TUESDAY, AUGUST 15.

THE SUN IS SHINING.

In the present hot weather, the prospects are unusually good for the corn crop in the southern parts of the State. The sun is shining and the weather is very warm, and the corn is growing rapidly. The corn is of good quality and the farmers are satisfied with the crop so far.

In the city, the heat is oppressive and the streets are crowded with people seeking relief from the heat. The city officials are working overtime to keep the streets clean and the water supply up to par.

The weather is expected to remain hot and sunny for the next few days, with a slight chance of showers in the afternoon.

On The Business of Banking

The business of banking is one of the most important business enterprises in the world. Its success depends on the ability of the banker to understand and meet the needs of the people who use his services. The banker must be able to analyze the financial situation of his customers and make sound credit decisions. He must also be able to identify and evaluate the risks associated with different types of lending.

UN INSURED

This Case is Selected From The Company's Recent Rejected Applications.

Married man 47. Wife and children beneficiaries. Has no insurance. Declined on account of rapid pulse and high blood pressure. Two years ago he felt a pain in the chest which he thought was heart trouble. He consulted a physician who advised him to have his blood pressure taken. It was found to be 160/100. The physician advised him to take medication and to avoid stressful situations. He has been taking medication ever since.
