Phelps Asks State For \$395,692 Budget

• Monday morning at 8:30, all due slips must be in the registrar's office, and in a day or two we'll all know the warrant. After the minimum amount, we've stood this week, we guess we can bear anything.

One unfortunate gal had three classes Monday. She took an assigned test that was a masterpiece and stumbled wearily to her second class only to get a pop test. That left her dazed, but the third class with another "little check-up" completely foored her.

Just personally, we'd rather take final exams than lead this sort of life. After all you can't have two on a Monday no matter how the schedule runs, and you do get a chance to worry a little before hand, instead of wishing you were dead afterward.

• The Y and Mrs. Mildred Ing-

keep Morgan about take a course for him on the campus last week. Capacity Boy—Girl

crowds at every lecture (so large, the meeting had to be transferred from Johnson hall to Main Auditorium) since the girls can be interested in some subjects.

The compact which Mrs. Morgan drew upon most was the boy-girl relationship, and that undoubtedly was one of the main reasons for the enthusiasm of the audience. Girls nowadays are frank about their interests and ambitions. We think its much healthier and even more fun than Victorian coyness.

If lectures on boys and girls are so popular, just think how quickly a regular club in marriage would be filled! We have a hope "list" for Winthrop that already has it in a senior dormitory, big classes, dormitory room, study room, dance, and smoking rooms. Now we'd like to add a course in marriage, and wearing evening dreams for artist courses and other festive occasions in our lives.

• A certain chancing faculty member did something the other day that endeared her to the heart of at least one pup.

Profs Shook thanked the As pupil for doing a People rather difficult tal assignment, so nicely!

Another faculty member called a student to tell her she never met a first period class. The girl had just returned from a spring trip and the class was going to be given over to checking a test she had not taken.

Both thoughtfulness and consideration makes a lot of difference in the atmosphere of a college.

A few, very, very few, professors seem a little inclined to dismiss students from their lives as the bell dismisses the class. Most Winthrop students discover early their freshmen year that professors are people, too, and are glad to go at least half-way in furthering the friendly spirit which exists between the faculty and the student body here.

80 Seniors Exchange Next Week

With 80 student-teachers leaving for schools in North and South Carolina, the eighth year of the Teacher Exchange Program begins Monday to continue through Saturday. Last fall eighty-one girls participated in the exchange.

The Teacher Exchange Program was begun in 1931, (1) to give teachers an opportunity to come to Winthrop Training School for observation, and (2) to give the student teacher in training an opportunity to teach for one week in a regular situation.

According to Superintendent O. M. Mitchell of Winthrop, the School the effect of the program on the employment of student teachers is evident. In some instances every student teacher exchanging in a school has been employed by the superintendent of that school.

Many superintendents have expressed the opinion that the Exchange Program at Winthrop college was as valuable to their teachers as is a six week's summer course.

Taking part in the program next week are the following Winthrop seniors, the teachers exchanging:

The executive committee approved the donation of \$100 to the Tillman Memorial fund and an addition of \$110 to the D. B. Johnson scholarship of the present year. A plan for holding district meetings in the spring rather than the fall was adopted.

The executive committee have a curious habit of swallowing some hard indigestible substance, such as a stone, a brick, or a tree-knot before they hibernate.

Dr. Dawson Says South Handicapped

Dr. Howard Dawson of the National Education Association painted a dire picture of educational opportunities for children in the South in his address before the teachers of the Fifth congressional district Wednesday.

"One-third of the nation's children live in the South," he said, "and yet the South has only one-sixth of the national income for education." Dr. Dawson, who was raised in Arkansas, contrasted "a community of 1600 families in Mississippi, whose children attend schools in condemned tenement houses" with "a community in the North where children have every conceivable advantage in educational equipment under teachers making \$2000-3000 per year."

Dr. Dawson appealed to the Federal government to help adjust this inequality. "It is evidently fair for capital and industry in the North and East to help educate their future citizens," he said in pointing out the large migration yearly of youth out of the South.

Praising President Franklin D. Roosevelt, Dr. Dawson told the audience of 700 teachers that "Dr. Phelps has done more for me than any living man.

To show you what I think of him, I named my 11-year-old son Joseph Shelle Dawson." Dr. Dawson was a graduate student under Dr. Phelps for three years at George Peabody college.

J. P. Coates, secretary of the South Carolina Education association made a report on enrollment activities in the Fifth district Sept. 25. E. W. Rushton spoke for the State Department of Education. State education spoke for our National association. The sextette, string ensemble, and Lloyd Bender furnished musical numbers. The Rev. W. P. Peyton conducted the divisional.

John G. Kelly, welcoming the delegates for President Phelps, told the group "you are always welcome here. And when the new auditorium is completed, we want you to all it." Mr. Kelly introduced Dr. Dawson to the teachers.

Ed Club Has Assembly

Members of the Secondary Education club were in charge of assembly Wednesday, which was centered around "National Education Week" next week.

Charlotte Riley, president of the club, presided. Charlotte Leitner had charge of the devotional and hymn. Sarah Tribble, Mary Ellen Adams, and Mary Barnes made talks.

