A GREAT RECORD

The Good Owners Favorable—Super Paved

The streets in the neighborhood of the former Grand Opera House are now being tarred and covered in a manner which will render them much more suitable for use. The work is being done by a crew of workmen under the directions of the city engineer.

RENTS WANTED AT WORK:

At the present time there are many who are seeking work, and who have no prospect of obtaining employment for a long time. Many of these are recent arrivals from other parts of the country, and are without relatives or friends to assist them in finding work. Others are the result of business failures, and have been compelled to seek work in order to support themselves.

In many of the larger cities, the conditions are worse, as there is a greater number of people in need of work. The situation is particularly serious in the cities of the northeastern states, where the demand for labor is most acute.

It is hoped that the government will take steps to alleviate the situation, by providing relief for the unemployed, and by promoting the development of industries that will absorb labor.
