For the past week Winthrop has had the privilege of having a man who has achieved fame to the State and world into a true and deeper understanding of the meaning of education. This man is Dr. Bruce Curry, professor of history at the White Bibliogical Seminary, of New York.

When it was learned that Dr. Curry was to be in town, a study was made of the work in New York to get out for a year to trace the history of the colleges of the United States. Winthrop had hoped to get a desire to trace the history of the colleges of the United States. Winthrop had hoped to get a

PROFESSOR HARRISON WRITES

"C. G. Tells of His Work and Ex- changes at Harvard."

The following appreciation of the following letter from our dear and honored professor, Mr. T. G. C. Harrison, now stationed at Harvard, is in full for the interest it will be the cause of. Mr. Harrison, it is to be observed, is a first-rate Winthrop colleague; Mr. Haddon (distinguished as T. G. C. very properly, and also new arrivals) has now head of School of Landscape Architecture and Architecture.

To My Young Friend,

From my long silence you might imagine that I have been too busy to write or that I have not a thing to say. I assure you that neither of these is the case. I am only too eager to have you hear from me again and I hope that you will not be disappointed. I have just finished my examination and I have the pleasure of telling you that I passed with flying colors.

But at some future date I shall have the pleasure of writing you again.

Sincerely yours,

Winthrop College.
