Mr. Newbold's Reports.

Believe It Could Have Been Taken from the News of the World: that Mr. Newbold had been the best-informed reporter ever. He had a great many friends in high places, and it was said that he knew more about the inside workings of government than any other man in the country. His reports were always well-informed, and he was known to be a man of integrity.

It is said that his reports were so accurate that they were often used as the basis for legislation. He was a man of great influence, and his words carried weight with the members of Congress.

The Lincoln government was said to have been greatly impressed by his reports, and it was rumored that they were considering appointing him as their representative in Washington.

In conclusion, Mr. Newbold's reports were always well-researched and well-written. He was a man of great talent, and his contributions to journalism will be remembered for generations to come.

About twenty times an hour
all the blood in your body passes through and is filtered by your kidneys. Think what this means. If the kid-
neys are not strong and healthy they do not extract all the poisons and matter from the blood and the result is sick-
ness and misery that will remain until these organs are once more brought back to healthy activity.

These symptoms will tell you
when your kidneys need attention and assistance. If
you have:

1. Feeble Heart.
2. Tiredness after Meals.
3. Headache.
5. Dizziness.
6. Coated Tongue and Vomiting.
7. Abdominal Distress and Pain.
8. Frequent Urination.
The Kidney Tablets will stop all these symptoms.
