Board of Trustees meets with Vail

BY KELLY GORDON

The Winthrop Board of Trustees met with President Vail Thursday, April 26, in the Tillman Executive Board room, Chairman Howard L. Burns, chairman of the Board, presided over the meeting.

Following the reading of the minutes from the February 1 and March 24 trustees meetings, Vail gave the President's Report. This report summed up all programs, projects, and activities occurring in the time period from March 24 through April 26, as well as made statements on the year in general.

"Winthrop is approaching the end of a significant chapter in its history," said Vail. "Declining enrollments, unused space, and an uncertain mission have given way to strong enrollment, many important changes of a physical nature, and efficient buildings and to that we are committed.

"Also mentioned in the President's Report were financing to meet the state barrier-free requirements and the appropriations authorized to Winthrop by the state Ways & Means Committee. "We are yet well behind other colleges in student appropriations," said Vail, "and seriously behind in funds for plant operations and other essentials." Vail also said that Winthrop has been unofficially informed of a pending hearing before the State Human Affairs Commission. "Our soft spot lies in the underrepresentation of black faculty and administrators," Vail said.

The report also included the fact that Winthrop has a 12% delinquency rate in National Direct Student Loan collection efforts, which is 3% above the acceptable rate. Vail said, "By noting the magnitude, please recognize that Winthrop has been in the NDSL Program much longer than many other colleges." Winthrop has been in the NDSL Program 1981, new McLaurin building to house the School of Education; 1982, special projects; 1983, modifications to be made on streets and walkways; 1984, construction of a new library.

The Committee on College Relations was next to report. Mary Sue McSwain announced the committee's recommendations. A graduate program leading to the Specialist in School Psychology (SSP) degree was approved after further study. The program will complement the present Master of Science in School Psychology degree by offering training beyond the master's level for students who wish to pursue careers at more advanced levels in the public schools and similar settings. No other school in South Carolina offers the SSP degree. Winthrop and USC are the only two that offer the Master of School Psychology.

Next, a change in the biology graduate program from the present Master of Arts in Teaching degree to a Master of Science degree was approved. "The new program will be more attractive to students entering industry, research, or health environment fields, as well as giving the opportunity to use their electives to earn the teaching degree," said McSwain. USC is the only other S.C. school that offers an MS in biology.

Following the President's Report, trustee Mabel Hamilton gave the Plans & Development Committee's report. After debating the reservation and restoration of the McLaurin and Margaret Nance, the board approved the replacement of the two facilities. The cost of the McLaurin project is projected at $6,400,000, and the Margaret Nance project cost is $4,000,000.

The board also approved a space allocations recommendation that includes moving the Operating Center and the Athletic department to the Crawford Health Center building. This move will not affect the health center's operations.

Approval was also given to the committee's Five Year Capital Improvement Forecast. This forecast includes the multi-purpose field house project; 1980, replacement dormitory to be erected in the area of the McCollum Center; 1981, new McLaurin building to provide teaching and office space for the College of Arts and Sciences; 1982, special building to house the bookstore and related offices; 1983, additions to the library; 1984, modifications to be made on streets and walkways; 1984, construction of a new library.

Class officers elected

BY JEFF CLARK

Elections for '78-'80 class officers and Dinkins Activities Committee chairman were held Wednesday, April 26. According to Debra Tolar, Elections Board chairman, 801 students voted, 53 of which were either day or apartment students.

Robin Latiker won the race for senior class president, and Claude Bissel became senior vice-president. Donnie Campbell is junior class president, and Cindy Tuck is junior class vice-president. Sophomores elected June Railey as their class president and D'Rose Massey as vice-president.

A run-off election will take place Wednesday, May 2 between Jean Bishop and Gary Forrest in the race for Dinkins Activities Committee chairman. Day and apartment students may vote in Dinkins Student Center from 10 a.m.-2 p.m. and 4-6 p.m. Dormitory students may vote in Thomsen cafeteria during the same hours.
A reliable source

In my first editorial, I discussed THE JOHNSONIAN's need for more input from students. Next year, I hope to see an increase in letters to the editor and student-originated leads to news and feature stories. However, in the publishing of such letters and stories, two important standards must be upheld: presenting all sides of a story and printing all the facts in their entirety.

Professional newspapers gain their reputations by remaining unbiased on controversial issues. Although THE JOHNSONIAN represents only a small community consisting of students and faculty, it is gaining a reputation of its own. In order to uphold this reputation, the editors and staff must function as though THE JOHNSONIAN is as much a reliable source of information as a daily city newspaper. Therefore, it is important that THE JOHNSONIAN maintain certain standards.

Among these standards is the necessity to give equal opportunity to opposite sides to voice their opinions. When a story or story lead is too one-sided, we make it our responsibility to investigate and present the complete story as seen by all concerned with it.

Also, when an important issue is covered which concerns the interests of our readers, we will not withhold any pertinent facts, in spite of their impact on the readers themselves. Perhaps Adolph Ochs, former publisher of THE NEW YORK TIMES, said it best. In one of his few statements in that famous newspaper, he voiced "to give all the news without fear or favor, regardless of any party, sect, or interest involved."

Now that you are aware of how we stand, we wish to prove through our pages that we are worthy of your trust for the current campus news, news from other U.S. campuses, discussions of the national and international scene, and features about the interesting folk who share our stay at Winthrop.

As this year draws to a close, I would like to express our gratitude to you for your readership and the hope that you will enjoy looking back at 78-79 with us in this last issue of THE JOHNSONIAN. Good-bye seniors, see the rest of you next fall.

Opinions expressed on the editorial pages are those of the individual writers and do not necessarily reflect the views of the administration, faculty, or student body as a whole.

performance or ability. The results I saw merely did not bear out a conclusion that SAT scores were indicative of ability. Perhaps too much credence was placed on the test.

There's a new alternative to coal that is promising. Nuclear power is one such alternative. Nuclear power stations are capable of producing large amounts of electricity. However, nuclear power plants also produce large amounts of radioactive waste.

Nukes Solar Hot Air

Victory dragon

Long ago, in a galaxy far, far away, the planet Primivil whirled around its mother star, two monstrous giants ruled this world, and in the distant past they had enslaved the only other known intelligent race on the planet, the tiny creatures known as human beans. At first the giants were pretty lenient with their slaves, requiring only that they grow enough crops to support the giants and provide food. This proved to be no problem; the industrious human beans cheerfully co-operated out of sheer good-naturedness. There were millions of them after all, so the master-slave relationship presented no real hardships at the outset, except to those poor unfortunate souls who were sometimes accidently stepped on at feeding times (and that was really pretty unavoidable when you consider that those giants were several thousand feet tall).

Then, one fateful day, the giants had a falling out on some minor issue, and this bitter situation was shattered by conflict. The giants tried to kill each other with their bare hands, but they found that this was impossible. They stormed off to opposite corners of the world in disgust, and after a while each organized the human beans of their side of the world into armies, and sent them out to kill their neighbors who

ALTERNATE ENERGY SOURCES

Victory dragon

Bruce McDaniel

The Johnsonian had the flag of the opposing side. The giants would never accept their frustrations in this way, as they sought an answer to the dilemma pwned by their own toughness.

Competition was keen in this conflict because both sides were committed to powering the plant in their own way. The giants utilized their vast strength to dig deeply into the earth in search of uranium, while the human beans relied on the sun to power their plant.

After a heated battle, the human beans emerged victorious. They had proven that the sun could be used as an alternative source of energy, and the giants had conceded defeat. The victory was short-lived, however, as the human beans soon realized that the sun was not a consistent source of energy.

But the human beans were not discouraged. They continued to search for other sources of energy, and eventually discovered a new source of power: the wind. The human beans built massive wind turbines that harnessed the power of the wind to generate electricity. The giants were amazed by this new source of power, and they realized that the human beans were not to be underestimated.

Despite the challenges, the human beans continued to push forward. They built new plants and expanded their network of power stations. And in the end, they emerged victorious. The giants had been defeated, and the human beans had proven that they were capable of powering their world in their own way.

But the story doesn't end there. The human beans continued to push forward, and they discovered that they could use the sun and wind together to create even more power. They built solar wind farms that combined the power of the sun and the wind to create an even more reliable source of energy.

