BRITISH LABORITES FIGHT LOYALTY FIRST

WASHINGTON, Jan. 25—(Special) A bulk of the four laborites who make up the new British Labor Ministry were named today. Their influence will be felt in the House of Commons from the moment the new ministerial list is published. The four are Mr. Macdonald, Mr. Ramsay, Mr. Snowden, and Mr. Asquith. They are expected to carry the new government through its early stages.

Mr. Macdonald was criticized in unmeasurable terms for his recent policy of co-operating with the Coalition government. He was held to be guilty of treason and high treason. Mr. Ram- sy was accused of being a traitor to the British cause. Mr. Snowden was charged with having sold out the country to the enemy. Mr. Asquith was held to be a tool of foreign intrigue.

The four have been introduced into the Cabinet to give it a measure of stability and to enable the government to carry through the necessary reforms. They are expected to be active and vigorous in their work.

JOEY TAKES THE FIELD

Washington, Jan. 25—(Special) Joe O'Brien, the new chief of the British Labor Ministry, was introduced to the House of Commons today. He was received with enthusiasm and applause. He was asked to give his views on the current situation and to outline his program for the coming months.

Mr. O'Brien said that he had been surprised by the welcome he had received. He thanked everyone for their kindness and promised to work for the welfare of the workers. He said that the government would be guided by the principles of Socialism and that it would work for the elimination of poverty and misery.

The House was enthusiastic and promised to support Mr. O'Brien in his work.

NEW YORK HOSPITAL BLANKETED

New York, Jan. 25—(Special) A new blanket was presented to the New York Hospital. It was a gift of the British Laborites. The blanket was a symbol of the solidarity of the workers and the determination of the government to carry through the necessary reforms.

The blanket was hung in the main entrance of the hospital, and a dedication ceremony was held.

WHEN A FISH IS AN EVIL Ye.

Washington, Jan. 25—(Special) An interesting case of fish eating has come to light in the United States. A fisherman, who was fishing in the Atlantic Ocean, caught a large fish that was eating other fish. The fisherman was surprised and asked what kind of fish it was. The fisherman was told that it was a sort of fish that is known as a "fish eater." He was also told that it is a fish that is very common in the Atlantic Ocean.

The fisherman was amazed and asked what would happen to the fish that it was eating. He was told that the fish that it was eating would be killed and thrown back into the water. The fisherman was surprised and asked why it was necessary to kill the fish that the fish was eating. He was told that it was necessary to kill the fish in order to protect the other fish in the water.

The fisherman was amazed and asked what would happen to the fish that it was eating. He was told that the fish that it was eating would be killed and thrown back into the water. The fisherman was surprised and asked why it was necessary to kill the fish in order to protect the other fish in the water.

LETTER FROM MAYOR DAVISON ON NEW ORDINANCE.

Mayor, Semi-Weekly News:

There seems to be quite a good deal of complaints recently by the washerwomen of the town, adapted by our City Council of Health, and passed as an ordinance by our City Council, to go into effec

Friday, 1st Feb., 1922.

This ordinance was published in both our County papers and I cannot understand how any one of the health measures, as previously published, as ISOLATION, has not been followed. I cannot see why any citizen of Chester should continue to constitute a danger to the public health measures. It was passed purely and simply as an important health measure to: prevent the spread of infectious diseases. If the public is dirty, the present sanitary condition of the washerswomen cannot be improved by the health officers of our city. To the contrary, quite frequently in cases of exemptions being reported within the city limits.

The only real use of the washerswomen is in the requirement of wood. In front of wood, a man is unable to make any worth of the washerswomen. The washerswomen are as follows: professional, medical, professional a large number of wood will be found, and opened — under a measure for those who perform campus areas. The public is now in the public a new week in which to perform that which has been done since the city authorities, not at the expense of the small population. In order to accomplish this, the public must have and pay for the services of the washerwomen and get rid of the dirt. Why should there be a single complaint in a letter that is the view of the people? And if the people with the law, and to the contrary, quite frequently in cases of exemptions being reported within the city limits.

MRS. ADDIE E. PEACHS, St. Mary Adair Chapter, D. A. R., Chester, February 1st, 1922.

OF HISTORIC INTEREST

TOWN OF SOMERSET RESTING PLACE OF ROYALS

Among many Others, it Contains the Town of Washington-- Known as the cradle of Liberty.

Mentioned almost daily in the newspapers, the town of MARYLEBONE, has been the center of many important events. In the little town of MARYLEBONE, many of the articles of clothing made by the town's women are being sold in the market. This is a result of the town's location at the crossroads of the country.

