Macfeat Nursery issue. The controversy could still be in the air though, if the Board of Trustees can be persuaded to reconsider the issue. Letters written in an appeal to save Macfeat Nursery and Withers Kindergarten can hopefully convince members of the Board to think twice about the closing of these two facilities.

President Charles B. Vail said in the September 18 issue of TJ that he was looking for better alternatives towards the general involvements of students in Early Childhood Education. He decided to close Macfeat Nursery and Withers Kindergarten. He said, "The obligation as I see It, is to be involved in the community programs." He also said that the facilities provided a space for students to develop a caring approach for Winthrop students and that because it was not an ordinary nursery school, the students were not being prepared for real world situations. "The tendency is to think it is the very ideal setting when in reality it is a very atypical kind of setting," Vail said. "They simply fail short of the true experience that I feel that I should have, and the larger option that it opens up for the Winthrop students and what they will be called upon to do when they leave here."

Students are not concerned with what they will be called upon to do in the future. In the September issue of TJ they expressed their concern that what they are doing right now—Macfeat Nursery. They agreed that Macfeat was not a typical nursery school, but they also said, "If they have as good a program as Vail proposes to do and the American way of life have established picket lines all across America. All are asking for the usual—increased pay, better benefits, shorter working hours. So what is so special? They deserve to get ahead in life just as we do."

Having many of a member of the American labor scene a couple of years prior to college, I find myself automatically siding with labor in nearly every strike. So it was with all these groups until I realized these people were in the domain of civic service. We pay the taxes that support these groups, yet these people, who seemingly ignore the inevitable tax bills that will accrue, demand more and more. Then, too, when I tried my hand at the real world out there, I discovered that an unwritten law exists among public service agencies. The law says, in effect, "Thou Shalt Not Become A Wealthy Man." Of necessity, public service agencies cannot employ more men than they can financially support. They simply are limited, forcing administrative personnel to scratch for every penny. In other words, the groups that walk out were told of their chances in public services. They were informed of poor pay rates, rare raises, and mediocre benefit programs. They did not have to take these jobs, or if they did out of need, as I'm sure most did, they could have searched for better employment opportunities.

However, these men and women took these jobs—they ought to accept them for what they are, for when picket lines are established, the strike goes is mightily unstable. Imagery.

When doctors at a clinic in New York refuse to take in patients in lieu of more pay and shorter hours, when teachers strike in the Northeast and three hundred thousand kids are kept out of school, when farmers and policemen strike in Memphis and the city is in an uproar, or, possibly, the Postal Union on strike for a couple of weeks, the situation would get pretty hairy.

So, sometimes it seems that our fortunes can be affected at will by the whims of public service unions. If we don't watch it, we're all going to strike out.

One, two, three
strikes, you're out....

BY RON HOUGH

Well, troops, after last week's bowling at the Constitution, supported (I hope) by somewhat sectional info, I feel that it is time to return to pure biased, unsearched opinion. Oh, I just love it!

What am I gonna rava about this week? Unions. Not the humanistic organized schematics of the Teamsters, but the little penny-ante unions which seem to spring up like dandelions. Don't jump ahead of me—I've got nothing against the idea of unions. A great idea in principle—the little guy standing up to the outgrow of management—but bug in implementation. If I recall my History correctly, organized labor arose in order to protect the average Joe Blow from greedy, demanding, slave-driving bosses. Yet, unions now take it upon themselves to dictate to management (and in so what working conditions are acceptable.

That's why we now hear of strikes by firemen, cops, postal employees, and the like. It is not that I feel they should have, and the larger option that it opens up for the Winthrop students and what they will be called upon to do when they leave here.

Students are not concerned with what they will be called upon to do in the future. In the September issue of TJ they expressed their concern that what they are doing right now—Macfeat Nursery. They agreed that Macfeat was not a typical nursery school, but they also said, "If they have as good a program as Vail proposes to do and the American way of life have established picket lines all across America. All are asking for the usual—increased pay, better benefits, shorter working hours. So what is so special? They deserve to get ahead in life just as we do."

Having many of a member of the American labor scene a couple of years prior to college, I find myself automatically siding with labor in nearly every strike. So it was with all these groups until I realized these people were in the domain of civic service. We pay the taxes that support these groups, yet these people, who seemingly ignore the inevitable tax bills that will accrue, demand more and more. Then, too, when I tried my hand at the real world out there, I discovered that an unwritten law exists among public service agencies. The law says, in effect, "Thou Shalt Not Become A Wealthy Man." Of necessity, public service agencies cannot employ more men than they can financially support. They simply are limited, forcing administrative personnel to scratch for every penny. So, sometimes it seems that our fortunes can be affected at will by the whims of public service unions. If we don't watch it, we're all going to strike out.

See ya.'
Letters to the editor

Vail vs. MacFeat

Dear Editor,

Being a student in home economics and a mother with a child in MacFeat Nursery, I am very concerned about President Veil's decision to close the nursery. Having had various nursery experiences with my two children, I know that MacFeat is excellent. I am glad it is not a typical nursery. Most day care centers are less than adequate in one way or another. Our home economics students at Winthrop need a place like this so they may understand how a nursery should be operated. If this nursery is closed our students will have no learning to do anything. Your nursery to complete their child development requirements under inferior conditions.

Let those who doubt the usefulness and quality of MacFeat come and observe it in action.

Donna Kilday
Senior Home Economics Education

New species identified at Winthrop

BY RALPH JOHNSON

Residence hall living is designed, or should be designed, to provide an almost home-like environment for those students who choose to live there. Frequently, however, certain students abuse the privilege of living in a residence hall.

After careful observation and analysis, it has been found that there are approximately six unclassified species of students who are indigenous to residence halls. Hereafter, it was believed that students who reside in halls were all of one species; however, this is not the case.

The first group is known as "property destroyers." This group is characterized by an almost unbridled love for destruction of property that does not belong to them. Evidence of their existence is clearly indicated by broken windows, torn signs, beer bottles in the halls, and other numerous acts of pure destruction.

The next species is one that is easily identified. They are the "boredom freaks." They are characterized by enormous large and complex structures that have "hugs" everywhere. In fact, their motto is "the harder the better." They can be found (and heard) in any residence hall. They commonly have four food, high spirits and electric behavior. Their words and tweets are huge and cause pure aggravation for those who think of doing such unidentifiable things such as studying in their rooms.

The next species to be found is the "Asses ignorant." The female variety of the species characteristic to walk in a male residence hall without an escort and when caught utter the piercing cry of, "I didn't know." The male variety is probably the most ignorant of any species. They cannot tell time, door lockuses, and their main behavior seems to involve the sweeping of all the trash that inhabits our residence halls. No doubt you have come across a few of these people. Who knows, you might be one of them.

The fourth class is the "truant jocks." This group also known as frustrated jocks, and their main behavior consists in an almost psychological obsession to bounce balls. They bounce balls everywhere, in their rooms, in the halls, outside and on stalls. This group can be particularly irritating if you are studying and they decide to commerce their odd behavior either above you or right outside your door.

In addition, there have been other groups and species of students discovered and classified that warrant mention at this time. There are the "bathroom door lookers." These are people who do not enjoy the main pleasure out of life by locking the bathroom doors and playing hide and seek. Instead, they look in other residence halls. They are also the "hall sweepuses." whose main occupation is the sweeping of all the trash that collects in their rooms into the halls outside their doors.

These are just a few of the countless variety of fauna that inhabit our residence halls. No doubt you have come across a few of these people. Who knows, you might be one of them.

