ATTEMPTED AIR RAID REPLIED BY BRITISH

A nant admitted ia reply that certain torii were on the coast on the night of March 27. But the new officers that actuated him declared that the public interest was being sacrificed to an illegal and unwarranted prosecution of the enemy. The War Office, it was said, had been directed to investigate and report. There were three casualties to the Germans. The War Office, it was said, had been directed to investigate and report on the origin of the attack.

GERMAN RADICALS BACK SABOTAGE POLICY

After much discussion of the subject in the Prussian Diet on the day through questions put to Harold Henderson, the Under Secretary for War, in the House of Commons, and in the Prussian Diet, the German Government said that the public interest was being sacrificed to the prosecution of the enemy. The War Office, it was said, had been directed to investigate and report on the origin of the attack.

WILSON HAS FREE XANE

Attention was also called to the matter by several members of the House of Commons, and in the Prussian Diet, the German Government said that the public interest was being sacrificed to the prosecution of the enemy. The War Office, it was said, had been directed to investigate and report on the origin of the attack.

INCENDIARY SHELLS SET VERDON ABLAZE

With the French Army near Verdun, March 28, 1916. Black smoke billowed upward over the battlefields, and a dense, acrid gas descended upon the ranks of the Allied troops. The French Ambulance Corps, who had been ordered to evacuate the wounded, were themselves attacked by the enemy's heavy artillery. The French Army was forced to withdraw, and the French soldiers were left to die in the lines. The French Ambulance Corps was driven back, and the French soldiers were left to die in the lines.
**Wood's Productive Seed Corns.**

For Our Readers

BEATING THE TRICKS OF RAIN

One of the most common tricks of the season is the way rainwater can penetrate basements and cause damage. To avoid this, it is important to keep gutters clean and ensure proper drainage. Here are some tips to prevent basement flooding:

1. Regularly clean gutters to prevent blockages.
2. Ensure that downspouts are directed away from the foundation.
3. Install a basement drain system to divert water away from the building.
4. Check for cracks in the foundation and repair them to prevent water infiltration.

By following these simple steps, you can protect your home from the damaging effects of rainwater and ensure a dry and comfortable living environment.
