Many New Sport For Male Parties Would Make Good Draft Mares Favorable. Core of Mane and Tail—Men's Favorite.

The competitiveency for male power on the farms can be established through the proper use of male horses. A considerable number of colts are being raised in the state, but the majority of these are not used as draft horses. Many farmers are not willing to spend the necessary amount of money to raise male horses, and consequently, the demand for male horses is not as great as it should be. The state should encourage the use of male horses in agriculture.