Jenny Hampten was organist.

Y Announces Activities For Prayer Week

The Y, in co-operation with denominational groups, will observe Week of Prayer and World Fellowship all of next week.

The initial meeting will be a campfire service on the athletic field Sunday evening conducted by Miss Chet Fink, instructor in English, and Sam Tribble, senior of Rock Hill.

At the regular vesper hour on Wednesday evening, a movie will be shown, the title of which has not been announced as yet. The Johnsonian goes to press.

Mrs. Keen Martin, director of the Wesley foundation, and Nancy Beatty, senior of Anderson, will be in charge of a cross service at 6:30 Friday in Johnson hall.

Further observance of "Week of Prayer" will consist of "Taps" meetings in each of the dormitories at 10:15 on Monday through Friday. These small group meetings, in which every girl on the campus is invited to participate, are being arranged by Miss Christine Wyatt, Baptist student secretary of Winthrop.

Those in charge of "Taps" are as follows: Bancroft, Miss Christine Wyatt; Nettie Wells; Mary Lou Price; Bresalee, Mrs. Jack Hayes; Presbyterians, Mrs. John Hayes; Sykes, Mrs. Rose Wilson; Margaret Massie, Mrs. Reeser Massie; Anne Clarkson, Nancy Beatty; McLaurin, Miss Caroline Hines; Episcopal student secretary, Louise Caithron; Frances Whitehead; Reddick, Miss Elizabeth Stinson; Y secretary, Christine Riley; Mildred McKeithen.

The only morning watch to be held will be the regular morning service at 7:30 Tuesday in the Alumnus room. However, morning meditations bearing on the general theme of the week will be prepared and distributed for private meditation.

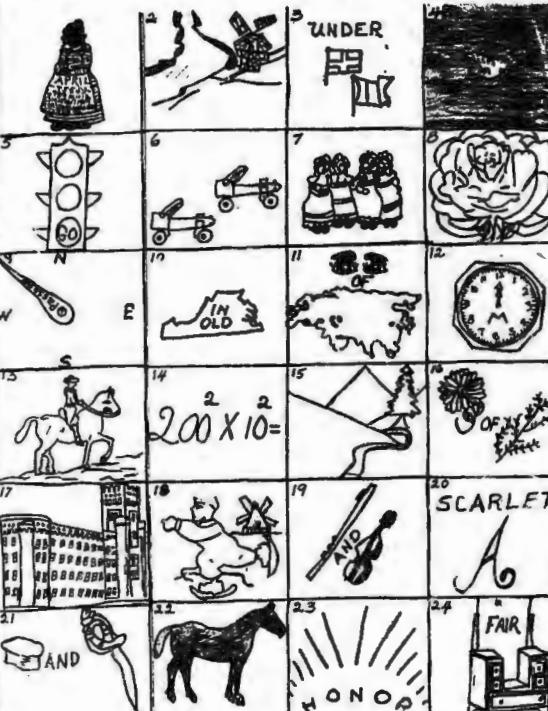

S. C. Academy of Science Issues 1938-39 Bulletin

The South Carolina Academy of Science, whose president is Dr. G. Naudain, head of the chemistry department, has recently published its bulletin for the year 1938-39.

The organization has for its object the advancement of science in South Carolina. The bulletin contains extracts from experiments, research work, and results of scientific investigation by various members of the academy.

On the membership list are found three Winthrop faculty members: Dr. W. E. Fort, associate professor of chemistry; Dr. Elsie E. Greene, head of the biology department; Miss Ada M. Moore, in charge of home economics research; Miss Ethel M. Jones, instructor in home economics; Miss Isabel Potter, instructor in biology; Miss Mary Schaeffer, instructor in biology; Dr. Ruth W. Stokes, head of the mathematics department; Dr. Evelyn G. Wilson, assistant professor of chemistry; Miss Alice Tingley, instructor in biology; and Dr. G. G. Naudain, head of the chemistry department.

Difficulty in obtaining raw materials is reducing Japan's soy output.

In observance of National Book Week, November 14-20, the members of Mrs. Frances Lander Spain's library science 61 class put their heads together and the result is the above contest.

Each sketch represents the title of a well-known book. Tax your brains for a moment or two and drop the results in Miss Dacus' office in the library.

There is no prize—only the satisfaction of seeing how many different books you know. Next week's Johnsonian will announce the winners and the correct answers.

Periodic Hypnotic Craze Mesmerizes Campus Again

By SARA ROSENBLUM
Mystery! Magic! Hypnotism!

Telopathy!

Psychology lab? No, freshman dormitories.

This new fad is sweeping the campus. Results of the hypnotic craze can be seen on all sides.

Piano majors waver dazed into chemistry labs and begin dexterously handling flasks. Bunsen burners,

and hydrogen generators that

they've never seen before; girls usually modestly clad in blue blouses;

student and professors. One

evening students open a window in Dr. Anti-Freshairland's class-

room.

Beneses the future caused by the actions of the hypnotised, a battle royal is being waged by the various schools of hypnotism and magic.

The group which now seems to hold precedence is the "hands

out" school of hypnotists. The

victim of this crew is told to

"Keep your mind blank now;

everyone else thinks hard!"