Anti-paraquat bill allows U.S. to continue funding

WASHINGTON, D.C. (CPS)-After being delayed by the Camp David summit meeting, President Carter is expected to finally sign into law a bill that was originally drafted to halt U.S. funding to Mexico's paraquat spraying program. The bill, however, will probably end up allowing U.S. funding to continue.

Introduced as an amendment to the International Security Assistance Act of 1978, the measure would have stopped the U.S. financing of a Mexican program to spray marijuana fields with a herbicide called paraquat. Marijuana lobbyists, though, protested that paraquat sprays could cause severe lung damage if inhaled, with symptoms of shortness of breath and the vomiting of blood. Consumers, moreover, could not tell without laboratory testing what marijuana had actually been sprayed.

In response, the amendment cut off U.S. monies for Operation Condor. At the last moment, though, Congress inserted a provision that funding could continue if the Mexican government found a way to color the paraquat, and thus warn its potential consumers.

Sure enough, Mexico started spraying its paraquat with something called Rhodamine B in July, even before the bill passed Congress. The U.S. State Department told CPS that the dye would wash off, and will grow under a black light. The State Department spokesman also said the dye met the provisions of the Act, and would allow U.S. funding to continue.

Mexico is also considering using other paraquat "markers," i.e., substances that would make obvious to consumers if marijuana had been sprayed. One of the markers under consideration would make the sprayed marijuana "smell like a skunk."

Mexico has informed the U.S. that it will use any kind of marker, whether legal or illegal as long as it does not violate Mexican environmental laws.
Gifted children neglected

BY KATHY KIRKPATRICK

It isn't true that bright kids just get brighter.

Many gifted and talented children in this country suffer from frustration and boredom because of lack of attention in the classroom, according to Martha Bishop, professor of elementary education at Winthrop College and director of the Institute for Teachers of the Gifted and Talented in South Carolina.

"By not allowing gifted children to make the kind of progress they're capable of, we're stifling their creative levels and spreading a general deal of frustration," said Bishop, who teaches "Teaching the Gifted and Talented," a graduate education course at Winthrop. "Frustration can cause all kinds of problems. Faced with boredom and underachievement, gifted children may become disenchanted and suffer emotional trauma. It's a study of gifted and talented high school students reported in the January issue of EXCEPTIONAL CHILDREN, more than 18 percent of the students investigated had no place to attend college or vocational schools.

Bishop defines a gifted child as one who is capable of such high performance that regular school programs are inadequate to meet his or her needs. The problem is that when regular programs are inadequate, often there is nothing to take their place. "Programs for the gifted are not being funded because people don't want to support them," Bishop said. "These children are not being served.

A recent nationwide assessment of programs for the talented and gifted, conducted by the National Association for Exceptional Children, concluded that only seven states are actively funding programs for the gifted. At least part of the problem, according to Bishop, is that the current federal definition of children who require special educational programs is too broad.

"The confusion over conflicting attitudes is undoubtedly making many students' dewelopment and suffer emotional trauma. In many cases the development of programs for the gifted is a business that is not served.

"Programs for the gifted who are being funded are basically self-supporting," Bishop said. "These programs are inadequate to meet his or her need. The program must be consistent with their educational needs."

Another factor in the neglect of gifted children is the misunderstanding of such children by the general public. "Many people believe these children are superior. They are," Bishop said. "But that's just not true. Children who are not receiving certain education are handicapped. They're being held back."

"We have to assume for too long that the gifted are strong," Duckworth continued. "There's research to substantiate that gifted children are disturbed in any way as long as they get the kind of help they need."

Help is being provided in South Carolina by the Institute of Teachers of the Gifted and Talented, established through the state's Education Bureau to train potential teachers with short courses and workshops. The institute is a spin-off of a federally funded project conducted by James H. Turner, coordinator of programs for the gifted at the South Carolina Department of Education.

"The institute has reached 68 percent of the states," Bishop said. "Then 55 percent of the students we reported in the January issue of EXCEPTIONAL CHILDREN, more than 18 percent of the students investigated had no place to attend college or vocational schools."

The institute has reached 68 percent of the states, and by next year we hope to have reached them all," said Bishop, institute director. "Each district will at least have someone with some knowledge of the area in case the district wants to start its own program."

Thanks in part to the Institute, 16 programs for the gifted and talented are now established in South Carolina. Programs like those at Winthrop, Spartanburg and Greenwood.

"If regular teachers would allow gifted children to progress, we wouldn't need special classes for them," Bishop said. "Often, however, the teachers don't recognize the students. Teachers of the gifted must be trained."
Seven pounds and an ounce of prevention

BY CINDY DEAN

Johnny Carson once said, "Parents think that it's cute when little kids hold hands. They push their kids into being suddenly become alarmed. It's as if maybe 15 or 16, parents suddenly become aware of the opposite sex and make a big fuss over first dates. Yet, when their children get a little older, maybe 15 or 16, parents suddenly become alarmed. It's as if they give the kids the cake, and then won't let them eat it." Carson received a one minute ovation.

The intent of this article is not to question the moral aspects of sexual behavior, or to encourage or discourage the use of contraceptives, but rather to acquaint you with birth control and available on-campus services.

Information about birth control is widely available at Crawford Health Center. Ms. D. Player, nurse counselor at Crawford, says, "If a student has a problem then I think she should come to us."

Ms. Player has been at Crawford for six years. Her hours are from 6:00 p.m. to 10:00 p.m. Monday through Friday. She will counsel any interested student on the methods of birth control.

Campus Spotlight

Ist woman to hold public office

BY NANCY RITTER

A portrait of the late Dr. Kate Dixon Wofford, Winthrop alumna, was unveiled Saturday, Oct. 31 in Wofford Residence Hall, on the 60th anniversary of Dr. Wofford's death, 1934.

Dr. Charles S. Davis, President of Winthrop in 1969, accepted the gift. It was donated by Mrs. Marion Vest of Huntersville, N.C. Dr. Wofford received her B.A. from Winthrop College in 1916, M.S. from Columbia in 1917, and Ph.D. from Pennsylvania State University in 1930.

Kate was a member of the following honorary sororities: Pi Beta Phi, Phi Gamma Mu and Delta Kappa Gamma. She was a charter member of Alpha Chi Omega, a social sorority.

From 1926-1927 Kate served as President of the South Carolina State Teachers' Association, secretary of the Board of Trustees of the National Education Association 1927-1934, President of the Executive Committee for NEA 1933-1934. In 1936 Kate was chosen chairman of the Rural Education Department.

While acting as Professor of Education in a Teachers College in Buffalo, N.Y., the president of the institution had told Kate, "She is a great teacher who has brought distinction to our college. Here is a reputation that is national, even international."

At an initiation of the Turkish Government, Kate was a visiting lecturer in Ankara, Oct. 1, 1951. Her responsibility was to make a survey of rural schools and to recommend a program for their improvement. The survey and report took three months to complete. Many of the recommendations were later included in the Turkish village education law.

Kate was presented the National Delta Kappa Gamma Society award for, "the most outstanding contribution made to education by a woman, and for the best professional writing in 1947." The $1000 award was granted to the Winthrop Alumna for her two novels, "Modern Education in the Small Schools," and "Teaching in Small Schools." The $25,000 memorial scholarship fund was established at Winthrop by Mr. and Mrs. G. Watts Cunningham of Laurens, South Carolinas.

