Screen Time
KEEP THE FLIES OUT!

Screen, Kill and Starve 'Em

When we dwell .on the great war in Europe words fail us. Yet statistics show that disease transmitted by the fly kills more than the armies.

To eliminate the house fly effectively you must eliminate it early in the season.

Get Your Screens Ready

We will send a man around to take measurements and make you an estimate—either on repairing your old screens or putting in new work. We can do this any time; but NOW, while you think of it have this attended to and you can order the work done later.

Bar. The Fly From The House

Eliminate them early in the season, before they multiply to too great an extent, and in July and August you won't be annoyed with them.

Get Your Screens Ready Now

We make a specialty of this class of work and can take measurements, make estimates, and book your order. Then the work can be completed when you are ready for it.

**ISSUES FOR VOLUNTEERS**

Washington, April 8th—President Wilson issued the following address to the men of the United States:

“Mr. President: We shall not look upon the coming of Easter with a mechanical eye, but rather with one which is full of hope for the future. Let us be humble, but let us also be strong in faith and trust. Let us remember that the cause of our country is not alone in its own hands; it is also in the hands of those who stand by us in times of need. Let us pray that God will grant us the strength to face the trials that lie ahead and to triumph over them in His name.”
