CALLS ON PRESIDENT: THE SOUTH AMID BREAD CLUB

The following pages will be an effort to show the views of the President in regard to particular questions and the principles that have been entertained by the President and the views of the President in some other matters which have come up during the presidency. It is expected that the President will make a number of speeches in the next few weeks, and we hope that he will be able to give them in a way that will be appreciated by the people.

PRODUCTION, CO-OPERATION AND MARKETS

We are told that the President is going to make a trip to Europe in the near future, and that he will visit a number of countries. It is to be expected that he will learn a good deal about the conditions in Europe and the way in which the countries have organized their industries. The President will have the opportunity to study the methods of production and co-operation, and to see how the countries have carried out their plans.

The President will have the opportunity to study the methods of production and co-operation, and to see how the countries have carried out their plans.

Fruit情况

Fruit production is a very important factor in the economy of the United States. It is estimated that the value of the fruit produced in the United States is about $5 billion per year. The President will have the opportunity to study the methods of fruit production and to see how the countries have carried out their plans.

RUSSIANS IN PERIL

The President will have the opportunity to study the methods of defence and co-operation, and to see how the countries have carried out their plans.

THE AUTOMOBILE

The automobile is a very important factor in the economy of the United States. It is estimated that the value of the automobiles produced in the United States is about $10 billion per year. The President will have the opportunity to study the methods of production and co-operation, and to see how the countries have carried out their plans.

THE SOUTH

The President will have the opportunity to study the methods of production and co-operation, and to see how the countries have carried out their plans.
