WASHINGTON LETTER.

A territorial government for the Territory of New Mexico, representing the interests of the United States and the people of the Territory, is about to be organized. This is the result of long and patient work. The late territorial governor, who has been in office for the past two years, has been working on this project. The new government will be established by the state legislature, and will be composed of a governor, secretary, treasurer, and other officers, appointed by the governor. The legislature will consist of a house of representatives and a senate, both elected by the people of the Territory. The governor will be nominated by the party holding a majority of the votes in the legislature. The senators and representatives will be elected for two years. The Territory of New Mexico will be divided into counties, each of which will have a county government. The territory will be opened for settlement by the people of the United States, and the lands will be sold at public auction. The Territory of New Mexico is a vast and rich territory, and the new government will be able to carry out the work of development and improvement with the aid of the people of the United States.

Several Reasons Why the JEWELED ARE the Best Ranges on the Market:

They are very heavy and are substantially and mechanically built, and are treated with extra heavy brass sheeting, which keeps an even temperature in the oven.

The oven door is made in sections so as to prevent warping.

The oven door is perfectly balanced and drops down without a jar, forming a nice broad shelf on which to slide the pans out.

They also have the new better attachment and draft feed as well as the dampening grate, heavy fire box linings, and a tight warning closet that keeps food warm and moist.

The Jewels have stood the test of time, and are more universally used than any other range.
