Great Battle Waged for an Hour Against Landing Nets in Victoria.

A sensational clash up to this point in the new Melbourne legal battle between Dr. Bell's Plume-Tar-Honey and its antagonists, was enacted last Thursday when the Hon. Mr. Justice Wood, in the Supreme Court, handed down his decision after a long and thorough consideration of the case.

The battle was fought in the name of a man named Smith, who was caught in the teeth of the legal battle and was unable to continue. He asked the court for a three-year extension of time to prepare his case, but the judge refused.

The judge ruled that if the plaintiff had not satisfied the court that the extension was necessary, he could not be granted.

FLIGHT OF THE BOMBERS

The aircraft were designed specifically for military purposes, and the pilots were trained in advanced flying techniques.

The Strategic Air Command was established in 1941, with the mission of providing strategic bombing capabilities to support ground forces in World War II.

However, the war ended before the full potential of these aircraft could be realized. The B-29s and other aircraft were used in a variety of roles, including reconnaissance, ground attack, and training.

The planes were also used in post-war operations, such as the bombing of Germany and Japan.

WEATHER REPORT

The weather was dry and hot in the latest reports, with temperatures reaching 90°F in many areas.

Cloud cover was limited, and the sun was bright and strong. The lack of moisture in the air made the heat even more intense.

The conditions were perfect for outdoor activities, but also posed a risk for wildfires and other natural disasters.

The forecast for the coming week showed a continuation of the dry and hot conditions, with temperatures expected to remain high.

Mr. Erns Wortley, of Charleston, W. Va., signed an appoin- ment for national health insurance on July 2, 1935, and paid the first quarterly payments of $1.25 each, taking in exchange therefor the Caster Ice Company’s licenced policy. He made an understanding for examination the following day, but his wife, for whom he then was employed, was too ill to be examined, and he failed to return for the examination.

The agent, however, consulted with the man’s doctor, who declared him to be too ill to be examined, and the company decided to return the money paid. The policy was returned to the company on August 3, 1935. In the meantime, Mr. Wortley was taken sick at home, and his doctor declared him to be too ill to be examined. On August 8, 1935, he again failed to return for examination.