Winthrop alumna--Ist woman to hold public office

Name: Lorraine Campbell
Age: 20
Subject of most interest: general sciences
Favorite animal: poodles-I breed them.
Subject of least interest: history
Favorite plant: Kalonchoe
If you woke up one morning to discover that there was nothing that you had to do, what would you do?
"I'd go over to the lab and look through a microscope. I love the phase-contrast microscope because its method of illumination allows for three-dimensional viewing."
Favorite book: I read a lot of things. I have no particular favorite.
Favorite music: "I like soft instrumental music."
Hobbies: "Embroidery and making shell jewelry."
Plans: "Medical school. I have a wild fascination with going to Johns Hopkins because they are doing research on opiate reception. I'm going into neurology, neurosurgery."

Display of pamphlets and birth control methods. From far left: Diaphragm, birth control pills, contraceptive cream, and Dettol foam. In back: IUD (intruterine device). (Photo by P. Coppley)
GRAD OF '24 DONATES W.C. ITEMS

Louise Thomas Miller, a 1924 graduate of Winthrop College, has donated more than 20,000 items documenting the history of her family to the Winthrop College Archives.

Winthrop College archivist, Ron Chepesluk says the collection includes letters, newspapers, clippings, speeches, photographs, genealogical data, diaries, and financial records. "The documents provide a unique insight to the cultural attitudes, economic conditions and historical events of the South from 1880 until the mid-1970's," he says.

DONATED TO ARCHIVES—This photo of George Zachariah Thomas is among 20,000 items donated to the Winthrop College Archives by his granddaughter, Louise Thomas Miller of Rock Hill.

FOUNDER OF TRAVEL AGENCY—Roy Thomas, father of Louise Thomas Miller of Rock Hill, was a chemistry professor at Winthrop from 1914-1926. He also founded Thomas Tours, one of the first travel agencies in the southeast.

Huck Finn for a day

Hold on to your own, Sigma Phi Epsilon Fraternity and the Shoo's Brewery are about to make Winthrop and Ralston history. Wednesday, October 11 at 2:00 p.m. they will sponsor a raft race at the college farm.

"It's the first time the lake on the school has had anything like this," said Tommy Cook, Sigma Phi Epsilon member. "Hopefully, we can turn it into an annual event."

The race, approved by President Val and Vice-President of Student Affairs Littlejohn, is an effort to get organizations involved in co-operative activity. However, any college student may participate.

For those of you who weren't willing to risk a dunking in the lake, but would like to watch, four $1.00 entry fees may be used by any number of people. Beer, food, and entertainment after the races. Deadlines for entries are Oct. 10. Each rafting group must pay a $10 entry fee. For more information, contact Freddy Jordan at ext. 3626 or Joey Raddix at ext. 3064.

Rules for entry

1. Raft can be any size or shape but must be constructed by the members of the organization.
2. Raft must have no more than six members and no fewer than four members of the organization to man the raft. Those members will be allowed into the raft race free of charge and only these members.
3. All people on the raft must have a life jacket or ski vest certified by the U.S. Coast Guard. NO SKI BELTS ALLOWED!
4. Each person on the raft will need a paddle since no motors of any type will be allowed on the raft.
5. Organizations can work on the construction of rafts at Grant Beverages, warehouse. The organization must furnish all materials in the construction of the raft. Grant Beverages will furnish free flat for the rafts to the college lake.
6. Prizes will be decided between a men's division and a women's division. Women can compete in men's division but men cannot compete in the women's division.
7. Modified boats with certified life guards and life jackets will be patrolling the lake during each race.

Teller pictures

"Students who have not already had their photographs taken are invited to the TELLER annual emitters," said Linda McNeely, editor of TELLER. "There will be a $3.50 sitting fee.

Canterbury plans trip

Canterbury, the Episcopal Campus Ministry, will be sponsoring a trip to the River Banks Zoo in Columbia Saturday (Oct. 6), according to Rev. Jeff Batinin 327-5686 or L.V. Lyon 332-3501. Rev. Batinin said that Friday morning services are held every week at the Canterbury House, 507 Patrick Ave. and breakfast is provided. Communion services are held every Tuesday at 5:45 p.m. at the Canterbury House.

Student board

The Admissions Office is currently taking applications for the Winthrop College Advisory Board at 116 Bancroft, according to Teresa Hinson, Admissions Counselor.

The board will be comprised of faculty and student representatives. More information or an application contact Dr. David Lowry, 1st floor 116 Bancroft, or at ext. 2191. Applications will be taken through Oct. 13.

Pi Kappa Phi organizes

A national fraternity, Pi Kappa Phi, is organizing a chapter at Winthrop. Roy Bird, new chapter president, said Pi Kappa Phi is an organization of men that is dedicated to improving the college experience of its members.

The fraternity is interested in athletic competition and social interaction. Goals of Pi Kappa Phi are leadership, development, and involvement in Winthrop activities, according to Bird.

Men interested in joining Pi Kappa Phi should contact Jim Bird at 325-3558 or attend the weekly meeting at 8:30 in room 221, Dinkins, Wednesday, Oct. 4.

Pom club welcomes students

The Sigma Gamma Nu pension to welcome all freshmen and transfer physical education majors was held Tuesday, Sept. 19 at the Shack, and was attended by over 100 P.E. majors, according to assistant professor Irene Dull.

The picnic was very successful," said Dull. Old members presented a skit to introduce the faculty, and the new officers were installed. Vicki Hawkins will serve as vice president, Marie Stowe as secretary, and Tina Broome as treasurer.

The club is now in the midst of a membership drive, and all interested P.E. majors should contact Dull at ext. 3380, or call the P.E. Department for more information.

Young Democrats meet

Young Democrats will hold a meeting Tuesday, Sept. 26 at 7 p.m. in the Iva Gibson room, second floor Dinkins, according to Trida Breeze, club spokesperson.

The purpose of the meeting is to discuss plans for this year's activities. All interested students are invited to attend. For further information, contact Trida Breeze at 324-1147 or 385-4624.

Winthrop invitational

BY ARNETHA PERKINS

Nearly one hundred high school seniors have been invited to attend the Winthrop Music Invitational to observe the music of Music in action October 14-15.

Students will observe four different classes, private lessons, and ensemble rehearsals.

"The purpose of the invitational," said Dr. David Lowry, Assistant Professor of Music, "is to acquaint potential music majors with the school.

The guests will be treated to seats for the Tuesday night performance of the Charlotte Symphony followed by a trip to the Shack for a party. After an overnight stay in McBee Hall, students will continue a class and band schedule until the final event, a Wednesday noon recital by faculty and students of The School of Music.
Meanwhile, the State University of New York—Gene*o has just remodeled one of its dining facilities to resemble a burger chain, with a menu to match. The idea is, the overwhelming popularity of fast foods is prompting college food service directors to borrow some marketing tips from the chains. Students are, literally, eating it up. Fast food lines are getting to be as tight at campus cafeterias, reads a recent report in Food Management magazine.

Of course, cafeterias have always offered fast food on occasion. The difference now is how they do it. "For years we served hamburgers. We just didn't market them," says Joe Bogart of SAGA, a food service contractor for some 400 colleges and schools. "Now we have a merchandising program built around fast food items."

The "merchandising" mimics the chains in quickness and accessibility. Typical is a cafeteria at Texas A&M University. Four separate lines for turkey, chicken, and sandwiches serve over 50 students a minute, boosts Dollars.

The fast food concept is paying off, too. Food service directors are finding properly marketed burgere and fries can account for substantial profit in cash sales and an increased popularity for board contracts.

But when the fast food chains themselves move onto campus, it's not quite the success story. When the world's largest McDonald's opened on the Ohio State University campus in 1974, chains began investigating campus franchising in earnest. But although chains like McDonald's, Hardee's, Pizza Hut, and Burger King maintain outlets on a score of campuses, they're finding a non-campus location may be preferable.