Despite being the center of important military operations, MARYLEBONE is also known for its extensive clothing industry. Located between Vienne and Turin, the town is known for its high-quality clothing which is sold throughout Europe.

The town has been an Austrian post-war refugee center, and the present clothing industry has survived the war. In the context, a billboard is present in the town, which reads: "Marylebone clothing, the best in the world."

Below a small hill, the town, known as the "city of clothing," is surrounded by the city of MARYLEBONE, the city of MARYLEBONE, and the city of MARYLEBONE, with a view of the surrounding country visible.

RAILWAY

The Marylebone station,子弹 train from London, is known to be the hub of the town's transportation system.

The train is scheduled to depart from Marylebone station at 10:00 AM, arriving in MARYLEBONE at 11:00 AM, and continuing to MARYLEBONE at 12:00 PM.

San Francisco, 1916

On the eve of the great earthquake, San Francisco, 1916, was a bustling city on the edge of a great disaster. The city was to suffer the worst earthquake in its history, which caused widespread destruction and loss of life.

The city was divided into three main sections: the commercial center, the residential area, and the industrial zone. The commercial center was the most affected, with many businesses destroyed and the city's financial center in ruins.

The earthquake was felt across the entire city, and the shock waves were felt as far as 50 miles away. The city was left in ruins, with thousands of people left homeless and many dead.

Despite the destruction, the city began to rebuild, with many new businesses opening and the city's skyline slowly returning to its former glory.

REFLECTION ON THE PEOPLE

Sir William Osler states that the people of San Francisco, 1916, were not afraid and did not panic. Instead, they remained calm and collected, despite the disaster.

Osler notes that the people of San Francisco, 1916, showed great courage and resilience in the face of the disaster. The city was left in ruins, but the people continued to rebuild and recover.

SUNDAY SCHOOL

Lesson VI—First Quarter, Fee. 6, 1916.

THE INTERNATIONAL SERIES

Part of the Lesson, Acts 25, 24—26; Memory Verse, 15, 11—Galilee, 1. 8, 8. 1. 1—Dr. W. M. Walls.

THE PICTURE CHAPLAIN has an interesting story of the meeting which took place between Peter and John, being brought together by an unexpected visit. "He said, 'By what power or what name have you done this?'" quoted verse 8.

Although there may have been some doubts of the manner in which the heavens were created, the power of God was clearly demonstrated in the miracle of the earthquake.

Whether they had mort or little or none, they knew the power of God. They were not afraid of the gods whom they saw in their own light. And they did not believe in the enemies of the Messiah.

Peter and John were still with them when they were brought before the council to be tried. The council declared that they were innocent of the crime.

"By what power or what name have you done this?" was a question that Peter and John were asked.

The council was divided into two groups, one of which was led by the Roman Emperor, and the other by the Jewish leaders.

The Roman Emperor's group was led by the Roman Emperor, who was determined to have the Jews removed from the city.

The Jewish leaders, on the other hand, were determined to have the Jews remain in the city.

The council was divided, and the matter was referred to the higher authorities.

The matter was referred to the Emperor, who was the final authority in the case.

The Emperor was presented with the known facts and was asked to rule. He ruled in favor of the Jewish leaders, and the Jews were permitted to remain in the city.

The council was divided, and the matter was referred to the Emperor, who was the final authority in the case.

WAGON HAULS FOR FARM PRODUCTS

Great Benefits Accura to Farmers From Better Roads.

Wagon hauls for farm products should be an even greater factor in the economy of the country.

The adoption of the amendment has been made possible by the better roads that have been constructed since the amendment was adopted. The amendment permits counties to increase the length of the roads for farm wagon haulage, and this has resulted in a greater efficiency in the transportation of farm products.

NO SET RULES FOR MOURNING

Time for Wearing Ceremonial Gowns

The time for wearing ceremonial gowns is not fixed, and each case must be determined by the circumstances.

There are no set rules for mourning, and the time for wearing ceremonial gowns varies. The time for wearing ceremonial gowns is determined by the circumstances and the individual case.

HOW TO PLEASE

QUALITY THAT MAKES FOR POPULARITY IN SOCIETY.

The manner in which one pleases others is important, and this is determined by the quality that makes for popularity in society.

Fortunes Are Those Who Have the Right, True, Right Thing.

Fortunes are those who have the right, true, right thing. They are those who have the quality that makes for popularity in society. They are those who are pleasing to others and who are pleasing to themselves.
