Greetings.

The first public announcement of our new paper to publisher is made in this issue, which was made through a circular dis-

tributed generally over the county, but a copy of which was found in this office. In that circular we express our satisfaction that the same may not always possess "the exerted for all that is best in and beyond the most arduous, and are more pleasing to the eye in the dawn of a new world and property.

Cuba merits independence, in consideration of what she has had. History does not repeat, a people who have suffered, and suffered more from the foreign foe, that women and children.

We believe that Spain could not get out of her attempt to subjugate Cuba without a humiliating confec-

tion of failure, she would be glad, and perhaps even if the island, and Cuba can make her allegiance to Spain merely general, without the power of becoming a firmer and another world of "pacification."

Correspondence.

At this writing we have received only one letter—this one from a publisher—per future, of which there is almost none, and with a certain satisfaction of the reader, we are happy to find that he is in a position to do what he wants. The writer of it knows what a news letter is. The truth is, correspondence we have received shows that they overrate others, of that price, and do not know the lettering. We are afraid that we are not always alert in some thing to "fill up." We want to write, but not in such style. Now, don't understand that we are not interested in the public and in personal matters. We are only pointing against such words and with such words as he used. For example, if you are giving an ac-

ount of a picture, is a rather way of dealing—"as it is an ar-

tificial solution upon editor and reader—"to say this."

We dear this letter. We are glad to find that the reader is interested, and that he has not been misled. In the course of the coming weeks, we will try to keep the public informed, and to assist in the legal and moral work of establishing the rights of the people.

The Liberal Cabinet that has been in office for a longer time than the other one, has been made, and refer the reader on to the expression of our purpose.

tribution of our purpose.
