CAVAL LETTER.

Mr. Editor—With your permission, I want to refer to a man who built very many lines of bare rock. I was there not long ago and it was reported that the road was the same as this one, but I am not sure.

We had a lovely time of it at last, the first and only time we had a chance to travel on the land. I am sure you must have enjoyed it all.

Yours truly,

SPLASH LETTER.

Mr. Editor—The event was not a single one, but began to form as a part of our daily routine. It was not a small affair, but a large one.

The event was the result of a widespread and growing interest in the subject. It was the result of an effort to bring the subject to the attention of the public.

The event was not a single one, but the result of a widespread and growing interest in the subject. It was the result of an effort to bring the subject to the attention of the public.

FARMERS' BONE

"Imitation is the Sincere Flattery"

The unprecedented popularity of Brown's FARMERS' BONE fertilizer has induced some of our competitors to advertise Fish Guano, claiming it to be the same. We have a good reason to believe that the original Fish Guano and, to prevent being imposed upon, buyers should be sure that our trade-mark is on every bag. This is the only guarantee that you are getting the genuine Farmers' Bone.
