Already, Kluttz' gorgeous collection of Ladies' Ready-to-Wear Hats have arrived. It would take the pen of Poe and the crayons of Chirico to describe and picture them adequately to you. The prices are far less than the millinery establishments that say "exclusives" as a cover for their high prices. Kluttz' hats are trimmed by first-rate New York milliners, and are right up to the snuff in style. Kluttz spends very little money and trouble on "Show" hats. This is a very practical store and wares no money on empty compliments. Kluttz has annexed the milliners' shops of New York for the best and most beautiful hats for the smart Chester women. At any rate here are a few thousand dollars worth of hats—these figures may astonish you, but they are exact—by which you may judge us. It cannot be merely the low prices which are giving us our present astonishing volume of millinery sales. And another thing, Kluttz' regular sale is still on, with new shipments of millinery coming every day. We are receiving every day shipments of all new Spring Goods and our store hat