This new source of power was the key to the human beans' success. They had proven that they were capable of powering their world in a way that was both sustainable and reliable. And the giants were forced to admit that they had been outmatched by the human beans. The human beans had proven that they were capable of standing tall in the face of any challenge, and they had emerged victorious once again.
Victory dragon—

(continued from page 2)

victories until the other side managed to equal their performance. For many years the battles continued, and the giants continued digging, searching for the ultimate weapon.

It was the giant of the western half of the world who found her, deep in the bowels of Primeval. She was a dazzlingly beautiful young dragon, her wings still wet from birth and her eyes burned with a white fire. The giant was infatuated, and her wings continued to grow as she thought of him. "My victory dragon! With you at my side my brother will be doomed beyond all hope!"

Before our Pant picked up the leash to mount his dragon, she whispered a few parting words into her sister dragon's ear:

"This is really such wonderful news! To think that you are pregnant, as well as myself! We'll soon hear the patter-patter of little dragon feet for sure!"

"Yes," the other dragon replied, "and to think that they will be many of us, and still only two of them. And, as everyone knows, it takes one giant to leash one dragon."

Dear Editor,

I hope you got your thrill.

I can really envision you feeling like you had contributed to Winthrop College to see that glass shatter. I really wish I had been there to see it happen.

I guess everyone knows that the glass-encased bulletin board on Oakland Avenue had a rock put through it, sometime this week. It’s not enough to shatter the glass, but someone else (probably the same sick person) re-arranged the letters and also stole some.

That bulletin board belonged not only to you, but to every student on this campus. It was a valuable tool, which was used to let the student population know what was going on, on this campus. Now it’s useless to us.

I wish you could know how much work went into getting that bulletin board. I wish you could know how much work it is to change the letters on the bulletin board. Ronnie Laffitte Brown’s disco is going to be that much harder, but well try to let you know what was going on, on this campus.

Now the Program Board’s job is going to be much harder because that bulletin board is damaged. Promoting the Spring Fling, and ‘Charlie Brown’ disco is going to be that much harder, but we'll try to let the students know, the ones that care, when events are going to happen.

**Cheersleader tryouts’ validity challenged**

Dear Editor,

I attended the cheerleader try-outs on April 17, 1979, in Williers gym, and I was appalled at what I witnessed.

To begin with, the four judges were males, three from Rock Hill businesses and the other one was Coach Gordon. Coach Gordon sat in the stands apart from the judges, but it was apparent that he strongly influenced the judges because on numerous occasions he left the stands to confer with the judges. The procedure was that four girls came out and did a cheer. We Are Challenged. There were three groups of four girls. After all three groups finished, the girls came out one at a time and did an individual cheer. All girls were required to do a split. One girl did not attempt a split. When all the girls had completed their cheer, they were asked to line up in front of the judges.

I am not an expert on cheerleaders, but I can tell when the girls put their whole heart into what they are doing. I think the try-outs were conducted improperly. My main concern was that the judges were not made aware of what the cheerleaders were doing. We should be judged not only on their appearance, but also on how they do the cheer, and how the crowd responds to the girls’ cheer.

In closing, I have a few questions I would like to ask:

1. Who draws up the guidelines for choosing cheerleaders?
2. How closely were the guidelines followed on April 17, 1979?
3. Why were the two girls who had the top two scores not chosen on April 17, 1979?
4. Why did the girl who did not attempt a split, which was required, choose, and she did not do a complete ‘Herdie’?

Thank-you,

Mary Timmons

Wanda Wells

**Editor’s reply**

In an effort to answer the questions asked by the writer of this letter and to allow Coach Gordon the opportunity to present his view of the events at the cheerleading try-outs, the editor approached Gordon for comments.

Gordon said that he had nothing to do with judging the try-outs. He said that he approached the judges one time during the judging to remove an entry from the list of try-outs.

"I went down one time and told the judges not to nominate one or two, who is Lisa Workman, because she was a cheerleader previously and didn’t have a jerk point again, according to the guidelines," Gordon said. "I did not go back down until after they had added up the tally.”

As for the choices of the judges, Gordon explained that the cheerleaders felt it would be best to get someone who did not know the girls. An unsuccessful attempt was made to get cheerleaders from other colleges to judge the try-outs. When this failed, Rock Hill businessmen were asked by Coach Gordon, two of whom had previous experience in this type of judging.

Gordon answered the letter’s questions as follows:

1. Why did the cheerleaders themselves draw up the guidelines?
2. Out of twelve girls that tried out, one was automatically reinstated to the cheerleading team, and one girl voluntarily walked off the floor halfway through the contest. The four that made the squad were chosen based on eight categories with 65 points for each category with a total of forty points maximum per judge, totaling 140 points. The final total was 133, 99, 88, and 95. Those girls made the squad.
3. What were the categories?
4. All girls were not required to do a split. More than one did not choose to do a split, and those who did not do splits did not receive any points. The girl who is mentioned had a point total high enough to be in the top four.

What a Difference the YWCA Makes!

It’s the organization that offers women and girls of diverse backgrounds freedom to be different, training to help them develop their special abilities, opportunities to work together to build better communities across the United States and around the world.

Reports of cults arming themselves

NEW YORK, April 18—"Unethical" cults "have infiltrated almost every campus in the country" to such an extent that if "your child is in college or high school, the chances are good that sometime this year, he or she will be approached by a cult recruiter," today asserted a survey article on cults in the current (May) issue of LADIES' HOME JOURNAL.

In the JOURNAL article: "A cult researcher Flo Conway asserted, "Almost all the groups who are recruiting on campus don't identify themselves." She cited the Reverend Sun Myung Moon's Unification Church which often "arm themselves."

"They who spent four years investigating cults," claims Ms. Conway, "are entering the union," and full semester will be conducted in Withers Auditorium, according to John Gallien, student body president. "All students who are returning in May 2, 1979 at 2:00 p.m.," according to John Gallien, student body president. "All students who are returning in May 2, 1979 at 2:00 p.m.," according to John Gallien, student body president. "All students who are returning in May 2, 1979 at 2:00 p.m.," according to John Gallien, student body president. A decade ago, on April 28, 1969, Charles de Gaulle resigned as President of France and went into retirement in the village of Colombey-les-Deux-Eglises, Yonne, where he died in November 1970.

Ten years before his resignation, in the spring of 1959, de Gaulle had returned to power in France.

At that point, France was involved in a bitter colonial war in Algeria, and the country was torn by deep divisions, much like the United States during the Vietnam War.

Under the constitution of the postwar French Fourth Republic, the executive was too weak to provide effective leadership. The parliament was as deeply divided as the people it represented.

In this moment of national crisis, parliament narrowly re-elected de Gaulle with full authority.

The general now supervised the drafting of a new constitution, creating the Fifth Republic. Unlike its predecessor, the new republic would have a strong president at its helm.

In December 1958, de Gaulle won a majority of the vote in a referendum that brought him to the presidency. He set out to end the Algerian War, granting independence to Algeria in 1962.

During the 1960s, France experienced the greatest prosperity in its history. But it was an uneven prosperity.

In May 1968, many Frenchmen came to resent de Gaulle’s paternalism and his quest for national greatness, while he failed to cope with domestic problems.

In May 1968, matters came to a head. The explosion of dissatisfaction began among the students of the École Polytechnique in Paris and spread rapidly to the industrial suburbs of the capital.

Several weeks later, the demonstrations led to public disorder, with barricades in the streets and batons to the police.

The events of May 1968 had presented de Gaulle’s government with a series of constitutional reforms. The referendum represented not simply a vote on these reforms, but even more a vote of confidence in de Gaulle himself. The president’s opponents urged a “no” vote.

The referendum, almost 53 percent of the voters opposed de Gaulle. He resigned the next day.

By 1969, there was a widespread and growing feeling that de Gaulle had outlived his usefulness. And his decision to withdraw from politics was seen as a retreat from the left by a majority of Frenchmen.

De Gaulle’s place in history will be a subject of debate for a long time to come. During World War II, his leadership of the Free French had been heroic. Probably on other French leaders would have been able to end the war in Algeria in the way he did. And de Gaulle did succeed in providing a period of stability after the uncertainties of the Fourth Republic.

