THE MAINE.

WASHINGTON, March 29—The following is the full text of the report of the court of inquiry into the loss of the Maine:

The Maine, a battleship of the United States Navy, was lost in the harbor of Havana, Cuba, on the 10th day of January, 1898. The court was established in accordance with prescribed instructions, and convened in the city of Washington, District of Columbia, on the 14th day of April, 1898, for the purpose of inquiring into the circumstances attending the loss of the said ship.

The report of the court of inquiry is as follows:

The Maine, a battleship of the United States Navy, was lost in the harbor of Havana, Cuba, on the 10th day of January, 1898. The court was established in accordance with prescribed instructions, and convened in the city of Washington, District of Columbia, on the 14th day of April, 1898, for the purpose of inquiring into the circumstances attending the loss of the said ship.

In the opinion of the court, the conclusion that the loss of the Maine was caused by an explosion of a mine situated in the after part of the ship, is clearly warranted. The court, therefore, finds that the loss of the Maine, the occasion named, was occasioned by an explosion of a mine situated in the after part of the ship, and that the officers and members of the court have to the best of their knowledge and belief, in the opinion of the court, that the loss of the Maine was caused by an explosion of a mine situated in the after part of the ship, which caused the partial explosion of two mines, and which resulted in the destruction of the said ship. The court, therefore, finds that the loss of the Maine was caused by an explosion of a mine situated in the after part of the ship, and that the officers and members of the court have to the best of their knowledge and belief, in the opinion of the court, that the loss of the Maine was caused by an explosion of a mine situated in the after part of the ship, which caused the partial explosion of two mines, and which resulted in the destruction of the said ship.
The president of the Senate should appoint a committee consisting of Senator Morgan to whip Spain and report next week.—Greenville Argus.

The Sure La Gople Core.

There is no use suffering from anything; you have a right to a good time. When you sleep in the bed of your life, you have a right to a good time. The sheets are in order and ready. You have a right to a good time. The bed is made and waiting. You have a right to a good time. The world is yours, and you have a right to a good time. The world is yours, and you have a right to a good time.

SANITARY PLUMBING.

MELTON & HARDIN.

We are prepared to do all kinds of plumbing and hot water fitting, and we are here to do the work right. We have a good job in building, and we are here to do the work right. We have a good job in building, and we are here to do the work right.

DISTRICTS.

All work done to order and satisfactory. We are the only ones in the business. We have a good job in building, and we are here to do the work right. We have a good job in building, and we are here to do the work right.

Try Fischel's Fancy Groceries.

Have you a Girl?

Ball with Fischel's.

Have you a Boy?

Dance into Fischel's.

McCallough for Governor.

News and Comment. Mr. Joseph H. Staunton is likely to be the "coming man" among the Prohibitionists. It has been his business to drive them into legistature. He has taken it granted that Mr. L. D. Childs is the logical care, and devoted to having the law enforced, but he would get the nomination if he would accept it. Mr. Childs has low and inflexible views which his friends cannot persuade him of.

It is a fact that the Publicans are now making a desperate effort, and exhibiting their best colors to get in their hands, his brother to put the opposition of some of their friends in the field, and by that means to make his brother a candidate for the legislature. This effort has met with a check, and Mr. Childs is now in Philadelphia, under treatment for a nervous complaint which will not be again his strength in the campaign.

In case Mr. Childs' health does not permit entering the canvass, it is probable the same will be entered by the Publicans. It is expected that the nomination will almost certainly fall to Mr. Joseph A. McCollough.

Making Prohibitionists.

It seems that the Prohibitionists intend to put a full State ticket in the canvass. This will be an attempt to drive them into politics, and make a political primary. Ordinarily such a thing would have the effect of driving the "Waverly" party into the background, but a strong and zealous State board can control this party, and they will put up a strong man, and keep the publicans out of office.

The State board is very anxious to have a good man for the office, and they are anxious to see the party in control of the State board. They will do all in their power to make the party successful, and they will do all in their power to make the party successful.

As the times are hard, and the people are hard to please, they are anxious to have a man who will do the people's work, and who will make the people happy.
