It has been accepted for inclusion in The Chester Lantern 1903 by an authorized administrator of Digital Commons @ Winthrop University. For more information, please contact bramed@winthrop.edu.
The Price of Peace

As an appeal from certain quarters, we direct your attention to the vastness of the two empires and the wide
expansion of their power. We are aware of the danger that threatens our country, but we believe that the
peace of the nation is the paramount consideration. We therefore urge upon the government the necessity
of peaceful measures and the avoidance of war. We feel
that the time has come for the people of the country to
consider the welfare of the nation above all else.

The Price of Peace

We are of the opinion that the best course to follow is
peace and conciliation. We believe that the government
should make every effort to prevent war and to
maintain peace. We urge that the government should
not take any action that may lead to war. We feel
that the people of the country should be united
and work for peace. We therefore appeal to the
people of the country to support the government in its
 endeavours to maintain peace.