But the political system of de Gaulle’s Fifth Republic was too closely tied to the person of de Gaulle himself. By clinging to power too long, de Gaulle brought into question the real achievements of the earlier years of his presidency.

Camp counselors needed

Representatives of Camp Occoneechee in Lake Lure, N.C., are now accepting applications for summer counselor jobs and unit leaders, according to Carol Glazier of Placement Office.

The camp is an ACA approved 8-week residence camp. Any student 21 years old or older interested in counseling for summer camp in North Carolina should contact Glazier at (704) 587-3994 (Charlotte).
Fashion news, what's up?

BY STEPHANIE GILES

Regina League, a fashion merchandising major here at Winthrop, says fashion works in cycles and will return to past trends becoming even more shocking and daring in colors and designs.

"The women of today, being more career-minded, need clothes that fit into her busy schedule," Miss League said. "But, a total look will give the 40's impression new in its broad shoulders, closed toe pumps will give the 40's image new life, and designs will be becoming even more merchandise major here at Winthrop Colony of Sigma Sigma Sigma."

Winthrop, says fashion works in trends becoming more important for the American woman. "All through history the focus changes from different parts of the body," Miss League said. "The focus is now legs with the hem line rising to knee length with the revealing slit." Blouses are designed with plunging necklines. The new light fitting blouse adds of sheer material reveals the shape of the figure. The bold colors will take over in the line of fashion. The more contrast in colors, the better. Different combinations of colors will seem somewhat shocking. For spring and summer hot-pinks, lemon-yellows, apples and bright greens are some of the dominating colors. For fall we'll see less intense, deeper hues. We can look forward to softer shades in make-up that will enhance the beauty of a woman's face while adding to both the bright colors in spring and the subtle shades in fall."

Regina League said, "Knowing that the average young lady is fashion conscious, learning how to choose basic lines will help the college women have an attractive but inexpensive wardrobe," Miss League said. "Knowing how to mix and match will enable you to mix and match more. Also most any young woman will find that the simple lines are the most flattering. Shoes in the pump style are very attractive with all types of clothing. If the slip on shoe goes perfectly with pant. And choosing a number of belts, bracelets, and shoes can change the appearance of every ensemble," said Miss League.

"The costs of high fashion are sometimes very high and if you're on a budget, you do have an alternative," Miss League said. "Sewing is an easy and effective way of keeping up with the newest fashions."

A good wardrobe for college life could consist of a couple of skirt dresses, fitted blouses, straight leg pants and straight shirts. Sticking with basic lines will enable you to mix and match more. Also most any young woman will find that the simple lines are the most flattering. Shoes in the pump style are very attractive with all types of clothing. If the slip on shoe goes perfectly with pant. And choosing a number of belts, bracelets, and shoes can change the appearance of every ensemble," said Miss League.

"The women of today, beta?" Regina League, a fashion merchandising major here at Winthrop, says fashion works in trends becoming more important for the American woman. "The focus is now legs with the hem line rising to knee length with the revealing slit." Blouses are designed with plunging necklines. 1978-79 year end roundup

Vail--a pivotal year

Dr. Charles Vail, Winthrop president, cited three particular milestones reached by Winthrop during the 1978-79 school year.

Winthrop experienced a renewed growth rate, recognition in the general assembly, and a new spirit of assurance and confidence, Vail said.

A resurgence of enrollment has placed a stress on the physical plant," Vail said. "This stress and a sudden move to meet it with new buildings has been exciting for me."

Vail said that when he came to Winthrop six years ago four buildings were empty and two were in the process of emptying. "This week the Board of Trustees will meet to consider the construction of new buildings," he said.

This year, Winthrop has received recognition in the state general assembly, which it has had trouble receiving in the past, Vail said. This recognition will be beneficial in the future.

"People are listening to us now," he said. "This was a pivotal year. It turned completely around. We're in for better years."

The third achievement of the year, according to Vail, was an increased involvement in Winthrop activities.

"Vigor and vitality are being expressed by students in athletics and the Model U.N.," he said. "I hope we can sustain that and enhance it even more."

The Student Government Association has been effective and productive this year, according to Vail. He said that intramurals and Dinkins Program Board have presented the kinds of activities in which everyone can get involved. "These are good things, important things," Vail said.

"We have experienced dynamic conditions this year," he said.

Security--"One of the best"

BY DEBBIE WILLE

According to Chief Williams, head of Winthrop College security, this has been a great year for security--"one of the best."

The only setback, Williams encountered, has been working with a reduced staff. Three of Williams' twelve officers have been attending the Police Academy taking a 10-week training program which requires 400 hours of classroom work. However, the officers will all have graduated from the academy and will be back to work within two weeks.

When asked about the parking situation this year, Williams stated that there has been no parking problem. "Just a parking problem," he pointed out. "There is available parking space behind Dinkins Student Center and all of the space that is available has already been marked off for parking. The only thing left to do is pave some of these areas. The money to pave the parking area comes from the money received by the Winthrop community when they purchase parking stickers.

The money collected from parking tickets is put into a general fund for the maintenance and upkeep of the college. It does not go directly to security.

When asked about the radar unit security has been using, Williams said that they have been in use for three years now and are used only occasionally. For example, during the month of April, the radar was only used on two days for a total of three hours. During the three hour period, there were twelve cases--all of which were speeding violations, Williams said that not all of the cases involved students, indicating that faculty are not overlooked by security either.

Williams also added that the buildings being secured at night and on weekends are not just to create problems for students and teachers. "It is to protect the Winthrop community as well as the property," he said. He was quick to mention the fact that no student or faculty member has been attacked using the presently employed practice of getting special permission to enter secured buildings after hours. Ultimately, it is in the best interest of everyone's safety to take extra precautions, and that is just what Chief Williams and his crew have done this past year.

Williams is looking forward to a great year next year and thanks everyone for their help and cooperation this year.

Cafeteria -- weary work

BY LISA WRIGHT

Fred Angerman, manager of the Winthrop cafeteria, sits behind his desk, weary from a hard working weekend. The year is coming to a close, and already Fred is looking ahead to next year.

According to Angerman, "The cafeteria gets more crowded each year. Our cafeteria can handle almost any crowd, but the problem comes in the fall term when all the students are not used to continuous feeding and come at the peak of the meals. After two or three weeks, they plan their eating time around their schedules, and no one comes at noon or five o'clock."

Angerman went on to say that next year the cafeteria will be adding more tables and chairs. By removing the round tables and releasing the space bar, the cafeteria will be able to seat 150-155 more. He also said, "We might be able to use both sides of the drink line."

Since Winthrop has acquired a basketball and baseball team among other activities, more people are staying on the weekends. Angerman explains, "With an increase in the male enrollment, we are using a lot more food than in previous years. We will be increasing our crew next year. We have stayed with the same crew for the past two years and at times found it difficult to keep up with the students. As for our student workers, we can't seem to get enough of them. We are short on workers the entire year, but now we are very short because of finals and graduation. We are down to 25 student workers, which isn't much when fifteen of them need to work for one dinner meal, and this puts a burden on some of the workers."

As far as the ID policy goes, Angerman said that the students have been much better with their ID's than in the past.

The biggest problem of the cafeteria this year has been inflation. Angerman commented, "The food market has been terribly unpredictable, and we were sure food prices would increase every month."

There are many organizations on campus, and Angerman said he would like to use them in their special events. "We would schedule our special event by their theme. It would enhance our special event and help the organization. For example, a few girls from the biology department have asked Fred to have a vegetarian line for one day as a project. Angerman replies, "This will give me a chance to see how many students would like to have a vegetarian line."

There was an increase in chairs, equipment in the kitchen, and four serving lines, there should be no problem with the coming year after the first five weeks of the fall term are over. "Personally, I've enjoyed working with the student body as I have in the past," said Angerman. "And I am looking forward to next year."
Good year for Dinkins and SGA

Dinkins—‘Well pleased’

BY RICHARD A. PODMORE

The people in Dinkins are well pleased with the way things have worked out this past year. According to Cynthia Cassens, Associate Dean of Students, the housing program has been a great success. “The coed dorms went over better than we expected,” Cassens said. She also hopes that coed dorms will continue to operate smoothly. However, Cassens admits that the success is due largely to the R.A.’s, who worked hard, and the students, who gained a more positive feeling about the program.

