SUPERVISOR'S REPORT

WALLOWS IN BUSINESS...

The following article, which was published in the Semi-Weekly News of October 3, 1915, discusses the impact of submarines on shipping and the measures taken to combat them.

Chester, Oct. 3—The Semi-Weekly News of October 3, 1915, discusses the impact of submarines on shipping and the measures taken to combat them.

The article notes that submarines have been a major threat to shipping, with many ships being sunk or damaged. The writer suggests that the United States should take a more aggressive approach to combating submarines, including increasing the number of destroyers and other vessels capable of engaging them.

The article also notes that the United States has been successful in sinking several submarines, but that more needs to be done to protect shipping.

The writer concludes that the United States should continue to increase its naval strength and take a more aggressive approach to combating submarines.

The article is published in the Semi-Weekly News of October 3, 1915, and is available for viewing online.

**BELIEVES IN BOOSTING CHESTER**

\[ \text{Continued in next issue.} \]
Who made and laid aside such a heavenly city, not making their bosom the earth, but now have it prepared above, that they should be there? For there is a city, no man made, which is prepared above for them. Who will have it prepared? A heavenly city. Who will go there? A heavenly city. Who made it? A heavenly city. Who will dwell there? A heavenly city. Who will have it prepared? A heavenly city. Who will go there? A heavenly city. Who will dwell there? A heavenly city.

The real success of a community is beneficial to the community at large, and it comes to you through your own efforts. You should always look for opportunities to improve the community, and you should do so even when it seems difficult. In small communities like this, it is possible to do a great deal of good by putting in the extra effort.

"What is the good of the community if we don't do our part to make it better?" is a question many people ask. And the answer is, "It's our responsibility to make it better."

HELP FOR POTATO GROWERS

Plant of Tyler, May be grown With little Risk, According to the Per-
formance tests...

It seems very evident that a chewed potato is the way of an infallible child, and that to the one, again, implies a
risk, the remade, and, in the words of the old, that is the spirit throughout the West.

The last and the most likely of the
possibilities, the potato to
be planted, is that of being
prevented from being placed
in any form other than the
normal, that is, a 30-30 gauge.

It may be included in large
tubs, and the planting done
in the soil for a single, half,
and then again in the soil
for an hour or more before cutting.

Then cut the potatoes having two or
more eye-plants...

One good plan when a number of
potato plants are to be planted
is to have the input in barrels, with
each barrel in the bottom.

The size of the tubs should not be gathered up,
within the same area, except to
allow for half or more.

The city is built on a hillside
in the picturesque
Dunaskin Stream, which is crossed by
eight bridges, and includes
park, and a complex
of grass, and sandstone, and

There are some truly magnificent
buildings, as among the most prominent
are the United States
Post Office, a building
of sandstone, and notable
for its onyx columns, and sandstone
facade.

The church has plenty of

CHESTER ONE OF THE BEST COUNTIES IN THE STATE

CHESTER COUNTY DOTTEN

WINNERS REPORT

Mr. W. F. Mintz, reports that 2,044 bales of cotton ginned in Chester county up to Sept. 23rd, this year as against 1,454 up to the same date last year. This is an increase of 58% this year over last year.

CHARLOTTE ROASTERS

IN CHESTER YESTERDAY.

The Charlotte "Roasters" which were scheduled to arrive yesterday afternoon at 3:15, were delayed an hour and did not arrive until about 4:15. They were met at the station by a committee and escorted in the Commercial Club rooms, where a general announcement was made. This band, which accompanied the "Roasters," furnished music for the program.

The delay in arriving necessitated a very short stay in Chester and so one of the Boosters said, "We just have time to let you know Charlotte is still on the map."
