The Coir Remain a Mystery.

The mystery is in the name of the man who is the master of the coir. There was no act of vandalism which he has brought in a notice to the fact that there is a coir on the premises. At the present time, the coir exists within or outside the premises. For over a year, various organizations have been taking steps to control the manufacture of coir. Mr. E. R. Hah will offer a new coir, free of charge, which expresses itself in this way:

The Southern Express Company, in conjunction with the Manufacturers of Coir, are taking steps to control the manufacture of coir.

Mr. D. A. Lytle, manager of the company, said:

"The coir is manufactured from the waste products of the cotton industry. . . . It is a valuable product, and we are bringing it to the attention of the public that it should be used only for legitimate purposes."

These orders will be accepted by the manufacturers of coir, and will be delivered at the convenience of the purchaser.

The Southern Express Company has also taken steps to have coir inspected by the authorities in the city and county in which it is manufactured.

The coir is manufactured in a factory in the city of New Orleans, and is sold for the most part to the manufacturers of coir. It is sold at the rate of $1.00 per ton.

The factory is located at the corner of 12th and Main streets, and is under the supervision of Mr. J. A. Jones, manager of the company.

This is a valuable product, and it is hoped that the manufacturers of coir will give it the attention it deserves. The Southern Express Company is willing to supply coir to the manufacturers of coir at the rate of $1.00 per ton, and the manufacturers of coir are willing to accept this offer.

The following manufacturers of coir have been given the opportunity to purchase coir:

The unprecedented popularity of Royster's FARMERS' BONE fertilizer has induced some of our competitors to offer a Fish Guano, claiming theirs to be "just as good."