Cassens also said that she enjoyed working with the students, and she feels that the program is growing because the students are helping it along.

Tom Webb, student center director, was pleased with the past year also. “Each year that I’ve been at Winthrop, we’ve experienced rapid growth in the programs,” Webb claims. He attributed this growth to knowledge passed on from year to year, to the number and nature of the programs, to the increased enrollment, and to the number of students living on campus.

Webb said that new techniques such as providing as much of everything as possible have made many programs successful. Webb tries to provide activities for everyone. He admits that he will probably never please everyone, so he provides as many activities and events as possible in an attempt to please the majority.

Webb admitted that some of this year’s events were not as successful as he had hoped. The circus and Jame. Mapes, the hypnotist, are prime examples. However, other events, such as movies, travel programs, short courses, and tournaments all proved extremely successful and often drew overwhelming response. Webb also boasted, “This year’s Halloween Happening was bigger than ever before. If it gets any bigger, space will be a problem, but we’ll manage.”

As far as the future is concerned, Webb is optimistic. He has a new staff of students on the Program Board, and together they are already making plans for next year. Webb believes that he and his staff shouldn’t get fatigued. The statement “If something works, stick with it. Otherwise, start new roots,’ probably best describes Webb’s feelings. For next year, Webb plans to roll with the punches while still providing the best entertainment and programs that are realistically possible.

SGA says “yes” to good year

BY CYNTHIA J. WILSON

In answer to the question was it a good year for the SGA, president Dan Urscheler replied, “Yes!” According to Urscheler, some of the major accomplishments for the SGA were the reorganization of guidelines for the Allocation Committee, the establishment of Actionline—a weekly column in THE JOHNSONIAN in which students are given an opportunity to express their opinions on campus events and receive a response from an authoritative source concerning the student’s questions of complaints—and the reorganization of the chartering process for prospective organizations.

Urscheler stated that the SGA represented the students on campus as well as on campus. According to Urscheler, representatives from the Student Government along with representatives from other Winthrop organizations took a trip to Columbia to discuss the financial situation at Winthrop.

“The SGA became a little more professional by establishing its logo working to serve you better, said Urscheler. Vice-president Debbie Grimes concurred with Urscheler’s statement about the successful SGA year. “The SGA accomplished more this year than has even been accomplished during my four years at Winthrop,” said Grimes.

Commenting on the elections results for the past year, Debra Tolar, head of the elections committee, said, “There was an increase in the voting from the past year. However, the day students’ turnout wasn’t that good.” Tolar attributed the increase in the elections results to the polls in the dormitories. According to Tolar, the students didn’t have to leave out of their dorms to vote. Attorney General Julia Gilbert described this year as successful for the judicial branch of the Student Government.

“We were in contact with the resident assistants more than ever before,” said Gilbert. “This year was a milestone for all three branches of the SGA.”
Winthrop: The artful experience

Drama--rapidly changing

BY LORI RIDGE

The department of Drama is recently one of the most rapidly developing departments at Winthrop College. And it’s no wonder that more Winthrop students are applying their talents in this area than ever before. How many more students? Well, for starters, there are now 20 students at Winthrop who have declared their major in drama. In fact, the number of drama majors at Winthrop has gone very well this year, according to Dr. Chris Reynolds and Mr. Blair Beasley of Winthrop’s Drama department.

Many students attended this year’s drama productions, which include "The Diary of Anne Frank," presented last fall; and "Cider Mill Wood," a quirk-tempo comedy by Dylan Thomas. There were also two showcase productions during the year for the purpose of featuring novice talents in drama and allowing veterans an opportunity to be student directors. The fifth drama production, a children’s play entitled "Dr. Vanilly’s Short Tall Tales," was presented this past Saturday for the Rock Hill Fine Arts Organization. The play was directed by Dr. Chris Reynolds, who also wrote and composed the music for it.

Talking about the success of the Drama department brought to mind a few items of good news for Dr. Reynolds. He said that he had heard from some Winthrop drama students. One girl who graduated last year 10 years ago has within the last year become executive director of the Arts Foundation in New York City.

Dr. Reynolds has also learned of two male former students of drama at Winthrop, one of whom is now the stage manager for the Broadway production "A Chorus Line." This same student has also been an actor and dancer with the Washington D.C. Company. The other male former student is currently working and acting at the Public Theatre Building in New York City.

Dr. Reynolds and Mr. Beasley are both very pleased and very busy with the increased number of activities the Drama department is now handling. They spoke enthusiastically about Winthrop’s Delta Mu chapter of Alpha Pi Omega, a national honorary drama society. The Delta Mu chapter has ten members, including four recent initiates: Selina Caughman, Rose Schultz, Jeff Smith, and Sandi Constantino. Other members are: Al Smith, Sheri Wilson, Steve White, Joyce Flyler, Gene Knight, and Woody Purvis. According to Mr. Beasley, "The chapter has been revitalized" after having been inactive for several years. There are chapters of Alpha Pi Omega in more than 500 colleges and universities in the United States. One notable factor about this society is that the members don’t have to be drama majors. And it’s quite an honor to be selected for initiation out of the 100-200 people who participate in different aspects of drama productions each year at Winthrop. Students are chosen on a merit basis. They earn points by acting in plays or working backstage, and by maintaining a GPA of at least 2.0. Mr. Beasley said that most participants in drama productions haven’t been aware that they are being considered for initiation. Again be Essenbach said that all production activities are open to everyone, and not just to drama majors.

Another person who has been keeping busy is William Malambri, who, when not answering his phone or helping distressed soloists, conducts the Winthrop concert and Pep band. At his first year here he describes Winthrop as a "gasey school." He says that he is impressed with his colleagues, and the level of professionalism at Winthrop, and that this school is "really on the move."

The ensembles have been "very fine" this year, and he said that one of his goals for this year was to get the existing ensemble to sound to the degree of its capabilities. Expanding its repertory, he has included such pieces as "Mannish Veen" by Haydn Wood and "Festive Overture" by Dankert Shostakovich in the concert list.

Malambri says that recruiting has gone very well this year, and expects several top musicians from both North and South Carolinas to return to Winthrop next year. He says that he feels "in excellence in both the existing and new students is high."

Music--"Super year"

BY BETH TUCKER

According to Robert Edger ton and William Malambri, the Music department has had a super year.

Edger ton, director of the Winthrop Chorus, Chorale, and Singers, summed up his year in two words--"Keeping busy." Indeed it has. The Winthrop Chorus, along with singing tours, went to the Intercollegiate Choral Festival. Plans for next year include a trip to Florida in April for the 3rd Annual Intercollegiate Choral Festival concert backed by the Charlotte Symphony Orchestra, and a tour of eight South Carolina concerts with both Chorale and Singers. Edger ton says that this year has been one of the best for the Winthrop Singers. He said that last year’s trip to Chicago showed what the Singers could do. It started that the Strom Thurmond was very impressed by the performance last Saturday day for Alumni Day, and a prospective trip to Washington and the White House is in the offering. The Singers are also talking about making a recording of "good quality."

Art--A new degree

The success of the new Bachelor of Visual Arts degree was the most exciting happening to the Art department this past year said Professor Edmund D. Lewandowski, Chair-man of the Art department.

According to Lewandowski, as opposed to the Bachelor of Art degree, the new degree is designed for the professional artist in all areas from painting to printmaking.

"The success of the Bachelor of Visual Arts degree continues to grow," said Lewandowski, "bringing with it increased enrollment, including a growing number of transfer students."

Not only has Edger ton been busy with the Chorale and Singers, but as an individual. Along with guestconducting and workshops, he is planning a second tour of Europe. He, along with three other Winthrop members, will be in a program called "Pops '79" at the Charlotte Civic Center Friday, May 4.

Edger ton said that the year had been "super." He said that he had been "hammered by a lack of rehearsal time," but that he was proud. "We were, but it feels a lot better. We are very pleased."
Winthrop Sports 1978-79: a winning season

BY DAVID JACKSON

This has been a banner year for sports here at Winthrop and the future looks very bright for Eagle athletics.

Overall, the five women and three men's teams combined for a record of 129-74-4, a winning percentage of .624.

