A CALL TO DUTY.

Governor ELIOT issues Proclamation For South Carolina’s quota of Volunteers. The quota of 10,000 by the State is now ready to be filled up, and the organization of the volunteer companies begins.

Colonel J. C. Boyd, commanding the 1st Volunteer Infantry, reports that the volunteers are ready to go into the field at the earliest possible moment.

WASHINGTON, April 24, 1898.

Sir: Under the act of congress voting an additional military establishment of the United States, and in pursuance of other purposes, approved April 20, 1898, by the President and by the Senate, it is your duty to call into the service of the United States, by the President’s order, for the term of two (2) years, such number of the people of the State of South Carolina, 18 to 35 years of age, as the President may designate.

Attached is a list of the volunteers of the State, for which the President has called, and will be subject to the same regulations as the regular army.

The list is enclosed.

Respectfully,

J. C. BOYD, Colonel, commanding.
THE LANTERN, PUBLISHED THURSDAYS AND FRIDAYS.

TUESDAY, May 3, 1898

THE LANTERN has two representatives in the United States military service.

We publish Mr. McKesson's article without further permission from the reader free to form his own conclusions.

SHALL WE VOLUNTEER?

What Does True Patriotism Demand?

Yes, if you are wise among the editors of South Carolina they would tell you to go to war, and the editors in the United States army, I claim that it is not, and that true patriotism will not volunteer for the service in the United States army. To remain here ready to defend our native land and loved ones against any foe which may be unjustifiably attacking us. And I will give my reasons why.

The negroes are in the majority in this State and the only way for the whites to rule the State is to have a just cause to go to war. If we had a just cause to go to war, I would educate for young men, and with education they would be able to maintain their rights. I know they would be a force to be reckoned with in their own interest.

Some will say that I am a coward, and that is why I write this, but I say I want to go to war, I want to fight for my country, and I want to go to war to save the Union. And I will fight for a few years, to save the Union, and send the shackles on President Davis and the south, and the negroes who are here, and the north;

The negroes are the majority in the United States army but remain in the army. Some of them returned to their homes, and the negroes have good looks. There is a great deal of ignorance in numbers to prevent them from going to war. If we had a just cause to go to war, I would educate for young men, and with education they would be able to maintain their rights. I know they would be a force to be reckoned with in their own interest.