The Ohio State situation is an example. Burger King and Pizza Hut joined McDonald's on campus, and although all three are still operating, Burger King isn't doing well. Surrounded by classroom buildings, it only does lunch, and loses during evenings, weekends, and during school breaks.

"Campus franchises didn't mushroom," says an industry spokesman, "because the operators realize their success depended on heavier traffic and patterns that offset weekday times."

But campuses are still expanding open arms to the chains, because by leasing the space they realize from seven to 21 percent of the gross profit. This mounts up at places like the University of Cincinnati, where McDonald's doubled the food sales at the union, and at Western Illinois University, where Hardee's did the same.

RETHINKING FAST FOODS

Yet the fast food has also inspired a controversy in the college food service industry. Nutritionists generally do not regard fast food as particularly wholesome, and view the trend as alarming. Leonard Hodgson of the National Association of College and University Food Services, which oversees non-contract food services at two-thirds of all American Colleges, thinks the trend keeps a fundamental element of college food service as a whole. "Do we feed the troops regardless of the food's nutritional value," he wonders, "or use food to attempt some nutritional education?"

The nutritionists are grumbling the loudest about on-campus fast food services.

"The typical McDonald's meal," warns Dr. Jean Mayer of Tufts University, "doesn't give you much nutrition. It's very low in vitamins B and C. It's typical of the diet that raises the cholesterol, and leads to heart disease."

**ASPA meets**

The Winthrop chapter of the American Society for Personnel Administration (ASPA) was the guest of the Rock Hill Area Personnel Association at a dinner meeting held September 21 at the Rock Hill Country Club. The Winthrop ASPA chapter was presented with a superior merit award by the national ASPA headquarters at the meeting for their activities of the past year.

Winthrop ASPA meetings are held the first and third Mondays of each month at 6:45 p.m. in 219 Kinard. All students interested in the areas of personnel and industrial relations are invited to attend.

**BU activities**

Baptist Student Union students will serve lunch to the Rock Hill Ministers Association on Wednesday, Oct. 4 at 12:00 at the Baptist Student Center on Oakland Avenue.

Dena Lucy, assistant director said students are needed to help serve the lunch. Profits will go to summer missions.

Interested students are to contact Lauren Harris 333-3129 or Robbin Lewis 333-3039.

**Choir practice**

Choir practice will be held Wednesday, Oct. 4, at 5:30 at the BU Center on Oakland Avenue.

“Congratulations to those students who were selected for the Ensemble and Trio,” Lucy said.

Students will meet Thursday, Oct. 5, at BU Center at 4:00 p.m. to visit the Nursing Home according to Lucy.

Students are invited to BU Thursday, Oct. 5, following the three group performances and carrots,” said Lucy.

**Frat holds rumble**

Alpha kappa Pi is having “rumble” in the Thomson Rec-Room Oct. 11-12, 8:30 p.m. “Krum,” the activity of recruiting new members, is open to Interested second semester business majors.

**Rosso attends conference**

Dr. Rosso, Chairman of Communications Dept. attended a conference entitled “Measuring Progress in Handicapped Children,” sponsored by the Bureau for the Education of Handicapped. The conference was held in Nashville, Tenn., September 12-14.

Top topics included were innovative evaluations and measurement procedures with young handicapped children, according to Rosso.

The information that Rosso presented was measurement procedures that are in his preschool speech program for handicapped children constantly refine their measurement techniques so that we can plan for improved therapy programming,” Rosso said.

**Senate approves nominations**

During the Senate’s September 20th meeting, appointments to various branches were reviewed and unanimously approved. Those appointed as chairmen are: Academic Affairs, Jeanne Goldberg, Rules and Regulations, John Hayes; Student Life, Dena Lucy, Paula Goodwin and Lisa Jones; Finance and Penalties, Scott Ruggle, William Williamson, Donnie Campbell, and Parliamentarian.

NEWSMAKERS AFFAIRS committee members include Paula Goodwin, Becky Lander, Richard Smith, Kathy Conwell, Call Boler, Jan Johnson, Coleman Pong, and Lisa Jones. Members of the RULES and REGULATIONS are Janet Adams, Kim Richman, Kay Carman, Lynn husband, and Susan Souter, is sponsored by the Southern Literary Association.

**Bristow looks at the South**

**BY LAURA DARNEY**

Robert O’Neill Bristow, professor of English and Communications, will give a reading entitled “The Southern Carolina Writer Looks at the South” sponsored by the National Endowment for the Humanities, October 6 at 8:00 p.m. in the Baruch Room of Joyce Center.

Bristow will discuss Southern culture, tradition and race relations.

“When we talk about the South, we can’t talk two days in a row the same way because we’re changing that fast. One of the biggest errors one can make of any region is to generalize,” said Bristow.

“I think that authors have to think about the South as a way of life, not a place. The way William Faulkner approached it. People will believe anything about the South if it’s ugly enough. A great many writers have made a lot of money exaggerating the grotesque aspects of our society. Those things exist but the important question is ‘Do those things generally exist?’ Is it a general truth?” Until very recently not much concrete material was published reflecting the Southern atmosphere,” said Bristow.

“I’m going to try to discuss and contrast where we were and where we are now. And I believe our society, Southern Society, is a much improved place to live for all of its people,” Bristow’s novels are “Time for Glory,” “Night Season,” “A Far Away Drummer,” and “Laughter in Darkness.”

He has received the award for Literature (Fiction) from both the University of Oklahoma for “Time for Glory” and received the James A. Michener Award for “A Far Away Drummer.”

Bristow biography is listed in “Who’s Who in America.”

**Hope visits Clemson**

Bob Hope will return to the Clemson Student Union Thursday, Oct. 5, following the National Enowment for the Humanities reading, “The Southern Carolina Writer Looks at the South.”

Bob Hope will perform a concert in the Union Thursday evening, Oct. 5 at 8:00 p.m.

Hope has starred in more than 50 television shows and 50 feature films. He has written eight screenplays and 20 screenplays. He has written eight screenplays and 20 screenplays. He has directed a dancing act with partner, George Byrne in a Patty Arkell Revue.

Since that historic moment Hope has starred in more than 1,000 television hours. He has written more than 800 television shows and 50 feature films. He has written eight screenplays and 20 screenplays. He has written eight screenplays and 20 screenplays.

Hope has starred in more than 50 television shows and 50 feature films. He has written eight screenplays and 20 screenplays. He has written eight screenplays and 20 screenplays.

Hope has starred in more than 50 television shows and 50 feature films. He has written eight screenplays and 20 screenplays. He has written eight screenplays and 20 screenplays.

**Fast food**

(Continued from page 7)

Fast food—

“Tutti, adds concern about the lack of vegetation. "Pickles and shreds of lettuce are not vegetables," she says. As for the fiber content of most fast foods: "There's nothing to chew on." The Center for Science in the Public Interest has assigned a small McDonald's hamburger the nutritional value of eight Calvin crackers.

The nutritionists, though, are arguing into the wind of the chain's advertising and promotional machinery. At the University of Texas-Austin, for example, the surgical team of Dr. James McKeown and Dr. W. D. Johnson has attempted to persuade students with gimmicks ranging from free movies to album sales to free flowers. At Benfield College in Minneapolis and at Batesville University, students have been given free French fries and free cups when their teams have won big.
Advice for employment interviews

Jerry Smith, director of Placement and Career Planning, located in 142 Bancroft, stresses the importance of a successful interview in order for a successful job hunt.

