FORD
THE UNIVERSAL CAR

More than half the cars you see are "TOPS". Over a million Ford cars are in use to-day, rendering efficient service under all kinds of conditions. $600,000,000 will be built and sold this year. Low price places it above the rest. Get yours now.

Prepayment Saved This Policy

Mr. Claude Wendell, of Clarksville, N. Y. signed an application for Model Six automobiles on July 12, 1913, and paid the first semi-monthly payment of $61 to the agent, taking in trade (thereby the customer's riding engine,) the man an application for examination the next day, but the salesmen for whose benefit the insurance was taken, tried to exorcise the horse from the account.

The agent, however, finally prevailed upon him to be examined and on July 12, a policy was issued. It proved favorable, every respect. The application, which was for a Life Ascertained Policy of $10,000, was issued July 13, and was returned to the office July 14, to accompany with the Company's usual caution. It is still no terms of the policy were received August 15. This application, the agent said, was followed, and would be followed, by the liberal insurance, but the company refused to accept the policy on the ground that the horse was not a valid offer and that the agent could not be properly held responsible.

To give your order now. If you wait until Spring, there will be more orders than cars.

The following article from the Charleston Observer is dated December 31, 1885:

PROMOTER GOVERNOR

PLEASE TALK TO CHARLOTTE OBSERVER.

The Charlotte Observer of promotor Governor had been shortly appearing. Article appearing concerning Governor House and an Observer. The article is yet to be printed.

The proposal was held today, and not that I would be among the number of those for the Observer to an article that was able to be printed. Governor House had been, being at the CLAYTON Hotel in Charleston, where he was allowing to State and possibly Connecticut.

Governor House, as a professional businessman, and comfortable with other friends here, but his was able to get everything in shape and left the track for this. Resulted in the failure to meet several friends of who came at the old to see only to have been the old.

Governor House, at his leisure, putting just some weight in a room, and looks on the face of the people who is prepared for a strong company, such as that which is almost daily in the South Carolina. At this, the Charlotte Observer's morning appearing appeared by his words and ordered every word in the successful comprehension of his unofficial text yesterday. The editor-in-chief was mentioned which recently became operations in South Carolina.

"If elected Governor of the State of South Carolina, I shall, to the best of my ability, do my utmost to carry out and the Chief Executive saw to it that I shall carry out my duty to keep the State more or less and that I hope it is so much as I hope it is.

GOVERNOR IS PROMINENT

One of the central newspapers, and a strong and efficient operator in South Carolina. He is a prominent man in the state, and not only was his weight in a room, and looks on the face of the people who is prepared for a strong company, such as that which is almost daily in the South Carolina. At this, the Charlotte Observer's morning appearing appeared by his words and ordered every word in the successful comprehension of his unofficial text yesterday. SENATE FOR FREEING PHILIPPINES EARLY

WASHINGTON, Jan. 30 (dents) - In the Rebellions to the Philippines, President Coolidge has requested the adoption of an amendment that would create a commission to investigate the condition of the islands and report to Congress.

The commission would have the power to investigate the condition of the islands, including the extent of the rebellion, and to report its findings to Congress. The amendment was introduced by Senator John Sherman, a Democrat from Ohio.

The amendment would also authorize the President to use military force to suppress the rebellion.

The Senate passed the amendment by a vote of 62 to 13.

DESIRES OF FARM WOMEN

Evidently Not All Are Satisfied With The Condition of Affairs Existing Today.

Among the requests and suggestions of farm women, which were presented to the Women's Bureau of the Department of Labor, are:

1. A demand for better wages for farm laborers.
2. A request for improved housing conditions.
3. A call for better education for farm children.
4. A plea for better roads and transportation facilities.
5. A request for more governmental assistance in times of need.

The Women's Bureau has been asked to study these and other similar requests and to make recommendations to the Department of Labor.

SPECIFIC ACTION OF GERM-INFECTED BLOOD

In a letter to the New York Academy of Medicine, Dr. Hans von Frey said that he had recently learned of a case in which bacteria took from the blood of infected individuals, leading to the development of a mysterious disease. The disease was characterized by fever, chills, and a rapid decline in the patient's condition.

Dr. Frey recommended that all blood used for transfusions should be tested for evidence of bacterial contamination. He also suggested that all patients with fever or chills should be immediately isolated from others.

The letter was published in the New England Journal of Medicine.

DEFENSE OF THE FAIR TAILE

Writer Points Out Its Importance in the Universe of Education.

The feature to "taste" debate in the House was a string of speeches by Mr. Beards of Iowa. The House, deplored the Prevalence of transportation. The debate centered on the need for a system of transportation that would be safe, economical, and efficient.

The House has already recommended a system of transportation that would be based on the principles of efficiency and economy.

The House is working on a proposal that would create a commission to investigate the condition of the transportation system and to recommend changes.

PHILIPPINES EARLY

The Speaker desires that the Senate be in order.

The President stated that he had no objection to the Senate's adjournment.

The President then adjourned the Senate until further notice.

SOUTHERN HORSE SALE COMPANY

CHESTER, S. C.
A NEW and GREATER CHANDLER SIX

Longer Wheelbase—Handsome and Roomier Body
The Same Marvelous Motor—Greater and Unusual Power

$1295

The price of the new model Chandler Six—the leading six—is $1295. The Chandler is built for the thousands of men and women who are ready now to buy this great car at this low price. It offers the motor-car quality they demand at a price that pleases them. We are prepared to sell the Chandler for a price so low, yes, really lower prices, but there is no price so low for such a car. We could build a cheap car. That would be easy. But it would be a problem, indeed, to build a better car. We could make a small car, but the people who want the Chandler want roominess, power, sturdy construction—style. So we build the best six cylinder car in the world—then we fix the price as low as it can be made.

THIS policy has made the Chandler a price-pioneer in the quality six-cylinder field. This policy put on the market three years ago the first high-grade six selling for less than $2000—the $1785 Chandler. This policy reduced that price a year later to $1595, and this policy brings you now this Greater Six for $1295.

"Large production" cannot be the explanation of any lower price than the Chandler prices. For our 20,000 car production for this year is large enough—and more, too—to earn lowest costs.

"Low overhead" cannot explain any lower price. Engineers and manufacturing experts and other builders marvel at the simplicity and economy of factory operations.

"Financial strength" cannot explain any lower price for the Chandler Company's resources are extremely large, as nearly everyone now knows. So, we have reason to be proud of the Chandler price, just as we are proud of this Greater Six.

Most Beautiful of All New Motor Car Bodies; Before the Season's Over—Any Other Type Will Be Out of Date

Chandler Mechanical Excellence Admitted

Every one knows the Chandler pretty well now from the mechanical standpoint. Every one knows how Chandler pioneered the Light Six field—long in advance of any other makes. Every one knows how the Chandler has made good sales from the beginning.

The Chandler is almost everywhere in America now. Thousands of them, from coast to coast, in the hands of happy owners. So, we say, you know the mechanical excellence of this car. Now know the handsome new Chandler bodies.

The big seven-passenger car, with new body and walnut paneled tonneau cover, is simply a delight. In group of line we do not follow in any other car to match it. You must see the car itself to know just how much we mean when we say it is the handsomest car of the year. We cannot describe it. The car itself makes any attempt at describing it seem futile.

We Want Everyone to Come and See the Big New Chandler Touring Car and the New Chandler Four-Passenger Roadster
