NEW FRENCH METHOD OF MEETING ATTACKS

JAPAN THREATENS IN EAST ASIA
TOKIO, Japan, Jan. 31 - The fact that Japan, through the United States Government, has threatened for the first time to make war on Germany, with a vista of further action toward the British possessions in the Orient, is a development of great consequence. The Japanese have been following the war with great interest, and have not been slow to take advantage of the situation to strengthen their own position. They have made it clear that they are prepared to use their influence in the Orient, and that they are prepared to do so in order to secure their own interests.

SAYS ROMANIA WILL STRIKE TO CHOPPERS

NAPLES, Italy, Feb. 27 - Addressing the Congress of Rome, the Italian Premier, Dr. Giovanni Giolitti, said that Italy would not be a mere spectator in the war, but would be a participant in it. He said that Italy would not be satisfied with merely maintaining its neutrality, but would be prepared to take part in the war on the side of the Allies.

SAVING AMERICAN FISH

WASHINGTON, D.C., Feb. 26 - The American Fish Commission has been informed by the British Government that the United States is not making use of its share of the fish taken in the North Sea. The British Government has offered to take over the work of the American Fish Commission, and to make use of the fish taken in the North Sea.

FRIENDS OF CHINA

BEIJING, China, Feb. 25 - The Friends of China, a society formed to promote the welfare of the Chinese people, has been formed. The society is composed of Chinese and foreign friends of China, and is working for the welfare of the Chinese people.

FIRE ARE BURNING TO DEATH OF JAPANESE FAMILIES

JAPAN, Feb. 25 - Four Japane families were burned to death in their homes. The families were members of the Japanese labor union, and had been working in a factory. The factory had been closed, and the families had been unemployed. The families had been living in the factory, and had been working in the factory.

A Penny Saved Is a Penny Gained

The wise housewife saves many a penny reading the newspapers. If there is a bargain advertised she'll not miss it. She certainly is looking for it.

It is up to the merchant. Keep the housewife posted. Let her know through the newspaper what you have to offer. Incidentally men today ransack the newspapers for bargains as assiduously as do women.

If you want to sell your wares advertise. Advertise in the best medium, the newspaper. Also if you want to buy successfully, read the advertisements.

The Semi-Weekly News
Yesterday, Mr. Carter, a limestone dealer at Chester, S. C., said he had received a good supply of limestone for the current year, and that he expected to make a good profit on the sale of it. He said that the limestone business was very good this year, and that he had sold a large amount of it already. Mr. Carter also said that he expected to have a good supply of limestone for the remainder of the year, and that he would continue to sell it at a good profit. Mr. Carter is a well-known limestone dealer in the area, and is respected for his business acumen and integrity. He has been in the limestone business for many years, and is well known for his high-quality product and excellent service. Mr. Carter's business is one of the leading limestone dealers in the area, and is highly regarded for its reliability and quality.
THE LABOR SAVING KITCHEN FLOOR
Cover your kitchen floor with Armstrong's Linoleum. It lightens the labor of housework, is sanitary, bright, cheerful and attractive. Armstrong's Linoleum costs less because it lasts longer.

**HARRISBURG HAS A COPY OF PENNY'S CHARTER.**

Correspondent—You and we are being heard for the Abolition of the Practice of the ancient, baneful, and unhealthy—what shall I call it? original chartor which covered as a gift to William Penn from the lands which three lives have been known as the Province of Pennsylvania. The city of Philadelphia has an exhibition of the city of Philadelphia, along with other relics of the Quaker found- ers whose state was organized on the extinct of the third state in the Union. The investigations de- mote that what is shown is not the original charter, but merely a copy of a document known as the Pennsylvania charter. The copy is in the hands of Galiley, and many papers have been discovered by the state in connection with the records of the early years for the land which now constitutes Pennsylvania. There is a copy of the charter in the Library of Congress.

**SOOTING'S PIERCING PAIN.**

To kill the same guinea of Britons you can depend on to kill the same disease of the present and future. If you will turn to the present and future, it will relieve the pain and fever of the present and future, it will kill the same disease of the present and future.

We Cannot Describe the Beauty of the New and Greater Chandler

If you have seen the new Chandler touring car you understand why we do not attempt to describe it. If you have not seen it come in today and get a new idea of motor car beauty.

This new touring car is the most beautiful car of the year. There can hardly be any argument as to that. Someone having reason to be biased might dispute that, but you are prejudiced— you look with open mind for grace of line and beauty of finish—and you will agree with what countless thousands in automobile shows have said very positively. They have said the Chandler is the most beautiful car of the year. So come in and see it.

The walnut paneled tuna cow hide has pleased the public everywhere. It will please you. It gives the car a very unusual air of complete finish. It reflects, too, the thought which the Chandler Company gives to details throughout the car, inside and outside.

And remember this, any type of touring body other than the Chandler tonneau-coach type will be out-fashioned and out of date before the season is over. The old style design, with the basic feature of the front seat projecting abruptly above the body, looks old even now.

Come see the Chandler. You will be delighted with the style of the car and you know now that you can depend on it mechanically—depend on it for all the power, speed, flexible control and day-in-and-day-out service that you could ask for in a car at any price.

For the Chandler chassis, distinguished by the Marvelous Chandler Motor, has been proven solid through three years of service in the hands of thousands of owners. It is free from any hint of experimentation, free from any hint of untried theory.

In spite of higher prices of all materials entering into its construction, the Chandler is still noted for high quality construction throughout and the finest equipment.

ANIMAL TO BE LEFT ALONE

Peculiar Nature, G. Amos Bollay, at

Perhaps you will come to the con-

recognition that this animal is more in-

ferior than originally supposed. All of its

enemies are its friends, and all of its

friends are the enemies of its enemies. It

was occasioned by the discovery that it

may be killed by heat, and that the char-

acter of its properties may be altered by

heating it. The discovery was made in

the course of a few experiments, and it

is now in progress to investigate the

effects of heating on its various pro-

perties. It is learned that the char-

acter of its properties may be altered by

heating it, and that the changes are

reversible. The discovery is of great

importance, as it offers a new ap-

proach to the solution of the prob-

lem of the nature of the animal.

WHEN THE AMATEURS APPEAR

Another Good Story Added to the

Many of the most curious phenomena in

the life of the ant are to be found in its

habits. The ant is a social insect, and

its members live in colonies. The col-

nies are often very large, containing

thousands of individuals. The ants

are highly intelligent, and they

are able to perform a variety of

tasks, such as hunting, building,

and caring for their young.

QUITE UING THE HEROES

When and good old Dr. Newe, re-

ponsible for the safety of the public

in the city of New York, died, a

memorial service was held in his

honor. The service was attended

by many friends and admirers

of the late doctor. The service

was held in the city hall, and

the space was filled with a

large crowd of people.

Nikon Has Tasted

Well-packled Ame of Can Tell Truth, and

Get on a Fishing. Also Its

Very talented in the animal. He

can climb trees like a monkey, eat

anything he wants, and never

becomes old. He is also

known for his intelligence.

MADE BY HIS ENVIRONMENT