Smith suggests several ways for students to go about having a smooth interview. "Job applicants tend to communicate their needs like a patient in a doctor's office, but the applicant should look at an interview as an opportunity to demonstrate how he or she can benefit a company to show what skills he or she has to offer that can be of value to an employer," Smith says.

Smith suggests that students go to the interview with ready answers to the employer's often unexpected question "Why should I hire you?" Smith says to list on a card at least five accomplishments that relate to the job being sought. On the reverse side, jot down five things you need to know about the job. "Don't go in assuming that if a job is offered you'll take it," he said. "Be an equal partner in the negotiations."

Smith urges applicants to look for feedback, good or bad, from the interviewer, and elicit it with a candid question if it isn't offered.

"Applicants feel negative feedback," he says, "but it's better to know the employer's doubts so you can respond to them."

"Don't go home not knowing whether or not you're in the running for a job," Smith says. "Job applicants particularly need to prepare themselves in advance for the interview. An interview often makes a decision about the applicant within the first five or ten minutes of an interview," Smith says.

Smith urges students to stop by the Placement office for help and information concerning their job interviews.

In-service courses offered in Home Ec.

The School of Home Economics will be offering In-Service Graduate courses during the spring semester, according to Dr. Carol A. Bocan, Associate Professor and Acting Chairman of Home Economics Education.

The Bocan Program consists of graduate courses designed for men and women employed in Public and Private Schools and Colleges, Extension Services, Family Service Agencies, Hospitals, Businesses, or unemployed homemakers with undergraduate degrees. Dr. Bocan said, "In-service gives a person a chance to run into practice that which he has learned in the classroom directly to job situations."

In-service courses are planned cooperatively with the State Department of Education, Division of Vocational Education, and Home Economics Education to meet the major requirements for those interested in pursuing an advanced degree in Home Economics.

Home Economics Curriculum on the 600 level will also be offered as a TV course throughout the state via closed circuit and open circuit ETV. It will consist of viewing two thirty minutes TV programs each week. Contact the Placement office for help and information concerning the courses offered, dates, and registration times. Please contact Dr. Carol A. Bocan, In-Service Coordinator School of Home Economics, Winthrop College, Rock Hill, S.C. 29733, or phone 332-2101.

Faculty members to attend PCAS convention

Four members of the Winthrop English Department, Dr. Susan J. Mills, Dr. Eke B. Mills, Dr. Gordon N. Ross and Dr. Christopher M. Smith, will attend the Annual Convention of the Popular Culture Association in the South at the University of Tennessee at Knoxville October 8-10, said Dr. Earl J. Wilcox, Chairman of the Department of English and Drama.

The PCAS studies deal with the customs, attitudes, artifacts, events, myths, and languages that are learned and shared by a significant portion of a culture or sub-culture. There will be 60 sections at the convention offering papers and discussions by scholars from the wide range of Arts and Sciences disciplines.

Dr. Eke Mills, one of the coordinators for the convention, will serve as chairperson for a session dealing with Folk Literature. In this season, Bernard M. Timberg of the University of Pennsylvania will present the second part of his "Folk Literature Series." Other papers are entitled "The Demonic Possession of Patsy Head," which explores uneasy parallels between the journalistic imagery that surrounded Patsy Head's kidnaping and ultimate conversion to the SLA and the 17th Century kidnapping by Indians and alleged demonic possession of a 17-year-old girl in Puritan New England.

Ms. Linda Williams will read some of her poetry based on her research and the Michael Levy's "Wisconsin Death Trip," about some Wisconsin towns around the turn of the century.

Dr. Ross will show the influence of Langston Hughes, a black jazz pianist, in Eudora Welty's "Powerhouse," as well as play some of the old Pats Walker tunes.

Dr. Smith will give a paper entitled "Extinction of Detective Fiction," dealing with detective novelist Ralph Danna. "A very interesting kind of phenomena in itself is that he writes detective novels set in the South," said Smith. "The novels often involve race relations and power structure in the South and the Southern landscape."

Dr. Mills said, "It's very unusual from a straight academic meeting."

"It takes seriously what most people don't take seriously," said Dr. Smith.

Initial Ink

Ink was initially manufactured by the Thaddeus Davids Ink Company, New York City, in 1835. Only a few hundred bottles were manufactured — in various sizes — and sold during the first year of operation.

WNW presents films

WNW/Winthrop/Newman will present the second part of the two-part series dealing with sex roles entitled "Sex is Awful" on Tuesday, Oct. 5 at 6:00 p.m. at the Wesley House, corner of Stewart and Park Avenues.

A MAN, a film which is an account of one man's efforts to break out of society's expectations for men as he deals with the death of his father, will be shown, according to Rev. David Valenti, director.

Newman State Retreat will be held on Lake Greenwood, Rev. Bob Rivers, a Father-priest from the University of Notre Dame, will lead the weekend discussions dealing with communications, friendships and male-female relationships. Students from Clemson, Furman, The Citadel, College of Charleston will also be attending. Cost of the weekend will be $10.00 and is open to everyone in W/NW according to Rev. Valenti.

Leadership retreat a success

The Student Affairs Office sponsored a Winthrop Student Staff Leadershhip Retreat in Mountain Rest, S.C., Sept. 22-24, according to Dr. Mary T. Littlejohn, vice president for Student Affairs.

Former Winthrop Career Counselor Frank Joseph led the workshop, and attending staff member Dean Richard Cummins.

Sixteen students and five staff members attended the retreat held at the summer camp of Athletic Director Niel Gordon, said Cummins.

During the numerous sessions, the participants assessed their individual styles of leadership, observed the various styles of leadership, and practiced new styles of leadership, said Cummins. "The assessing, observing, and practicing of various leadership styles was done with the hope of understanding the need for different styles within a system."

Student participants agreed that the retreat atmosphere made it a real learning experience. "It was great," said Jody Guy, student coordinator for this year's Model UN. "It's good to get away from campus. The sessions were quite helpful, and I personally learned that I'm going to have to listen more to others."

Junior Annie Williamson, who has been on campus three years, said, "I learned about problem solving and working together with others. The relaxed atmosphere helped us to get to know each other better, too."

Cummins said that the Student Affairs Office hopes to make the workshop a bi-annual event. Another group will probably be selected to attend in the spring, he said.

Model U.N. officers appointed

BY RICK TOBIN

The Model U.N. has added one Secretary General and seven Undersecretaries to its staff, according to Jody Guy, President.

The new additions are:
- Martha Campbell-Secretary Gen.
- Kay Massey-Undersecretary for Public Relations
- Linda Trail-Undersecretary for Conference Committees
- Vicky Pace-Undersecretary for Conference Services
- Cindy Tuck-Undersecretary for Member Nation Delegations
- Julie Durham-Undersecretary for Protocol
- Ralph Johnson-Undersecretary for Recruitment and Training
- Laura Deitche-Undersecretary for General Services.

Guy, Joyce Flyer and Pattie Abbott, all Student Coordinators for the organization, interviewed these students extensively, and then appointed them to their positions. They were later approved by the Model U.N. Steering Committee, composed of Student Government leaders, Model U.N. Coordinators, and representatives from the Faculty Administration.

Most of the people appointed here have had Model U.N. experience before, and are very enthusiastic about their new positions, according to Guy. They will soon be coming out on campus to urge students to join in the activities that will occur within the four-day conference in April.

COLLEGE POETRY REVIEW

BY RICK TOBIN

The closing date for the submission of manuscripts by College Students is November 5

ANY STUDENT attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred because of space limitations.

