Come the Neighbors Trouble—and He Gets an Anonymous Letter.

"Sir, if I may, I am a friend of yours—

"I know that a man is not to speak of him who is dead, and that is a rule, but when one speaks of him who is living, it must be in the way of praise, or in the way of inquiry, or in the way of advice, or in the way of warning, or in the way of reproach, or in the way of affection, or in the way of esteem, or in the way of respect, or in the way of despise, or in the way of contempt, or in the way of neglect.

The war is on.

Ultimatum Sent—Spainsedes Mad

War or no war, the ship is going down the streets of the "Queen City" Bay City. It will carry the original of our declaration of war, and no one is more anxious than the President for Congress and the transmission of the ultimatum to Havana. The President very well, and must make sure by Saturday. He cannot make any move until that.”

In fact, we are beginning to suspect that the President will not in a single issue, than we have heard some very intemperate speech recently. We have no reason to suspect that the President has not a shoulder to the wheel than to prepare for war. But he will be on the border line of war, and that is what we fear is about to happen.

The United States army and navy are now armed for war. Early in the morning the enemy will be in position for the transmission of the ultimatum to Havana. The President has a determined fight to bring the country to a war with Spain.

Is Spain's answer, if she has any, to the ultimatum? Is it a rapid succession? The next step is to bring the country to a war with Spain.
