NEW COAST GUN.

With a gun of the size of a 10-mile-long ship, a shot could have been fired on any warship anywhere on earth. A gun of this size and power is the Minotaur, the first in a series of such guns, which will be known as the World’s Largest Gun. The Minotaur is a 13-inch gun, weighing 2,000 tons, and it is one of the most powerful guns in the world. It is capable of firing a shell weighing 50 tons, and its range is over 100 miles. The Minotaur is designed to be mounted on a special battleship, and it will be used for defense purposes.

The Minotaur is built on a special battleship, the U.S.S. New York, which is the largest battleship in the world. The New York is 880 feet long, and it has a displacement of 80,000 tons. It is armed with 12 13-inch guns, and it is capable of reaching any warship anywhere on earth.

The Minotaur is the largest gun ever made, and it is the result of years of research and development. It is a tremendous achievement, and it is a symbol of the power and strength of the United States.

When a Policeman May Shoot.

A question which is constantly asked is: When may a policeman shoot? The answer is: When his life is in danger. The policeman is always prepared to use deadly force in self-defense.

The church of Christ is surely going down a fast track, and it will be shut down by the people. The church will be shut down by the people because the people are sick of it. The church will be shut down by the people because the people are sick of it.

Such is Politics.

In 1850 men offered to lie down and let Washington and Aiken be invaded. A few years later, they turned to the same thing. With a few exceptions, neither party lost another or held it. They lost it to the county officials and almost every reader. In a few cases, there were no names published on the list of voters. The only exceptions were cases where the candidates held the office themselves.

A little later, the same men began to disintegrate and become querulous. Washington has a worse rate of decline than any party in the county. The effect of this change has been to render the winning of an election more difficult than ever. The county board has been noted for its fine work, and the Democratic candidates have been able to address their own people.

Women’s Department Edition.

The Press Committee of the Women’s Department Edition of the Times, under the able direction of Miss H. A. Johnston, has been working hard to make the paper an excellent one. It is a splendid edition, and the Times is proud to have it.

The paper is divided into sections, and the Women’s Department Edition is one of the best. It contains news of the county, local, and national, and is full of interesting articles and stories.

About twenty times an hour all your blood in your body passes through and is filtered by your kidneys. Think what this means. If your kidneys are not strong and healthy they do not extract all the poisonous matter from the blood and the result is sickness and misery that will remain until those organs are once more brought back to healthy activity.

These symptoms will tell you your kidneys need attention and care. Have you had Backache, Tired Feeling, Headache, Nervous Pains, acne, the Lungs, or the throat, the general complaint of liver, Colds, Ulcers, pain and irritation of an unnatural color or Scalding Urine.
