How the Natives Read The Locomotive

CHESTER, S. C., FRIDAY, MAY 16, 1902.

Mr. Newfeld's Report.

Believe it or not, but it is true that the Natives have the ability to read and write on the train.

Mr. Newfeld's report states that the Natives have been seen reading The Locomotive on the train. In fact, the report states that the Natives have been reading The Locomotive on the train for several years.

The report also states that the Natives have been seen reading The Locomotive in various parts of the country, including the south.

The report states that the Natives have been reading The Locomotive for several years, and that the Natives have been reading The Locomotive on the train for several years.

The story explores various topics such as the health of a mule with chronic snakebite, the state of educational institutions in Georgia, and the impact of fires on farming. It also discusses the use of peaches in brandy, the available agricultural machinery, and the necessity of fire precautions.

Furthermore, the text includes a mention of the Hampton Incident, where the story questions the motives behind certain actions. It also touches on the retirement of Mr. Williams, the former editor of the South Carolina newspaper.

The article concludes with a call to action for the reader, encouraging them to support their local red and white store, similar to other notices in the newspaper.
