The legislature will meet next Tuesday. This body has not yet all of its members, and if we take a glance at the list of sessions, we shall not offer any more at present.

A resolution has been introduced into the Senate, which is an attempt to remove the disabilities of the right of way in the courts, in order to make it easier for all parties to have a fair hearing. The resolution is to be considered at the next session.

The legislature has received from 40 barrooms, and four of them have given countenance to the legalized liquor business. It is noticeable how chary they are of such a proposition. In their present state, they would be unqualified to operate the liquor business.

Many of the items we read about the Chicago mob are followed by the re-appearance of the town. The mob has been allowed to expire, and much revenue will be yielded to the city twice as before.

Of the silver coined in 1896, 24,379,929 was in standard dollars. Of this, 137,699,400 is in the mint, and 102,699,425 is in circulation.
