CHILDREN ON PROHIBITION

The Author of the Prohibition Measure Makes a Strong Argument in Its Favor.

The debate on prohibition in the legislature yesterday excited a great deal of attention, and the surprising amount of enthusiasm which the measure has elicited was commented on quite freely. Mr. Chisholm, the bill's author, made an extended and eloquent speech in favor of it, and his remarks were reported in the newspapers.

Mr. L. D. Chisholm called up his prohibition bill. He said he believed that the movement was a success, and that it was not fighting the governing party.

The question was asked why he had not made a speech in its favor. He answered that he had not made a speech in favor of it.

The bill was then referred to the House of Representatives.

A separate coach bill has at last become a law. This will relieve travelers of some annoyance, but we think the wisdom of the law, upon the whole.

That whisky sample affair, involving members of the legislature, is at an end. What the investigation would have amounted to, had the committee been equipped with power to secure evidence, we cannot guess; as it was, it was a farce. We were never members who desired a thorough examination. As for the favored samplers, they yielded to the investigation and agreed to have the investigation, such as it was to be, winked at by the deliberating body. Others and others did, "Don't tell you don't have it.""
