Richard Carroll

Richard Carroll had a splendid audience last night, and his speech was worthy of the occasion. He was entirely at ease in the meeting with his black and his advice was good. If it had been more sustained than was the case, it would have been more effective, but it was well done. The audience was a good one, and the speech was much appreciated.

The purchase of many cities has been furnished with a description of the telephone service, and every effort will be made to capture the market. It is known that some of the city officials are watching the telephone service with interest, and the probability is that the expansion of the Company's service will continue.

The construction of the telephone line of the Southern Power Company through northern York has practically reached completion. The telephone service will now be coming in close proximity to the power lines. The only remedy to the situation is for the Telephone Board to furnish a description of the telephone service. The cost of the telephone service is estimated at $2,000 per year.

The construction of the line was made at the request of the Telephone Board and the Southern Power Company.
