Statutes Speak For Good Standing

Support The WCA

As little as most Wedsday students realize it, Wethersfield campus by twelve of the Campus-ol-Interests, Christian Association for Christian students, among the campus students, have many excellent opportunities for religious nature to offer students. In the beginning of the year, many programs with special speakers, musicians and sometimes reflecting back on what God has made real advantage of by many girls.

Of course, everyone understands that with classes, busy schedules, meetings, and other time-consuming things that it is not possible to attend every feature of the program. That would be like the little boy who had two big pieces of cake—it was all good but it was just too much for him to eat.

Nevertheless, in spite of all the many others, I can't help feeling that the maximum number of students should take part in and support both the WCA and the Students Government. Everybody has a stake in our school—our activities, our traditions, our sports teams, and all of those things. To be a part of this whole community is one of the things that make Wethersfield so special.

Perhaps the club of student government is a good place to start. The students Government has to face, you know, the aspects of the school that are not part of the daily life. How do we make sure that the students are getting what they need from the school? How do we make sure that the school is operating efficiently? How do we make sure that the students are treated fairly?

I'm sure that some of you are wondering if these programs are interesting, improving ourselves from both the inside and outside of the school. And, of course, we are responsible for making sure that the School Board is doing a good job.

So, if you're interested in these programs, you should start by joining the Student government and the WCA. Together, we can make sure that our school is running smoothly and that we have the chance to make the most of our time here.

Perhaps you're thinking about how you can help. You can start by volunteering your time and your talents to help with some of the programs. You can also think about how you can help raise money for the school. Perhaps you could start a fund-raising campaign for the school or volunteer your time to help with some of the events.

And, of course, you should encourage your friends to join the Student government and the WCA. Together, we can make sure that our school is running smoothly and that we have the chance to make the most of our time here.
