**THE SUMMER SESSION**

The Johnsonian of this week is developing considerable space to news of the summer session at Winthrop College. This is done in recognition of the importance of the summer session and in view of the fact that such wide interest attaches to the announcements contained in the Summer School Bulletin just out of the press.

President Johnson spares no expense to make the summer school program just as interesting and excitng and the faculty of the very highest grade. During the weeks of the summer session something like 1,000 regular and professional students will be gathered at Winthrop purposing to fill the summer school during vacation time. Many of the regular faculty have been engaged for the summer school only because of their studies in this and other states. A distinctive feature of the summer session is always the lecturers who are brought to speak before the daily convocation of students. These lecturers bring with them a high degree of equipment in their respective fields and their lectures are sources of new inspiration and power to their hearers. Another feature of interest throughout the state is the short course for club women. This lasts for two weeks and during this time students represent all leading organizations and the women's clubs of the states are given a serious study and reflection in the matter covered.

While the summer school is primarily for teachers, in service, there are opportunities also for regular students of the college who wish to pursue their studies through the summer term. Practically every department of the college who wish to pursue their studies through the summer term.

**BETS OF WINTRITIE LIFE**

Since the 23rd of May, when a great fire burned over half the city of Winthrop, life has been much altered. There is nothing better than a box of Whitman's. The Sampler is a favorite with all. Perhaps you're wondering what all this has to do with Winthrop Life, but I'm a bit of a Whittmaniac and this feature reminds me of the 23rd Psalm.

Perhaps you're wondering what all this has to do with Winthrop Life, but I'm a bit of a Whittmaniac and this feature reminds me of the 23rd Psalm. Sometimes when I am tired and rest in a very good hotel I like to look up and let my eyes fall on a certain Whittmaniac whose face is so peaceful it reminds me of the 23rd Psalm.