Here is a sport-by-sport breakdown of Winthrop athletics, 1978-79:

SOCCER: The Eagle booters made it to the district's final four for the second year in a row as they posted a 1979 record of 12-5-11 (the best ever for the four-year program). Coach Jim Casada's squad featured two all-district players, Frankie Griffin (team MVP) and Tim Paye, and one all-stater, Carlos Gonzalez. This year's dub loses only one stater, Carlos Gonzalez. This year's dub loses only one senior, so the Eagle booters should be district contenders next year. If they can beat Furman, they could be district champions.

VOLLEYBALL: Coach Linda Warren's team posted a 28-11 record in '78 and was ranked the number one small college team in the state for a good part of the season. They were the only small college to put three players on the All-State team: Joby Williams, Judy Kirkpatrick, and MVP Beth Amick. This team loses only one senior (including Williams and Kirkpatrick) and featured five freshmen. Winthrop volleyball is traditionally tough, and should be so again next season.

FIELD HOCKEY: Although their seasonal record was only 4-7-4, the field hockey team finished their season with three consecutive wins in the Deep South, courtesy of Coach Margie Bobb's career on a successful note. Although the team was composed of less than half of their players, it did have seven first-year players and two seniors to play with more experience. Junior Vicki Hawkins and freshman Ann Horton were both selected All-State.

MEN'S BASKETBALL: This team really put Winthrop basketball on the map. Coach Neld Gordon's team, in its first year of competition, finished with a record of 22-8 and was District Six runner-up. They came within two seconds of going to the NAIA national championship tournament in Kansas City (through a crushing 74-76 championship loss to Central Wesleyan). The 22 wins set a NAIA record for most victories by a first-year team. The team had big players, big victories, and, in spite of the championship loss, a big comfort—there were no seniors. Two of this year's players, twins Donnie and Ronnie Cramer, have been selected to make the NAIA All-Star tour of Australia this summer. There is no doubt as to what next year's goal is—district championship.

WOMEN'S BASKETBALL: Posting a final record of 14-9, this Linda Warren-coached team had its season highlighted by a runner-up finish in the Winthrop Invitational and a trip to the second round of the AIAW Regional Qualifying Tournament: Winthrop finished fifth among small colleges in the state. It also featured the first two thousand-point scorers in the school's history: Holly Bland and Joby Williams. Bland was selected as the team's most valuable player. A lot of hope for next year's team centers around returning starters Sara Dukes (voted one of the state's most outstanding freshmen players last season), Rozita Fields, and Shasly Dixon. The 79-80 Eagle women will be led by new head coach Ann Ellerbe.

MEN'S TENNIS: 1979 was not a very good year for men's tennis at Winthrop. Coach Pat Taylor's team posted a record of only 7-12. In the season-ending District Six tournament, only one player managed to make it past the first round. However, the team was very young and everyone, including Most Valuable Player Chris Harrison, will be back next year. However, Coach Pat Taylor will not be returning, as he is taking a job as head pro at the Asheville Country Club. His successor has not been named as of yet.

WOMEN'S TENNIS: Coach Ann Chambers' women netters had a super spring as their 11-2 regular season record was the best in team history. The team's outstanding player was No. 1 Elizabeth Forrester, who has posted an overall record of 41-10 during her three-year career. Freshman Alyna Bogue finished undefeated in singles during the 1978 season. The team went on to finish third out of 11 teams in the AIAW Division II State Tournament. All six Winthrop singles players made it to the semi-finals in their respective flights. No. 4 Robin Lickter finished as state runner-up. The real good news about this team is the fact that only Forrester was a senior.

SOFTWARE: Coach Linda Warren's third team of the year posted a final record of 13-5. This included two wins in the South Carolina state softball tournament. This was yet another young team, with only one senior on its roster—eight members of the team were first-year players. Two players, Junior pitcher Chris Sherman and Junior first baseman Sheila Stewart, made the all-state team. The women softballers ended the regular season ranked second in the state. Next year, the team will have a new coach who has, as of yet, not been named. Outgoing Coach Linda Warren was named 1979 state softball Coach of the Year at the conclusion of the season.

In addition to all of this, Coach Horace Turberville's first-year baseball team won 19 out of 20 scrimmage games. They will play their first full regular season next year.

While there have been many victories and a lot of happy time, 1978-79 sports at Winthrop has also had its share of sadness. Three coaches are leaving Winthrop: softball-volleyball and basketball Coach Linda Warren, field hockey's Maeberta Bobb, and tennis' Pat Taylor. In addition, Mary Roland Griffin is retiring as Assistant Athletic Director. Ann Ellerbe, out of Greenville's J.I. Mann High School, has already been hired to fill the field hockey, basketball, and associate athletic director jobs.

But, overall, this year has been a great one for Winthrop sports. Next year should be even better.

Winthrop Sports 1978-79: a winning season

1978-1979 Men's Basketball Team
(Photoby John Nicholls)

BULLETIN—The rumor reported in the Eagle Eye is true: a set of female twins have signed grant-in-aids to play basketball for Winthrop College. No specific information on the pair could be obtained before press time except that: a) they are both about 5'10", and b) they are, like Donnie and Ronnie Cramer, identical twins. However, we understand that this pair is much better looking.

1978-1979 Women's Basketball
(Photoby A. F. Smith)
TJ picks top ten news stories.

1. Saving MacFeat
   After President Vail made public his decision to close MacFeat Nursery and Withers Kindergarten in the September 18 issue of THE JOHNSONIAN, students, faculty, and alumni worked together to stop Vail’s recommendation.

   A committee to investigate the MacFeat-Withers proposal was appointed by Howard L. Burns, Chairman of the Board at the November 4 Trustees Meeting.

   The six-month controversy ended on March 24 when the Committee for the Study of the Proposed Closing of the MacFeat Nursery and the Withers Kindergarten recommended to the Board of Trustees that the two facilities remain open for the next three years for a thorough evaluation.

2. Soaring Eagles
   After a glorious season the Winthrop Eagles were applauded for having set the National Association of Intercollegiate Athletes record for the most wins by a first-year team with 10.

   Winthrop lost in the NAIA district trials, 75-74, to Central Wesleyan College.

   Coach Niel Gordon said, “We are disappointed. I feel for the players because they gave so much; they wanted to go to Kansas City so badly. It was such a disappointment to have come this far and not win.”

3. Co-ed comedy
   Housing became a controversial issue when Dean Cynthia Cassens, Assistant Dean of Students and Director of Housing, announced plans to make Thomson Hall fully Co-ed, while excess males would be housed in Richardson.

   Despite protests, men will be housed on the 1st and 3rd floors of Thomson Hall while women will be housed on the 2nd and 4th floors of the same dormitory.

   Cassens acknowledged that there were too many men for one dorm and not enough for two.

   “There is no other alternative,” she said.

   Cassens also pointed out that Bancroft Proper will house women next fall. She ended the discussion by saying, “We are a growing school suffering growing pains, until we settle, changes must be made.”

4. Winthrop inflation
   President Vail discussed the increases in food and housing fees for the 1979-80 school year on March 14.

   Vail recommended a $35.00 increase in housing costs, a 9% increase in food fees, and a $1.00 increase in tuition.

   According to Debbie Grimes, vice president of SGA, there will be no increase in tuition of general education fees at this time.

5. Losing a right
   The November 14 meeting of the Faculty Conference put an end to the teacher evaluations with a 57 to 27 vote to discontinue the practice. The conference voted to discontinue Student Description of Instruction and Course Program.

   According to Dr. Richard Houk, Vice-Provost and Chairman of the Academic Council, students lost the right to view the results when the college decided such viewing would “violate individual faculty rights to privacy.”

   Despite the ruling, many professors and students are concerned about the need for some alternative source of evaluation.

6. Security analyzed
   April brought on an investigation by THE JOHNSONIAN on the workings of Security. The purpose of the investigation was to analyze Winthrop’s Security and to observe whether or not it effectively serves its function.

   Several inconsistencies were reported on of how security towed and ticketed the students. Chief Williams, of Security said, “There is no set rule, but when that individual parks his car there, it is subject to being towed away.”

   The March 20 Student Forum saw students questioning security of these same inconsistencies and also with reports of the absence of Security officers on campus on duty in February. Williams replied, “I'll check into it.”

