WASHINGTON, D. C., April 8.—A draft bill prepared by the chairman of the Joint Committee on the Draft has been introduced in the House, and will have to be decided upon soon. The bill is in its final form, and is expected to pass without modification. It provides for the establishment of a national service system, under which all able-bodied men between the ages of 18 and 35 will be required to register for military service. The bill also provides for the creation of a draft board, which will be responsible for the selection of men for service. The bill has been introduced by Representative John Doe, a member of the Joint Committee on the Draft. The bill is expected to be debated in committee soon, and is likely to be passed by the House of Representatives. The Senate is expected to consider the bill later this week.

What Gen. R. E. Hancock knew.

The 8th of April, 1862, was the date of the first battle of Bull Run, and it is significant that this anniversary is being observed this week. The battle was fought between the Union and Confederate armies, and it is remembered for its futility and cost. The Union forces were commanded by Gen. R. E. Hancock, and they were defeated by the Confederates. Hancock was wounded in the battle, and he later died of his injuries. The battle marked the beginning of the Civil War, and it is a reminder of the cost of war. It is hoped that the battle will be remembered for its futility and cost, and for the many lives that were lost in the conflict. The battle is remembered as a symbol of the futility of war, and of the need for peace.

The Cruelty of Spain.

The Agony of Bigota and Degred—Five Hundred Years of Savagery and Bloodshed.

Well may all nations in this century deplore the holocaust, and as they do so, the words of our President the horrible condition of the inhabitants of Cuba. Of these, more than a thousand, could such stories be told, but the Spaniards are the first to say that the atrocities which have taken place in Europe and America are the Spaniards.

In the eighteenth century, the inhabitants of Cuba, and of Florida, were driven from their homes by the Spaniards, and of those who remained, only a few were left to suffer.

In the nineteenth century, the inhabitants of Cuba, and of Florida, were driven from their homes by the Spaniards, and of those who remained, only a few were left to suffer.

In the twentieth century, the inhabitants of Cuba, and of Florida, were driven from their homes by the Spaniards, and of those who remained, only a few were left to suffer.

This is the story of the Spaniards.

In the first place, we read of the Spaniards in Mexico and Peru. "The Spaniards," says Fisk, "are the worst of all the races that have ever inhabited the earth. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.

The Spaniards have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests. They have never been equal to the Spaniards in their great conquests.
