We do not know what are the proceedings of the bill passed by the state legislature. We wish to express our views on the subject, but we must admit that the bill has not been presented for our examination.

A bill before the South Carolina legislature, introduced by Mr. C. D. R. Fair, was reported by the Committee on Education. The bill provides for the establishment of a Board of Education, to consist of seven members, appointed by the state legislature, for the purpose of regulating the school system of the state. The bill was referred to the Committee on Education, and the report was not published.

We will not discuss the bill now. The Committee on Education has not been able to come to a decision on the matter, and it is therefore impossible to say whether the bill will be passed or not.

We regret that we are unable to say whether the bill will be passed or not. The Committee on Education has not been able to come to a decision on the matter, and it is therefore impossible to say whether the bill will be passed or not.
