PREPARING THE WAY

We wish to announce the installation of a new Linotype Model 14. The Linotype Company has been making rapid strides forward lately in improving the Linotype and this Model 14 is the "Last Word" in Linotype construction.

The Publishers of News, realizing the wonderful possibilities of this machine and being ever mindful of any improvement we could make for our readers and advertisers, have brought to Chester the second machine of this type to be installed in South Carolina.

This Model 14 is a machine of the Multiple Magazine type—three columns and is of 20 point type. The machine has been improved by adding more of the features that have made our newspapers so popular.

The machine is designed to meet the demands of the present day, and the work it performs is of the highest quality. The Linotype operators are well trained and skilled in the use of this machine, and they are always ready to assist in any way to improve the service of our newspapers.

We wish to express our appreciation to the Linotype Company for their cooperation in this matter, and we are confident that our readers and advertisers will also be pleased with the improved service that this new machine will bring.

CARNIVAL HERE NEXT WEEK

The Semi-Weekly News

The Semi-Weekly News is published every Saturday and Wednesday in Chester, S. C. The paper is printed on high-grade paper and is bound in a hard cover. The circulation is 2,000 copies. The newspaper is read by people of all ages and backgrounds. The semi-weekly format allows for more in-depth articles and features that are not possible in a daily newspaper. The paper covers local news, sports, entertainment, and other topics of interest to the community. The Semi-Weekly News is an important part of the community and is a source of information and entertainment for its readers.

"THE MARVELOUS MOTOR" The Name Still Holds

WHEN the Chandler pioneered the light-six field and changed the trend of the whole motor car industry three years ago, enthusiastic Chandler owners named the Chandler Motor "The Marvelous Motor." It was the marvel. Now, it still is the marvelous motor, —more marvelous now than then. In every fundamental way it is the same motor, though more powerful and more flexible, and three years have served to refine it wherever refinement was possible.

In the midst of extravagant claims for new theories and untried ideas, the Chandler motor stands free from any hint of experimentation. From coast to coast men KNOW what this motor does, —more marvelous now than then. In every fundamental way it is the same motor, though more powerful and more flexible, and three years have served to refine it wherever refinement was possible.

LODGE AND PERSONAL

ONE OF THE most urgent needs of these lands that have seen their day is the attention of a place of worship. Their city church and synagogue have long been deserted.

The Association of Religious Communities, interested in the welfare of these lands, has been established. Mr. H. S. Adams has been appointed to take charge of the work.

FOR SPRING—Two German tramps are being held in the city on charges of theft. They are charged with having entered a house and stolen a number of articles, including furniture and clothing.

"SATISFACTION MUST FOLLOW"

YOU ARE BETTER OFF THAN THE FARMER
There was a time when everybody said: "The farmer is a
lucky man; his crop grows while he sleeps."

But the farmer today has no advantage over you. In the
old days, when crops all the lights in the world were
turned out, and as you turned the key in your door business
stopped—your store was a dead one until daylight.

Now, with electric lighting in your windows and in the
door in every house, the World's Motor Record.

Instant delivery on orders.
