SCREEN TIME!
KEEP THE FLIES OUT!
Screen, Kill and Starve 'Em
When we dwell.on the great war in Europe words fail us. Yet statistics show that disease transmitted by the fly kills more than the armies.
To eliminate the house fly effectively you must eliminate it early in the season.

Get Your Screens Ready
We will send a man around to take measurements and make you an estimate—either on your old screens or putting in new work. We can do this any time; but NOW, while you think of it have this attended to and you can order the work done later.

Bar The Fly From The House
Eliminate them early in the season, before they multiply to too great an extent, and in July and August you won't be annoyed with them.

Get Your Screens Ready Now
We make a specialty of this class of work and can take measurements, make estimates, and book your order. Then the work can be completed when you are ready for it.