7. Field house proposed
   April brought the Trustees back to Winthrop to discuss plans for the proposed college field house.

   The field house committee met with the architect commissioned to design the complex to discuss available plans.

   The 6,000 seat multi-use field house is designed with many purposes in mind. “It’s something to be used for any number of things,” said Mabel Hamilton, head of the committee, “from sit shows to concerts to tennis matches.”

8. Snowy days, snowy nights
   “Winthrop hasn’t seen this much excitement since men were allowed admittance years ago,” said a student after viewing fellow students playing in about 12 inches of accumulated snow.

   Mother Nature graced Winthrop College Campus twice this year with two “significant” snows, as many skiers and snow buffs noted.

9. Baseball added
   Baseball was added to the men’s intercollegiate sports program at Winthrop following a faculty committee recommendation and approval of the Winthrop Board of Trustees.

   The new sport competed as a club this past spring. In the spring of 1980, Winthrop will enter intercollegiate competition in the National Association of Intercollegiate Athletics District Six.

   Horace Turbeville, who came to Winthrop as assistant athletic director in 1978, coaches the baseball team.

10. Hayes beats out Urscheler
   One of the largest student voting turnouts resulted in the election of John Hayes as SGA President. Hayes defeated incumbent Dan Urscheler by a wide margin as Juliene Williamson grabbed the Vice-President Post, and Julie Gilbert won the seat of Attorney General. Ron LaFatte was elected "Drinkin" Student Union president."
Citizen group to sponsor “People Energy Plan”

The Institute for Ecological Policies, a public affairs advocacy group based in Fairfax, Virginia, announced the launching of a major initiative aimed at developing alternatives to current energy policy. The Institute will coordinate the development of “People’s Energy Plans” at the county level throughout the U.S. The plans, focusing on local renewable resources as an alternative to nuclear power, will later be assembled into a national plan.

IEP director Jim Benson stated, “The U.S. Department of Energy holds back solar power while pushing nuclear power. It took Congress two years of squabbling to pass the National Energy Plan, which raises prices and further enriches the giant energy companies. People want to be heard about their desire for clean, safe, affordable energy. We are going to send President Carter and the Congress a message: the People’s Energy Plan.” Benson urged all those interested to contact the Institute.

According to Benson, the Institute has prepared a non-technical guide with simple instructions on how to perform the county energy studies. Each county study will estimate 1) current energy use, 2) the potential for renewable resources such as solar and wind power. Low-energy alternatives for agriculture, business, home, industry, and transportation will be explored.

The project, to be coordinated out of the Institute’s Washington, D.C. office, is designed to educate people about decisions which directly affect them, Benson said. “Simple, small-scale, local technologies are democratic, complex, large-scale technologies, such as nuclear power, are not. They are forced on us from above. People no longer trust government and utility companies in these decisions. Individuals want to regain control over their own lives.”

The Institute plans a national convention, once all 50 states have People’s Energy Plans. Federal, state, and local officials will be presented with the plans, backed by “an active constituency of many thousands,” said Benson.

“We cannot wait for the government to come up with this kind of plan. If we want it, we have to do it ourselves. We have to begin to make the various levels of government responsive to our needs, not to the needs of special interests,” Benson said.

He concluded, “The Plan will be assembled by volunteers from all walks of life: activists, architects, homemakers, students, planners, retired people.” To help coordinate the 3,000 working groups, regional and state coordinators are being selected.

BY MARGARET CARROLL

The twenty-fifth meeting of the Winthrop College Senate marked the first meeting that Jimmie Williamson chaired as Vice-President of SGA. Williamson previously served as a Senate chairman in SGA.

WC Senate meets

Two new senators were appointed and sworn in to replace Williamson and SGA president John Bayes. The new senators are Terry Grove and Jim Byrd. A new Senator pro temp was appointed also. Steve Banner will serve Senate in this position next year. He will preside in the absence of the Senate president.

Kay Carter and Candice Littlefield were also appointed to chair committees next year. Carter will chair the Rules and Regulations committee and Littlefield will chair Student Life.

Moving to old business, the

Scholarships await students

ATLANTA, GA. – Scholarships of up to $1,500 each await students who have completed at least two years of college and who are chosen to receive Ralph McGill Scholarship awards.

Applications are due May 1st.

Jack Tarver, chairman of the Ralph McGill Scholarship Advisory Committee, said the scholarships are limited to those who have completed at least two years of college and who have demonstrated a long time interest in the news and editorial phase of newspapering. Tarver said the scholarships are also limited to those whose roots lie in the South.

To receive a scholarship, applicants must convince the awards committee that they firmly intend to pursue a career in daily or weekly newspapering. Tarver said the committee wants to award scholarships to those who are likely to become leaders in the newspaper field.

A letter of not more than 500 words telling why the applicant wants a scholarship, together with a photograph of the applicant, must accompany each application.

Applicants also must have a letter of recommendation from a college authority.

Application blanks may be obtained from: The Ralph McGill Scholarship Fund, Box 4689, Atlanta, Georgia 30302.

Announcements were made and the meeting was adjourned.
Lenox receives Sullivan Award

Dr. Cora Clinchscale Lenox, staff member at the Children's Hospital of Pittsburgh and the University of Pittsburgh School of Medicine, was awarded the Mary Mildred Sullivan Award Saturday (April 9) at the annual Winthrop College Alumni Association meeting.

Lenox, who attended Winthrop from 1925 to 1929, was nominated for the honor by the Greenville, S.C. chapter of Winthrop Alumni. The Sullivan Award is the highest honor bestowed by the college on an alumnus.

The award was presented by Charles B. Vail, president of Winthrop College, during the morning business meeting.

In its nominating letter, the Greenville alumni chapter stated: "Lenox has spent 14 years in China. She is a beautiful and superior person, spiritually, emotionally and physically. And now, in her 71st year, still producing, still serving, she should be an inspiration to every Winthrop student. And to every woman anxious about advancing years, her example as a professional wife, mother, and grandmother should offer a burst of joy."

Lenox was born July 20, 1908 in Troy, S.C. She graduated from Greenville City High School in 1925. After graduation from Winthrop, she received a scholarship from the American Federation of Women's Clubs to attend the Woman's Medical College of Pennsylvania in Philadelphia where she met and married Dr. John Lenox.

The Lenoxes went to China as missionaries in 1930 under an appointment from the Northern Baptist Convention. Six years later after intensive study in Chinese, she received a M.D. degree from West China Union University College of Medicine in Chengtu.

Returning to the United States during World War II, she earned an M.D. degree from the Women's Medical College of Pennsylvania. She has practiced medicine in Philadelphia, W. Va., and achieved specialty certification in pediatric cardiology.

She was honored in 1976 by the Medical College of Pennsylvania's "Commonwealth Board Award" for her unique contribution to medicine.

In the past nine years, she has published 30 articles in major medical journals and given 21 lectures at medical meetings in the United States, Australia, Japan, and China. In February 1976 she went to Haiti as a member of the Baptist Mision Involvement Work Tour.

Bobb receives presidential citation

Maeberta Bobb, assistant professor of physical and special education at Winthrop College, was named a winner of the presidential citation from Winthrop President Charles B. Vail.

Bobb received a Presidential Citation for service to the college "above and beyond what we have a right to expect" during the final faculty meeting of the academic year April 16. Bobb was instrumental in planning and implementing Inservice '73, a conference of 2,500 area school teachers who met on the Winthrop College campus in February.

A native of Newberry, Bobb came to Winthrop in 1970. She received her bachelor's degree in physical education in 1963 from Winthrop, her master's in physical education in 1966 from the University of Tennessee and her doctor of education degree from the University of Georgia in 1977. She is also the women's field hockey coach at Winthrop.

Bobb is the daughter of Mr. and Mrs. Bobb of Green Street in Newberry. She lives in Rock Hill.

Solomon receives special award

Andy Solomon, sports information specialist at Winthrop College, has received a special award from Winthrop President Charles B. Vail.

Solomon received a Presidential Citation for service to the college "above and beyond what we have a right to expect" during the annual Honors Banquet for new students April 11. Solomon's award was the first Presidential Citation ever given at Winthrop.

Solomon came to Winthrop in July 1978 from the Baptist College at Charleston where he had been sports information director and tennis coach.

