To Exempt York
Washington Star

Although it is not impossible that trouble may arise out of a matter of present interest and of record, the circumstances under which the bill was passed were such that the People of Colorado do not want the dispensary. The People of York were satisfied with the work of the dispensary and with the price paid for the dispensary in two days.

Unrecognized Benefactors

Looking at it from one point of view, there are two classes of lawmakers. One is the kind of fellow who takes no chances. He is willing to pay any price for the license, and he will not pay the price if the license is not forthcoming. The other class is the kind of fellow who does not want to pay the price for the license. He is willing to pay the price if he believes that the license is forthcoming, and he will not pay the price if he believes that the license is not forthcoming. This was just the situation in York.

The enemies of the dispensary were a small group of the people who were opposed to the sale of liquor.

The Georgia delegation in Congress led by all the delegation from the southern states, is raising a Hubbard over the nomination of Mr. McCullough to the office of Collector of Customs at Savannah, Ga.

The Georgia delegation has consistently protested the appointment of Mr. McCullough, who is a prominent white merchant in Savannah.

The Senate committee on Naval Appropriations has approved a bill to make the laws of the District of Columbia applicable to the armor-making plant in Wisconsin.

The following is from the News and Courier of York:

"The Senate committee on Naval Appropriations has approved a bill to make the laws of the District of Columbia applicable to the armor-making plant in Wisconsin. The bill was passed to its third reading by a vote of 65 to 15. The bill was then sent to the House for the dispension in two days.

Winter Protection of the Peaches

One of the chief Puerto Rican towns is under the threat of failure with peachers in the vicinity of the town. The owners of the peachers are not willing to pay any price for the license, and they will not pay the price if the license is not forthcoming. This was just the situation in the Puerto Rican town.
A Brief Sketch.

THE LANTERN, TUESDAY, FEBRUARY 15, 1869.

A Pleasure Trip.

Our trip to the country last week was very pleasant. The weather was fine where Mr. Pickens was in the valley and spring-like. Our first stop was at the home of Mr. James Shannon, who occupies a comfortable cottage in the vicinity of Blackstock. He was highly enjoyed by all. We made a short visit to Misses Mattie and Beatrice Simmons, who has been visiting her sister, Mrs. J. R. McCollum, has returned home.

At Blackstock we made a stop with Mr. J. A. Holder, of our town, and we have begun plowing and the sound of the machinery "thumps" and "goes" makes us think that spring is near. If the above dots are worth printing I will write again.
