LETTER OF Hon. D. R. Atchinson, in Relation to Kansas.

The Governor recommends, first, that the legislature shall proceed to the calling of a convention of the people to ratify or reject the constitution of the State of Kansas. This subject has been long and carefully considered, and it is believed by many that the time has arrived when the people of Kansas should be enabled to make a final and binding decision upon the subject. The convention should consist of delegates elected by the people, who shall have the power to call a convention of the people to meet at some future time and to consider the constitution of the State. The convention should be composed of representatives from the several counties of the State, and it should have the power to act as a constituent assembly for the purpose of framing a constitution for the State. The convention should be convened as soon as possible, and it should have the power to act as a constituent assembly for the purpose of framing a constitution for the State.

SECRET BOARDING.

SOUTHERN SYSTEM OF LABOR.

It is evident that the labor system in the South is altogether different from that in the North. In the South, the slave is not considered as a free individual, but as the property of the master. In the North, the laborer is considered as a free individual, and is entitled to all the rights and privileges of citizenship. The South is characterized by a system of slavery, under which the laborer is reduced to the status of a slave, and is held in subjection by the power of the master. The North is characterized by a system of freedom, under which the laborer is considered as a free individual, and is entitled to all the rights and privileges of citizenship.

A GOOD CROP.

Our Friends F. J. H. has lately handed us a report of a good crop raised by Mr. M. P. of the Col. N. G. of Virginia. The report is not such as a language, but simply a list of the principal crops raised, with the quantity and quality of each. We have examined the report, and find that the crops are well raised, and that the quality is good. We have every reason to believe that the crops will be a good one, and that the report will be a valuable one.