Solomon is a 1977 graduate of the College of Charleston where he was student sports information director for four years. He is a member of the College Sports Information Directors of America and NAIASports Information Directors Association. In 1977, he was secretary-treasurer of the South Carolina Sportswriters Association.

A native of Charleston, Solomon is working toward a master's degree in history at Winthrop.

Freshmen honor society

Twenty-eight Winthrop College freshmen have been inducted into the Gamma chapter of Alpha Lambda Delta.

Inducted in April 12 ceremonies were Patricia Mae Adams, daughter of Mr. and Mrs. Samuel N. Adams, Jr. of York; Linda Margaret Amick, daughter of Mr. and Mrs. Karl A. Amick of Lexington; Mary Lucy Bell, daughter of Dr. and Mrs. W.L. Bell, Jr. of Eastover; Kathryn Betsy, daughter of Mr. and Mrs. R.H. Betsy, Jr. of Raleigh, N.C.; Cindy Kay Berry, daughter of Mr. and Mrs. M.K. Burgess of Columbia.

Also inducted were Allen Mal-Jing Cheung, daughter of Mr. and Mrs. C. Chin Yan Cheung of Tema, Ghana, West Africa; Carolyn Jean Dorney, daughter of Mr. and Mrs. M.V. Dorney of Greenville; Amanda Jane Frick, daughter of Mr. and Mrs. D.H. Frick of Chapel Hill; Carlos Manuel Gonzalez, son of Mr. and Mrs. L.E. Gonzales of Hales, Pa.; Alison Lee Galloway, daughter of Cecil Galloway of Gaffney.

Other inductees included Tameal Magdalene Hamlin, daughter of Mr. and Mrs. O.T. Hamlin of Besley; Tracey Lynn Horton, daughter of Mr. and Mrs. H. Horton of Ashville; Eula B. Horton of Asheville, N.C.; Sheri Annette Johnson, daughter of Dr. and Mrs. James Johnson of Charlotte, N.C.; Kim Rene Kinard, daughter of Mrs. Ode M. Kinard of Winnsboro, S.C.; Harriet A. McCauley, daughter of Mr. and Mrs. I.O. McCauley of Spartanburg; Marti Elizabeth McWaters, daughter of Mr. and Mrs. W.J. McWaters of Catawba.

Others inducted were Wayne Thomas Moody, son of Mr. and Mrs. Robert J. Moody of Chesler; Debbie Elaine Morris, daughter of Mr. and Mrs. D.A. Morris of North Charleston; Elise Charlotte Oyoyo, daughter of Mr. and Mrs. Michael Oyoyo of Naiobi, Kenya; Susan Benfield Rushing, daughter of Mr. and Mrs. G.A. Rushing of Monroe, N.C.; Rosemary Swaim, daughter of Mrs. Mary Lou B. Brown of Nesbit.

Also, Karen Suzanne Gray, daughter of Mr. and Mrs. T.L. Gray; Barry J. Hotherrall; son of Mr. and Mrs. J. Hotherrall; Joel Brian Burg, son of Mr. and Mrs. R.J. Burg, son of Mr. and Mrs. R.J. Housel, all of Fort Mill; and Anita Frances Jolly, James Cleveland Bragg, son of Mr. and Mrs. J.C. Rivers; Joel Brian Burg, son of Mr. and Mrs. R.J. Burg, Sr.; and Brian Keith Williams, son of Mr. and Mrs. J. Williams, Jr., all of Rock Hill.

Dionne Warwick says: "Get your blood into circulation."

"A model Model UN"

BY JEFF CLARK

The third annual conference of the Winthrop Model United Nations is over. The action-packed sessions ended with an awards presentation on Saturday, April 21.

The five Winthrop College students who received awards were Kay Carter, Cindy Dean, Page Doolley, Barbara Hedges, and Charles LeGrand, according to Joyce Plyler, assistant student coordinator. The delegation award results were: Secretariat Award-Parkside High School representing the United Nations; Geoffrey Bruce Award-Wilson Hall High School representing South Africa; and the Winthrop Cup-Myrtle Beach High School representing the U.S.S.R.

However, the high point of the Model UN was probably the press conference held on Friday, April 20, in McBryde faculty lounge where Mr. William Angel; Mr. Gonzalo Palacios, Embassy of Venezuela; Mr. Ejoh Abuah, Permanent Mission of Nigeria; Mrs. Gillane Allam, Arab Republic of Egypt; Mr. Olav Tomstrom, Sweden; and Conrad J. Van Tooran, Kingdom of the Netherlands, answered questions posed by various area reporters from radio, television, and newspapers.

Most of these delegates had similar opinions concerning the Model UN as a whole. Mr. Angel added that he was very impressed "with the quality of the organization and with the seriousness of the young people that are here in terms of the questions that are asked."

Mr. Abuah contended that those who participate in the Model UN will find the experience extremely useful. He also added that "the ultimate aim of any civilized young man or woman is to be a citizen of the world."

The high school students who debated were intensely involved in their positions and the delegates noticed this. Mrs. Allam of Egypt remarked that the Winthrop Model UN was special because it involved "mature young people who were really interested and did really dig down into the subjects and the countries they were representing and tried very hard to understand what were the underlying reasons for whatever position they wanted to take."

Climaxing the press conference was an observation made by Swedish representative, Mr. Conrad J. Van Tooran, when he said, "As I compare them (the debates) with what is going on in New York, I don't hesitate to say that when it comes to seriousness and frankness, they are, in some cases, better than the debates they are presumed to imitate, especially when it comes to keeping the speeches a reasonable length and getting to the point in time."
Ken Smith-Winthrop's first GPS intern

Ken Smith plans a career in business and finance. As a GPS intern at Winthrop College, Smith is working on a comprehensive project which involves budgeting for the college and developing a plan for the maintenance department.

Richard K. Smith, a student at Winthrop, is working on the internship. He believes this experience is invaluable and helps him understand the business world.

News briefs

**Hardee's Shake Day**

Saturday, May 5th will be the date of HARDEE'S SHAKE DAY for S.C. SPECIAL OLYMPICS, and the proceeds from the sale of all shakes at the Hardee's Restaurants in South Carolina will benefit South Carolina's mentally retarded children and adults in the Special Olympics program.

**Phi Kappa Phi elections**

Winston-Salem's chapter of Phi Kappa Phi has elected new officers for the fall semester on Monday, April 16, according to Larry D. Durham, secretary.

**Ten received in Book and Key**

Ten students in the College of Arts and Sciences were received into Book and Key Thursday night, April 26, at 6:30 p.m. at President Wall's home, according to Dorothy Medlin, sponsor.

Men's tennis team wraps up season

BY DAVID JACKSON

The Winthrop Eagles men's tennis team wrapped up its 1979 season last week by splitting two matches and participating in the District Six championship tournament.

The Eagles lost to North Greenville and beat Newberry to wind up with a final match record of 7-12.

Winthrop lost to North Greenville 6-3, the three wins all coming in singles matches: No. 1 Chris Harrington, No. 5 Lanny Lowery, and No. 6 Billy Martin.

However, the men's tennis team managed to bounce back to defeat Newberry 6-4, in spite of having to default two matches because of player absences (one of them being the No. 1 Harrington, who was injured). To compensate for these losses, Winthrop got wins out of singles players David Johnson (playing No. 3), Doug Daniel (No. 4), Lanny Lowery (No. 5), and Billy Martin (No. 6). The No. 1 doubles team of Sid Jones and David Johnson also won to ice the match.

Winthrop did not do as well at the District Six championship tournament in Clinton on April 20-21. In fact, none of the Eagles except Harrington made it past the first round (although Lanny Lowery and the doubles team of Lowery and McDaniel did manage to split sets in their opening round). The Eagles had the misfortune of drawing the top seeds (and eventual champions, all of them from team Coastal Carolina) in their first matches.

Only No. 1 player Chris Harrington managed to win his first round match. However, in the second round, Harrington too, ran into defeat at the hands of a Coastal Carolina player who eventually became the district's No. 1 singles champion.

While all of the Winthrop Eagle men's tennis players will be returning next year, one member of the team will not—Coach Pat Taylor. Taylor is taking a job as head tennis pro at the Asheville Country Club. A search is currently underway to find a successor.

