ICE KEEPS FIREMEN WARM.

Army National Guard at Camp Green

been in Europe, writes: "The boys
there have a new and improved way of
keeping cool in hot weather. They
use ice blankets and make them
into suits of ice that fit them.

The suits are made of blocks of ice,
put on the body and fastened in place
with rubber straps. The ice is
shaped in the form of a coat,
pants, hat, and neckerchief. The
suits are kept frozen by a system of
circulating water, which is
pumped through the blocks of ice.

The result is a cool and comfortable
suit that keeps the body at
a constant temperature of about 50
degrees Fahrenheit.

To every man, woman and child, the approach of Spring, brings a message of gladness and joy symbolic of the year's sweet childhood.

The whole world awakens, and the somber garb of winter gives place to the new flowers, the fresh clothed earth, the babble of streams, the prattle of tender lips, and the blossoming flowers of all the world.

In this mysterious but powerful language does man find to all mankind to put on garments appropriate to the season, and with the idea in view of meeting every need, and desire of the people of Chester County, New York and the Eastern markets have been searched and culled with the result that never before has such a splendid variety of clothing, shoes, hats and gents furnishings been brought together for a Community of Neat Dressers.

And with that same welcoming smile that we greet lovely Spring do I also await your coming to extend to you my welcome, to show you what style has decreed, that your garments harmonize with beautiful Spring.

The most beautiful patterns in men's tailoring are here, to command your choice, with that knack of workmanship that only one of skill can produce can be had here from twenty dollars and up.

With that artistry and artistry I have to offer you a splendid range of soft and straw hats in the newest shapes at the most reasonable price of one dollar and fifty cents, your selection. 'Twas useless for me to dwell on this feature hat unless you would come and see them.

And for you, dear mothers, kind sisters, and devoted sweethearts, I have that shoe called the J and K shoe. The one you have heard so much about. It is the neatest shoe that ever was made for the dainty foot of years to wear. In the newest fashions, in the best leathers, also the newest ones with the white ivory bottoms, to fit your foot to a T—that is what I have for you. Also the American girl shoe with all its good qualities, have I here for you. Yes, the price, that is what you were thinking about, that is just as important. They run from two dollars and fifty cents and up to five dollars.

For the young boy I have taken care of them all, I will be glad to have you, one and all, call and see them. I specialize on ladies shoes and it would be to your personal interest to see my assortment. Nothing ventured, nothing gained, so I ask you to come. Let us make friends. I want your business and I want you to want my shoes.

Now, to go with a pretty pair of slippers, nothing a lady loves more than a good pair of silk stockings. I handle the Onyx Brand exclusively, and to you who know value, I can't say too much about the hose. I have them in solid colors and in fashion's new designs. It will do your heart good to see them.

My object in writing this advertisement is to have you become acquainted with the goods I carry. I carry everything up-to-date for men who love neat clothes and furnishings. I hope the moments spent in writing this, and the pains taken by the type-setter, will do some good.
