I am bringing out another new magazine that you will come pretty close to liking. I wouldn't be surprised if you didn't like anything in this shape of a magazine you have ever seen. There isn't much style to it, but it has the stuff in it that you and everybody else will want to read. It is called

A New Magazine for You

**Something New in Magazine Making**

**Nothing Like It in the World**

**The Scrap Book**

**The Scrap Book is the most exciting thing that ever happened in the way of a new magazine.**

We have thought of many kinds and shapes of things, but none of them have been near to this. We are trying to put a new thing into it, something that has never been done before. We are trying to make it different from anything else around. We are not trying to compete with anything else, but to stand alone and be something new.

**Nothing Like It**

A Scrap Book is a book that contains all kinds of things. It is a book of paper. It is filled with everything you can think of. It contains everything that has been printed or written or done. It contains all the interesting things that have happened in the world. It contains the names and stories of all the famous people. It contains the greatest works of art. It contains all the important events in history. It contains all the beautiful things in nature. It contains everything that is worth while. It contains everything that is interesting.
