It is from quartern like these we are gathering our "Hard Hitters." It is only an elaboration of an old precept called the golden rule, but that may not have been a very accurate rule.

In Buying Furniture

You Should get the following points settled beyond the shadow of a doubt:

FIRST—That you are getting new goods, goods that have never been sold on installing, and trade marks. This is your chief point in purchasing any but perfectly new goods. Not a piece of Furniture that got out of this store ever comes back to us after being bought and we are absolutely guaranteed every piece of Furniture we sell is a new piece, and the price you pay for that piece will give you such a guarantee.

SECOND—That you are getting the lowest price obtainable in the grade of goods you are buying. Get other people's prices and then come to us and we will show you the difference.

Our prices are at least 20 per cent lower than all others.

THIRD—That you know what you are getting when you buy. You may take to the dealer the story of this.

There’s no way to tell it until you see it. But by thinking anything from such as not as represented, it will at once be eminently clear that you have been here and have never had any idea of comparison that we have practiced a deception upon you, that it was a good record.