Each poem must be TYPED or PRINTED on a separate sheet, and must bear the NAME and HOME ADDRESS of the student, and the COLLEGE ADDRESS as well.

MANUSCRIPTS should be sent to the OFFICE OF THE PRESS.

NATIONAL POETRY PRESS

Box 218 Agoura, Ca. 91301

Classics library opens

The new classics library will open October 2 in Room 229, Wilbur Building, as a project of the Modern and Classical Language Department, according to Mr. Thomas A. Shealy, assistant professor of Latin and Greek.

The opening of the library is made possible largely because of a donation from Mrs. L.S. Stroupe, 408 W. Carroll Street, Cherryville, N.C.

Mrs. Stroupe is an alumnus of Winthrop College with a B.A., and an M.A.T. in languages and education and has been teaching Latin and French in public schools in South Carolina.

She has donated materials to the new library collected during her travels in the ancient world. The library holds over 500 books and other materials on classical languages and cultures, mainly Latin and Greek.

Shealy said the library is open to anyone. It will be especially helpful for those students taking Latin 101, 102, 201, Classics 105, 106 and some history courses.

Any student of Latin 101 have been working on a catalogue of all the materials available.

Shealy said that in the meantime, the secretary of the department will hold with specific requests.

Hours are 8:30 a.m. until 5:30 p.m. Monday through Friday.

Greek festivities coming

The festival will be another attraction.

Guided tours to the Holy Trinity Greek Orthodox Cathedral will be given daily during the festival by a member of the Greek Community of Charlotte.

The festival will be 11:00 a.m. until 9:00 p.m. daily. Admission will be $2.00 for adults and $1.00 for children under 12 admitted free.

Transportation from Winthrop will be provided by the Winthrop International Club, said Mr. Thomas A. Shealy, sponsor of WC. Shealy may be reached at 323-2191, or 206 Bancroft for further information.
Belkin and Charlotte Symphony to perform

BY ARNETIA PERKINS

Russian-born violinist Boris Belkin will perform with the Charlotte Symphony under the direction of Leo Delibes, at 8 p.m., Oct. 3 at Byrnes Auditorium on the Winthrop College campus.

The performance, opening the 1978-79 Fine Arts Association season, will feature Belkin, known as the "young prodigy." In The New York Times, Samuel L. Singer wrote, "He has a rare poetic feeling," and Maestro Leonard Bernstein, in the Boston Globe, cited his "sweet yet rich and firm quality." As Rochester's New Philharmonic Orchestra, the Israel Chamber Orchestra and to his regular U.S. tour, he has performed with Leonard Bernstein and the New York Philharmonic, and the Los Angeles Philharmonic Orchestra, the Israeli Philharmonic Orchestra and the Philadelphia Orchestra. In addition to his regular U.S. tours, Belkin has performed with the Concertgebouw Orchestra, London's New Philharmonic Orchestra, and the Tokyo Symphony. His repertoire includes an extensive list of masterpieces by contemporary composers, as well as the work of his Russian predecessors.

The program will include "The last half of the evening will be a seminar on contemporary music," he said. "But I am sure that my audiences will enjoy this exciting music." The performance is sponsored by the Charlotte Symphony Association, which has kept its prices low in order to make the event accessible to all audiences. The prices are $2.00 for full-time Winthrop students, $3.00 for part-time Winthrop students, $5.50 for other students, and $7.00 for adults.

Trip reveals changes

Dr. Guilherme Castilho, associate professor of Spanish, and his wife, spent three weeks last summer on a tour of Spain, with emphasis on the country's cultural aspects. Castilho said that though he had been to Spain three times already and was familiar with the country, he noted a remarkable change, since his last visit in 1976, just after the death of Francisco Franco.

What particulary impressed him was the vigorous atmosphere in the society, especially in the political field. Posters and campaigns of extreme parties, such as the Right and the Left, were evident throughout the country. Castilho said that though he had been to Spain three times already and was familiar with the country, he noted a remarkable change, since his last visit in 1976, just after the death of Francisco Franco.

Another notable aspect was the rapid improvement of the living standard, such as a rush of automobiles and up-to-date fashion clothing, which was not apparent in his previous trips. As his general impression, Castilho said, "They threw away laces and put on blue jeans."
ETV and Winthrop—a good relationship

BY SIDNEY A. BREEZE

More over, Rock Hill area—there's a new station in town! The Educational Television Network has added Rock Hill Channel 30 to its system. Located in the York TEC campus, Channel 30 will provide the public with high quality shows and fine entertainment.

Phoebe Lark, a Winthrop senior, works part-time at Channel 30. Originally hired as a switcher (which involves handling communal breaks and directing programs on the air), she is now working as a production assistant.

"I try to get involved in as many aspects of T.V. as possible. Everyone can see mainly what's going out on the T.V. itself, but very few people realize what goes on behind the scenes." Phoebe got her job by calling the station up and inquiring about the Winthrop internship program. Although the program hadn't actually been started yet, she stated that an application be sent to her for the possibility of part-time employment. A week and one day later, her application had been accepted.

"I was ecstatic when I heard the news. Actually, when I say ecstatic, that's sort of an understatement. That's quite a large understatement, really." This was July 7. But she still enjoys her job as much as she did when she started.

Dr. Roy Flynn, also of the Communications Department, said, "I love my job, and I'm learning a lot. I hope to work full-time after I graduate." Bob Frierson, the station manager during the internship, has made an application to the Governor Internship Program so that students, not only from Winthrop, can have their internship in television at ETV.

Concerning the internship program in television, Dr. John Sargent of the Communications Department, said, "First of all, we want to make sure that the students have enough background in the courses so that he is able to prove himself.

"A student must take Communications courses 241, 341, 346, and 346 in preparation for the internship. Sargent said that he feels it is important that the student, when working under a television station manager during the internship period, should have the opportunity to do some real, on-the-job training. "We don't want him to be a 'gofer.'"

Dr. John Sargent, professor of communications at Winthrop, consults his files for department interns. (Photo by Copley)

Business internship

Internships paying $3,000 per year for one-half time appointments in the Small Business Advisory Center will be available to graduate students in the Winthrop College School of Business Administration, beginning January 1, 1978. Graduate students will be assigned for 20 hours per week in service to small businesses in this region. There will be opportunities for the interns to work with faculty, Service Corps of Retired Executives (SCOREB), and other concerns dealing with small business managers.

Internship recipients may pursue the MBA or the Master of Science in Business Administration, Industrial Relations degrees and complete the nine semester hours of coursework while serving in the Small Business Center.

Applicants for the internship will be reviewed to determine if they have completed all requirements for admission to the graduate programs of the School of Business Administration. Write or call: K.R. Manning SBA Graduate Director 124 Klarid Building Winthrop College Rock Hill, S.C. 29733 Telephone: 523-2186

Get your act together

Winthrop College will be represented by three acts in the Consortium School Showcase, Davidson College, November 4, according to Ronnie Uffitto, Davidson Activity Committee Chairperson.

Students wanting to put together an act, minimum length of 16 minutes, must submit information to Diskins Information Desk before the deadline October 20. Students must give the name of the act, the billing, and all technical needs and rehearsal times.

"No problem, Ma. I quit smoking a year ago," Mom pleaded.

Already Quit

On her 17th birthday, Mom pleaded: "Promise you'll tell me when you start smoking. Don't let me find out from the neighbors."
Sound and Silence unite at Byrnes

Sound and Silence, a concert performed by the Paul Winter Consort and Keith Berger, will be presented at Winthrop College, Byrnes Auditorium, Thursday, October 12, at 8 p.m.

