Shimmery Opening of Hilburn's. Special dress goods are being received and new stock of garments will be on hand early in the season.

A baptized and confirmed Christian will be among you all down here. So I am proud to say—

Kin Folks And Friends!

I have ten fingers and ten toes. I can count that much, but I just can't count all my good friends down South here—they are far too many.

And I'm mighty proud of them. The men who make me say, you can tell real quality by the company one keeps.

Blood will tell. A good name and good breeding count most of us.

And that same rule applies to cigarettes, too. More and more gentlemen of the South are smoking me, SOVEREIGN, every day, because they know I come from good old Virginia and Carolina stock—the finest, grandest stock in all the world.

Quality is the thing, friend—you can't deny it. And I stand for Quality.

You Folks of the South KNOW good blood! You Folks of the South KNOW good tobacco!

That's why I am so loved among you all down here. So I am proud to say—

I am guaranteed by the American Judges. Buy me, if you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

At KLUTTZ—"ON THE HILL"
Trial at Bamborg

 kiện of KIUIBI of Clairclay at Ekrhardt.

Bamberg, Jan. 20.—G. J. Hiers, a prominent planter of the Ehrhardt section of Bamberg County, was tonight convicted of manslaughter by a jury in Court of General Sessions here. He was tried on the charge of murder, the result of the killing of Charles Kinsey, a merchant, of Ehrhardt, the latter part of 1916.

Judge Ofcry, presiding, sentenced Hiers to six years, but upon notice of appeal, the defendant was released on bond of $500. The trial was begun yesterday and about 5 o'clock this afternoon the case was referred to the jury, which in two hours returned a verdict.

The defendant, who kept his composure during the trial; even while undergoing a most rigid cross-examination, broke down and wept when the verdict was announced. This case was hard fought throughout, able counsel being engaged on both sides. A great deal of interest was manifested in the trial on account of the prominence of the principals in their community, and the court house was crowded while the witnesses were testifying and during the arguments.

With the ending of the Hiers trial the term of criminal court was brought to a close and Judge Gary has returned home.

BRITISH SEE CRACK IN DOOR OF PEACE.

London, Jan. 18.—Great importance is attached here to the expected from Balfour's explanatory note to the President, which is considered a manifesto and presentation of the Allies' case. It undoubtedly has far less of the conventional Foreign Office twang about it than some other communications sent during the war, and it is obviously the sole handiwork of Balfour himself.

Even when leader of the Unionist Party Balfour was never a militarist; on the contrary, his advocacy quarrels was distasteful to the fire-eating section of his followers. He is also among the many leading men of both parties who remained unconvinced of Germany's "lust for domination" until the present war actually began.

The scale of events has forced Balfour into his present position in regard to what is essential to save Europe and the world from another catastrophe. At the same time it is noted that his speech on the Allies' demands does not present them in terms so unalterable as the Allies used to do, and in that sense the door seems to have been opened. With the scaling of the Hiers trial has come a close to the only case brought in a close and Judge Gary has returned home.

LOANS NEGOTIATED ON FARM LAND.

Shredded Drug Co., Chester, S. C.

BIG FACTOR IN PRICE. PAID BY THE CONSUMERS.

The difference between American and English prices of $775 and $515 for sixteen-inch shells and $368 for fourteen-inch shells, respectively, is accounted for on any theory of labor cost. When it has suited the American bidders to meet the bids for armor-plating, they have been reluctant to accept new business. For this reason, it is explained in the fact that Bethlehem Steel, which sold for $500 in 1914, before the war, commanded 500 last year and is now quoted above 450 a ton. An institution so honest and so rich as this may be able to secure for less than intelligent and patriotic interest in the defensive measure on the western and eastern fringes of the United States, it has not in economic computing that the Government contributes to supply its needs abroad or by purchasing supplies up to its own needs, in other words, much of which every citizen must take notice is the those who choose must for public favor arena for honest bargains when they come to deal with the people.

DELIVERY COST ARE HIGH.

The results of the first investigations which were made in the city of Washington were such as to give the Secretary of Commerce’ the idea that a preliminary survey of the subject of delivery costs, in relation to the prices of commodities, that the cost of delivery, as it doubtless will, the cost of delivery, be a preliminary survey of the subject of delivery costs, and is now quoted above 450 a ton.