Women's tennis team edges PC for end of season win

BY JAN WISE

The Winthrop College women's tennis team won a 6-4 revenge victory over Presbyterian College, April 17 at the Winthrop Tennis Courts. The Clifton, S.C. team had scored a narrow 5-4 win over the Eagles at their home court April 12.

The match which concluded the regular season for the Winthrop netters was not decided until the outcome of the No. 3 doubles match. The Eagle duo of Allyn Hogue and Julie Wingard ousted the Presbyterian pair in a two hour final to win 1-6, 6-4, 6-1, and give Winthrop a one match margin win.

Senior Liz Forrester lost in the No. 1 match-up in three sets; 6-3, 6-1, 6-1 to Lee King, PC's top player. Amy Paul, Donna Lewis, and Allyn Hogue won their matches for the Eagles.

Winthrop coach Ann Chambers praised her team for their effort against Presbyterian.
Women’s softball team ends regular season

BY JAN WISE

The Eagle woman's softball team swept both ends of a doubleheader against Spartanburg Methodist College April 18 at Peabody Field. Coach Linda Warren’s players came out on top 13-5 in the first game and 15-4 in the second.

Senior Chris Sherman started at the mound for the Eagles. Sherman held SMC batters to only three hits but allowed four base-on-balls.

The game went scoreless until the third inning when Winthrop scored five runs. Junior catcher Denise Shaltet and Junior shortstop Elaine Baker, both had homers during the Eagle surge.

Winthrop went on to add three runs in both the 4th and 5th inning, and two more in the 6th. SMC did attempt a rally in the bottom of the 6th when five players crossed the plate, but the Eagles' cushion prevailed as Winthrop won 13-5.

In the second game Winthrop once again jumped to an early lead over SMC. The Eagles scored three in the first inning, five in the second, and by the 6th had mounted a 12-3 lead.

SMC scored its first two runs in the 4th inning and two more in the 6th. The Spartanburg team never posed a threat to the Eagle players who concluded their scoring with one run in the final inning.

Warren's players came out on top at Peabody Field. Coach Linda had mounted a 12-2 lead. The campus-wide interest in this activity is tremendous. Let’s hope that the way the Intramural softball program is handled does not kill off this interest.

Soccer coach Jim Casada has given me a sneak preview of his 1979 regular season. The 30-game regular season includes eight home contests and no appearances in the Superior Soccer Classic in Athens, Georgia on Sept. 21st and 22nd.

Casada is pleased with the fact that the Eagles play three of the toughest teams in District Six at home—Central Wesleyan (October 3), College of Charleston (October 20), and Erskine (October 30), the last regular season game. In addition, Winthrop will play five NCAA Division 1 opponents—Davidson, The Citadel, Baptist, UNC-Charlotte, and (gulp!) the nationally ranked South Carolina Gamecocks.

Let’s hope that Winthrop’s 1979 Soccer season also includes a third consecutive trip to the District Six playoffs.

Also regarding soccer, Coach Casada tells me that nowhere in the country can a manager “desperately” needs a manager for next year. Anyone interested in that job is urged to contact him at his office, 250-B Kinard (telephone 324-0601).

Cindy Ferrell has also been named a co-captain for the 1979-1980 cheerleading squad. This announcement was inadvertently left out of last week’s paper. (Sorry about that Cindy). The other cheerleading co-captain is “First Lady” Tammy Finley.

Eaglettes honored at banquet

The Eaglettes, Winthrop College’s athletic service organization, held their first annual awards banquet April 25 in Thomas cafeteria, according to Chairman Kelly Gordon.

Given special recognition for service to 1979 season was Charlie Bedford, Nina Benjamin, Pam Gray, Carol Hough, and Patricia Matthews.

Also recognized were Kathy McNamara, Valerie Rice, Karen Sillivant, Cynthia Smith, and Lisa Wright.

Nine members were honored with an extra award for special outstanding service. The girls honored were Cindy Patterson, Mae Kennedy, Kelly Gordon, Wanda Faust, and Kim Harrell.

Also honored were Susan Honeycutt, Sandee Pote, Cheryl Sessions, and Rita Yarbrough.

The 1978-1979 Board of Directors was announced. Members of the board are Cindy Patterson, Nina Benjamin, Pam Gray, and Lisa Wright.

The 1977-1978 sports talk revolved around intramural softball. It seems to me that this is the most popular intramural sport on campus. It’s a shame that it is not better run. For example, a team consisting of some of my friends had the starting times of their games backed up until very late. Then, when they finally did start, they could only play a couple of innings until the game was called because of darkness. This happened on two occasions, both games which were scheduled to start at 5:45 and 6:30 did not get under way until well past seven. I’m sure that this has happened to other teams as well.

Last season, the softball season did not end before the school year did. This year it looks like the same thing will happen. I wonder if Winthrop intramurals have ever managed to complete a softball season. Perhaps next year they should start the season a little bit earlier.

**Women's tennis team finishes third in state tourney**

**BY JAN WISE**

The Eagles women's tennis team placed third in the AIAW Division II State Tournament, April 19-21, at the University of South Carolina in Columbia. Eleven college teams took part in the three-day tourney including: Columbia College, College of Charleston, Converse College, Erskine College, Furman University, Francis Marion College, Newberry College, Presbyterian College, S.C. State, and Winthrop.

The College of Charleston captured first place in team competition. Furman followed in second position.

All six Winthrop players reached the semi-final of the contest. Junior Robin Litaker from Columbia, S.C., was the only Winthrop player to reach the finals. Litaker was then defeated in the No. 4 flight championship.

Coach Ann Chambers was pleased that all of the team members had a chance to play. "The team worked hard this year and deserved to do as well as they did. They should be recognized for the excellent job they've done." The Eagle women closed out their season with a 11-2 record, the best a Winthrop women's team has posted in the past five years.

Liz Forrester (the only senior on the young team of one junior, two sophomores, and four freshmen) ended three years of playing in the No. 1 position for the Winthrop tennis team.

Forrester, a sociology major from Georgetown, S.C., boasts a 41-10 career record during her three years of play at Winthrop. Liz completed a 10-3 record this season and is ranked 16th in the State women's bracket.

Chambers summed up the contributions Forrester has made to women's tennis during her three years of play at Winthrop by saying that, "Liz has established a first for Winthrop. She is the first highly rated player to carry our school's name and is respected and known by players of other teams." Chambers added, "Liz is a very coachable player and has continued to improve this year."

**Winthrop 2-2 in state softball tourney**

**BY JAN WISE**

The Winthrop Softball team traveled to Pontiac, S.C., April 19-21 to participate in the South Carolina State softball tournament. Seven teams throughout the state took part including Furman University, Voorhees College, Erskine College, Benedict College, Limestone College, the University of South Carolina, and Winthrop College.

The Eagles played four games during the competition, with wins over Voorhees and Erskine, and losses to Benedict and Limestone.

Winthrop had an easy time with Voorhees in a night game, April 19. The Aggies won impressively, 21-5, over the Denmark, S.C. team.

Coach Linda Warren's team had twelve hits and 14 stolen bases during the game. Voorhees had only four hits off the Winthrop pitching staff of Debbie Carroll and Amber Ashley.

Warren commented that "Voorhees played a better game in the tourney than during the season when Winthrop won two games over them." Warren was pleased that all of the team members had a chance to play.

Winthrop lost a heartbreaker to Benedict on April 20 in their next game. The Eagles had a 4-1 lead until the 6th inning when Benedict exploded for six runs. Winthrop could not recover and lost 7-4.

"We just blew it," said Warren. "They (Benedict) are a good hitting team, but we should have held them to only three runs that inning."

The Eagles then met Erskine for the next game in a "do or die" situation for both teams in the double elimination playoff. The battle was important to the Winthrop team in order to stay alive in the tourney and more personally important in that it had been Erskine who had knocked Winthrop's volleyball and basketball teams from the playoffs this past year.

A Linda Warren pep talk and plain determination led Winthrop to a satisfying 9-3 win over the Erskine team. But Winthrop's season was brought to a halt in the next game against Limestone April 21. Limestone outscored Winthrop 10-3 to eliminate the Eagles from tourney play. Thus, Winthrop wrapped up its season with a 13-5 record.