The performance at Winthrop, part of a four-college tour, was made possible by an arrangement with Mars Hill College, N.C., and a grant from the National Endowment for the Arts, according to Robby Sisco, Dinkins Student Center graduate assistant.

Tickets, which go on sale Oct. 2 at Dinkins Information Desk, are $2.00 for students with a Winthrop I.D. and $4.00 for guests.

Dinkins Student Center has arranged workshops conducted by the artists from both performances.

The Paul Winter Consort, the sound half of Sound and Silence, is a professional ensemble which has brought its “free form” music — an improvisatory blend of jazz, rock, and folk music of many cultures — to concerts and workshops across the country.

The idea of concerts dates back to the Renaissance England; the sixteenth century “consort of musick” was a group of musicians who toured England improvising on popular songs and dances.

Any combination of instruments may be used in a consort, the instrumentation of the five-member Paul Winter Consort consists of woodwinds (amplified and acoustic), keyboard, guitar, and extensive percussion.

Paul Winter, who studied music in college and later became a professional jazz player, contends that a symphonic ensemble is for the pleasure of the audience, and chamber music is for the enjoyment of everyone.

He believes that consort music offers a new alternative for all musicians, especially those who do not play on the professional performing career but who would love to make music for the rest of their lives outside school.

The touring consort often conducts workshops at schools in which they ask students to sit in a circle with the lights dimmed and concentrate on musical sounds produced by four instrumentalists in the center of the room. The four musicians, improvising freely, each player both a leader and accompanist in the group, deciding when to enter or when to be silent and let the texture thin out.

The rest of the students begin improvising with their voices. David Darling, a member of the group, describes such vocal “loose-ups” as helping him to keep stiff, inhibited students open their voices for improvisation.

The Paul Winter Consort was one of the groups invited to perform in the festivities celebrating President Carter’s inauguration.

His performance at Winthrop on April 16, according to Annette James, president of the sorority, was of special interest to members of the sorority, Sisco said. The work of the members of the Paul Winter Consort will be of special interest to drama, P.E., and music students, although all students may benefit.

The Paul Winter Consort, the sound half of Sound and Silence, is a professional ensemble which has brought its “free form” music — an improvisatory blend of jazz, rock, and folk music of many cultures — to concerts and workshops across the country.

New sorority formed

Delta Sigma Theta received its charter as a national sorority at Winthrop on April 15, according to Annette James, president of the sorority.

Delta Sigma Theta was formed to promote leadership, scholarship, service, and sisterhood for women in the South.

Delta Sigma Theta was organized in 1913 at Howard University in Washington, D.C., where the sorority now has its national headquarters. There are 96 chapters in the Southeastern region.

Delta Sigma Theta is a national sorority which promotes leadership, scholarship, and service for women in the community.

...And then there are the Liberal Arts Majors

(CPS) - Liberal arts majors, it seems, are having the roughest time finding a job this year. Ralph Keller, director of the Stanford Career Planning and Placement Center, puts it this way: "The job prospects for liberal arts majors are not promising. Not much improvement can be expected in the foreseeable future."

Placement offices have, nevertheless, been reporting increases in the number of jobs offered to humanities and social science majors this year. Sam Brown, director of the ACTION agency in Washington, D.C., has even announced a new recruitment policy that favors liberal arts grade over grade with more technical degrees.

The increase in job offers, though, is relatively minimal. The College Placement Council (CPS) reports only an eight percent increase, compared to a 25 percent gain in the scientific disciplines.

Many observers, like Vernon Williams of the San Francisco State College, attribute the increase to the "whole community picking up," rather than any job boomlet. As it stands, state and federal government agencies are primarily responsible for hiring the humanities and social sciences majors.

The questionable "marketability" of liberal arts graduates seems to have worried the discipline into some drastic measures. Even the National Endowment of the Humanities, according to one of its press releases, "encouraging the development of courses which will take the humanities out of the academic setting."

The hope, of course, is to send liberal arts majors with a better chance of gainful employment.

news briefs

Dean search

A committee to assist in the search for a new dean of the College of Arts and Sciences has been appointed by President Charles Vail.

Chaired by Michael Vianett, of the Department of History, the committee members are John Ellis (social services), Howard Federico (political science), John Freeman (history), Allen Low (English) and Mary March (art).

A E Rho deadline

Deadline for applications for membership in Alpha Epsilon Rho, the communications honor society, is October 6, according to Kathy Kirkpatrick, president.

Communications majors and minors with a 2.0 GPA in communications courses and a 2.0 in all other courses may apply. Applications also must have completed Com 345, Introduction to Broadcasting, to be eligible for membership, according to Kirkpatrick.

"We don't want to be an inactive society this year," said Kirkpatrick. "We're planning to produce spots and programs for use at WNSC and possibly throughout the state."

Applications forms are available in Johnson 208. For more information contact Kathy Kirkpatrick at 327-2635.

NRC programs for postdoctoral research

Applications are now being accepted for the NRC Research Associateship Programs for 1979. These programs provide scientists and engineers opportunities for postdoctoral research in the fields of Atmospheric & Earth Sciences, Chemistry, Engineering, Environmental Sciences, Life Sciences, Mathematics, Physics and Space Sciences.

Awards conduct research on problems of their choice in selected federal research laboratories at approximately 65 programe locations in the United States. The programs are open to recent recipients of the doctorate and, in many cases, to senior investigators also. Some programs are open to non-U.S. citizens.

Approximately 250 new awards will be made on a competitive basis in 1979. The basic stipend (subject to income tax) will be $18,000 for recent recipients of the doctorate. Higher stipends are awarded to senior investigators.

Application materials and detailed information about specific opportunities for research are available from the Associateship office, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. 20418. (202) 389-6584.

LOW SALARIES

Those who have tried to find it have also tried to re-educate themselves. Sara Weng of the City College of San Francisco has witnessed a stream of "liberal arts majors returning to school to find some way back into the job market at higher salary levels."

The average starting salary for humanities and social science graduates is $859 per month. The Michigan State University Placement Center found that liberal arts starting salaries have gone up only 4.4 percent since 1969, far lower than the corresponding increases in the Consumer Price Index.
Ronnie Laffitte—doing a great job at ATS

BY LYNDAL HADDOX

If you haven't been to ATS this semester you are in for a big surprise. Ronnie, chairman of the Dinkins Program Board, has a lot on the ball.

Soccer season in full swing

BY BILL FLOYD

The week of Sept. 18-25 proved to be a good one for the Soccer Eagles of Winthrop. The Eagles took four wins in a row, including a double overtime victory over Brevard, before bowing to highly regarded Central Wesleyan on Sept. 25.

Eagles fall to Central Wesleyan

Winthrop's Soccer Eagles fell to highly regarded Central Wesleyan 5-3 in an intercollegiate soccer match played Sept. 25.

The match began with Winthrop jumping out to a quick 2-0 lead in the first 17 minutes on two goals from Frankie Griffin. Central Wesleyan came back strong and tied the score 2-2 by the half.

The second half saw Winthrop take a 3-2 lead on a third goal by Frankie Griffin. It was the sixth hat trick of Griffin's career. Central Wesleyan took control of the match and tied the score at 3 and went on to win 5-3.

Winthrop outshot Central Wesleyan 34-22 on shots on goal.

Coach Jim Casada said the loss was a heartbreaker and explained that the team "never gave up." Defense breakdown, Casada said was the key in the defeat and commended the play of Frankie Griffin and Mike Mitchelletti for their play in the match.

The Eagles are in action once again tomorrow as Winthrop faces arch rival UNC-Charlotte.

