COTTON MILL RETURNS

An Investigation by an Expert
of the Oldest Slave-Exploiting Firm

The following report made by the expert on the important
subject of slavery as practiced by the cotton mill was
submitted to the committee on the subject, and a
report by him was made to the House of Representatives.

DEAR SIR:

I respectfully call your attention to the fact that
the State of South Carolina, in her annual report, page 152,
makes the statement that "the average population of
property appertaining to manufacturing, including all
kinds of manufacturing, is $5,000,000." This is the
amount of property produced annually by the manufacturing
industry of the State. It is the amount of property expended
annually in the employment of human labor. It is the
amount of wealth created by the labor of the people of
the State. It is the amount of wealth which is available
for the support of the government, for the education of the
people, for the promotion of the arts and sciences, and for
the general welfare of the community. It is the amount of
wealth which is necessary to the maintenance of the
constituted authority of the State, and to the preservation of
the peace and order of the community.

The report of the expert, which is appended to this
letter, is a careful and exhaustive investigation of the
subject of slavery as practiced by the cotton mill. It is
the result of a long and careful examination of the
records of the mill, and of a careful comparison of the
facts and figures which are contained in the records
with the facts and figures which are contained in the
reports of the mill. The report of the expert is
entitled to the highest credit for accuracy and
completeness. It is a valuable contribution to the
knowledge of the subject of slavery as practiced by
the cotton mill.

Respectfully,

DAVID H. WISB.
The Legislature.

The Anderson Independent, upon the authority of the Columbia Register says: "There has been no reported incident of jockeying for positions in the future" by members of the general assembly. The public will very readily believe it. If "jockeying" that prevents the redistricting of the state, leaves its slimy trail over a great deal more the legislation than Greenville.

The front of A. B. Allen's furniture store is very attractively decorated with bright lights. We have noticed a tall boy near the door that he was in a cheerful and happy mood. He appeared better. It was stated that he had not been seen since he last appeared.