The hypnotist stands brazenly as

six pairs of hands clasp her wrists.

The subject of these arts of

hypnotism clutches two of the

girls' arms desperately. The six concentrate upon some certain destination for the poor thing—"Now," the leader commands, "Go." Then the hypnotist is supposed to go immediately to the specified spot, whether it be through the window, to her roommate's mailbox, or under the bed with the dust.

The next most popular school of hypnotism is the "rubber-in-ers". The advocates of this form of hypnotism seat the hypnotic and gently stroke her forehead. After a few hours of rubbing, the victim, supposedly in a deep sleep, carries out the will of the hypnotist.

The third group has a very complicated procedure, which usually ends in unexpected baptisms. The diaphragm, held so as not to move with the breathing, causes unconsciousness. Cold water often aids a beautiful dream for a pale-faced companion.

The hypnotoid craze hits the campus periodically along with the table tipping, the "psychic" and other sensory perception experiments, and black magic sessions—but they all pass into the realm of forgotten fun after about two weeks of hypnotic exertion.

Ruth Benson rushed to town

a little after two, dashed into

the theater, watched an ex-

traordinary long football neverseen

before so she thought—until it

she realized she was in the wrong theater!

Mid-term were forgotten

and parallel pot off as all

Winthrop tossed books aside

in favor of *Marie Antoinette*,

and a good cry last week! Local merchants noted an in-

crease in the sale of Kleenex.

SPORTS

By EDITH GENTLY

Of all the boomer enthusiasts whom we have noticed on the athletic field day after day, there's one who stands out above the rest. She's always on time to practice—the first to arrive and the last to leave. She never misses a practice, and never grows weary or loses her enthusiasm. She always comes to practice better prepared than the others. She knows her game and practices her knowledge to all the players. In case you haven't guessed, we are speaking of Miss Marion Fugit, who devotes all her afternoons to conditioning fresh, soaps, Juniors, and seniors for the hockey tournament which will be held the middle of November.

Overhead at football game.

Winthrop student to Clemson man—"And after I had spent two hours studying for government," the man didn't give us that pop test he distinctly told us we'd have yesterday!"

Another W. S. to another C. M.—"I simply must start reading the newspaper again—why I don't even know who's playing football anymore."

Miss Lee's golf students think she has an excellent method of familiarizing them with the game—the rules, the rules and woods, and the scoring. Miss Lee takes a few of the girls at a time with her when she plays at the club.

It's good to see so many girls practicing archery these days! There are more girls in the archery club than there are bows, but the girls take turns and have a wonderful time making the arrows whiz through the air and find their mark in the bull's eye or peltast.

It's hard to say who enjoys the speedball games more—the students in the team sports classes or the workers on the new auditorium. The strikers on the steel beams have excellent grandstand seats, and they really add a great deal to the games, for what team doesn't play better when it has a cheering squad backing it up?

Miss Fugit had a roommate when she was in school who was runner-up to Babe Didrikson in the Olympic games. And, of course, you remember that Isot. Kelly had a sister, Kathryn, who high-jumped in the last Olympic games.

The most excited person we've seen in a long time is a freshman, who played shuffleboard for the first time the other day. She just thought it was the most wonderful game she had ever played. You too, would like the game. Come up to the gym some afternoon and try it.

If a hockey team I were allowed to make, And from any class team I could take A player when I thought was best Who played her part "bow all the rest, I'd form a team which couldn't lose. For here's the line-up I would choose.

To carry the ball right down the field To make the goals and never yield— Kelly, Sledge, and Ethel Brown With Penny Keece and Cunningham.

And then the opponents tw-e girls would mark— Veronee, Williamson, and Dorothy Clark. And then as center, Mary Kowee. Her opponent of the ball to fleeces. The goalie's name I have run With a team like this we can't lose!

Another memorial to Dr. David Bancroft Johnson, founder and first president of Winthrop Training School, was established by the Future Teachers Association of Waltherland named their organization "The David Bancroft Johnson Future Teachers of America Club of Waltherland."

The club was the first F. T. A. club to be chartered in the United States by the National Education Association Journal.

Mrs. H. E. Thomas, who organized the Waltherland club four years ago, gives the following reasons for the choice of the name of the club:

"Dr. Johnson rendered to the women of South Carolina in founding Winthrop College, and the service he rendered education in the state and nation through Winthrop teacher-graduates."

Ritz Brothers Rave, Rant, and Razz Thru Kentucky Moonshine'

"Kentucky Moonshine", starring the three Ritz brothers against a background of hillbillyism and radio broadcasting, will be shown in Main Auditorium Saturday night at 7:30.

The story fits the Ritzes to a T, for at the time a number of crows in the town threatened the entire bill to the finale. Tony Martin and Marjorie Weaver supply the love interest and several songs, whereas Slim Summerville, John Corridine, Wally Vernon and Eddie Collins provide some of the comedy.

Highlighting the Ritz brothers' antics is the finale in which the story of Walt Disney's "Snow White and the Seven Dwarfs" is burlesqued by the three brothers — in costume.