Eagles top Brevard in double overtime, 3-1

The Winthrop Eagles defeated Brevard College 3-1 in an exciting double overtime soccer match played at the college farm Sept. 23.

The Eagles dominated the match but a stubborn Brevard defense continually turned Winthrop back. Tim Peay put Winthrop on the scoreboard at the 10:48 mark of the first half.

Brevard countered with a score from Bobby Stinnent at the 20:35 mark of the first half.

The second half saw Winthrop take a 3-2 lead on a third goal by Frankie Griffin. It was the sixth hat trick of Griffin's career. Central Wesleyan took control of the match and tied the score at 3 and went on to win 5-3.

Eagles drop field hockey opener to Clemson

BY KELLY GORDON

The Women's Field Hockey team lost their season opener to Clemson 1-0 in a game played at Clemson Sept. 21.

Clemson's goal was scored 20 minutes into the first half by the Tiger's Susan Allon.

Coach Masseria Bobb said the lack of an effective offense was Winthrop's downfall. "We only had seven shots at the goal in the first half, and none in the second," Bobb said. "Defensively we did well not to prevent more scoring."

Karen Brown, team captain and goalie, was credited with 14 saves. Bobb also cited the play of right wing Vicki Hawkins and center halfback Patrick Graham as playing an outstanding game.

The next Field Hockey game will be against Catawba College on Oct. 3. The game will be played at Catawba.

INTRAMURAL SCORE BOARD

FLAG FOOTBALL

Sept. 20 All of the Above - 6 Sig Eps - 4
Sept. 21 Bluegrass Buzzards - 6 Greased Lightning - 0
Super Rush - 10 Keg Tappers - 14
Sept. 25 Young Bucks - 16 Sig Eps - 0
Greased Lightning - 16 P. Kapp - 16

SOFTBALL

Sept. 19 Bluegrass Buzzards - 11 All-Stars - 3
Sept. 20 Fun - 15 Loafers - 11
Sept. 21 Pennant Pros - 18 All of the Above - 1

WATER BASKETBALL

Sept. 20 Dunking Dolphons - 2 Wet Mounts - 0

UPCOMING GAMES

Oct. 4 5:00 All of the Above vs. Bluegrass Buzzards
6:15 Young Bucks vs. Super Rush

SOFTBALL

Upcoming soccer game

Tomorrow, the Eagles face Allen University at the soccer field. The game will begin at 3:00 p.m. U.N.C. Charlotte comes to town to face the Eagles Thursday, and Coastal Carolina will face Winthrop on Friday.
An outing in the wilderness

BY ELLEN DODD

Can you imagine co-ed tents? That is only one of the aspects of camping out with the Winthrop Outing Club.

The outing club took a trip to Linville Gorge in North Carolina on the weekend of September 22. The group was led by Instructor Phillip Astwood of the Chemistry and Physics Department and Dr. John Dille of the Biology Department, both are advisors to the outing club.

Camp was set up only a few miles from the top of the Linville River around dark, Friday night. Half of our group still had energy after a day at school so we took an evening hike up to the top of the river. It is an eerie feeling to hear the wild rush of water in the dark but not be able to see it. As we walked back from the river we encountered many night insects.

Back at camp, we prepared to settle down for sleep, but found that one of our tents wasn't to be slept in that night for the slight rain caused the tent to leak. We doubled up.

It was interesting to wake up in the middle of the night to find one of your professors giving a lecture in his sleep.

The next morning we woke early to the smell of frying bacon and eggs. After breakfast, we left our camp to go hiking down the Linville River. We fished along the river and then attempted to cross it, but not without a minimum of wet shoes and pants legs.

Once we made it across the wet and slippery rock we went down the river to Babbel Tower on which we would go rock climbing. The rock tower gives a good view of the river and after completing the climb we started on three-mile hike to the river. On the hike to and from the tower we came to spots where it appeared as though the trail would vanish into the rock that completely covered the trail at points.

During the afternoon, we went up to Table Rock which wasn't many miles from the river. Upon reaching the top of this area we found that we could not see more than a few feet in front of ourselves and someone made the comment that it reminded me of the movie "Heaven Can Wait" because of all the fog that was around us.

It was nesting suppertime, so we headed back to camp and to the chill of the evening set in, we lit a campfire and sat around telling stories. That night as we went to sleep we were thankful for a great day.

On Sunday, we went back up to the top of Linville Falls and saw what it looked like in the daylight... Then we packed up and came back to Winthrop. Anyone seeing us would have thought we had been gone for a week rather than for only three days.

Our group consisted of ten people, in addition to the advisors. They were Dave Tilley, Nel Chappell, Shelby Bright, Ellen Dodd, Keith Winder, Randy Herren, Jo Ann Haning, Jan Robinson, Bev McCall and Priscilla Gallegly.
Zeta Tau Alpha pledges

BY KATIE C. LEE

Zeta Tau Alpha Sorority pledged 16 second semester freshmen and sophomore women into their organization Sept. 6, according to Shanda Hipley, historian for the sorority.

The sorority held two Rush Parties in the Johnson lobby on the afternoons of Sept. 5 and 6. Newsletters were sent to second semester freshmen and sophomore women to inform them about the sorority and invite them to the parties.

All Reynolds, Zeta Tau Alpha Field Representative from Chicago, came to assist the sorority with their Rush period.

Reynolds gave a presentation at the parties explaining the different aspects of the sorority. Exhibits were also set up to show the visiting women Zeta Tau Alpha’s various areas of interest and what happens after the Rush Parties.

The new pledges include Mary Alley, Pam Beyer, Cindy Crocker, Jane Freeman, Judy Hewett, Laura Holland and Donna Lumpkins.

The GMAT fee for candidates tested at published test centers in the United States, Canada, and Puerto Rico is $13.50. It covers a score report sent to the candidate, to as many as three graduate schools designated on the registration form, and to the candidate’s undergraduate college.

If they have asked to receive their students’ scores. The fee for candidates tested at locations in other countries is $17.50. GMAT registration forms and test fees must be received at ETS on or before the registration deadline announced in the bulletin. A $4.00 late registration fee is charged for registration forms received after the deadline. There is a service fee of $10.00 for testing at supplementary test centers (centers not listed in the bulletin).

Candidates who cannot register in advance may wish to consider registering at the test center on the day of the test. Walk-in registration is permitted at all Saturday test centers if sufficient space and test materials are available after all pre-registered candidates have been admitted. To be admitted as a walk-in registrant, a candidate must present a completed registration form and a check or money order for the regular test fee plus an additional $10.00 service fee. The $4.00 late registration fee does not apply here.

Prospective graduates must take test

The Graduate Management Admission Test (GMAT) will be offered on October 28, 1978 and on January 27, March 07, and July 7, 1979. The GMAT is a test of academic aptitude designed to estimate an applicant’s promise to succeed in a program of graduate study leading to an MBA or equivalent degree. About 500 graduate schools of management require their applicants to submit GMAT scores as a part of their admission process. The Graduate Management Admission Test (GMAT) will be offered on October 28, 1978 and on January 27, March 07, and July 7, 1979. The GMAT is a test of academic aptitude designed to estimate an applicant’s promise to succeed in a program of graduate study leading to an MBA or equivalent degree. About 500 graduate schools of management require their applicants to submit GMAT scores as a part of their admission process.

Registration materials for the test and GMAT Bulletin of Information are available locally from Dr. K.R. Manning, 124 Keith Building or by writing to GMAT, Educational Testing Service, Box 966, Princeton, New Jersey 08541.
