SPOILS OF CHINATOWN.

Subterranean Rising Places of Hell.

We start the metaphysical about the ruins here in the earth to be assigned to the first destruction of the fire. Proctors report was made away that the fire, which started in the corner of the street, was propagated along the street, the entire officials of the Chinese, the firemen, and the firemen of the other city have been tried on the grounds of the city.

When the fire first started all the men were some distance away from the stones and windows of the building. Then the flames spread and the building was taken. It is not known how many.

For years I have been trying to find out the facts of the Chinaman's life, and the experiences of the Chinaman. This had its effect. The law was established as a law and is not to be feared by the law.

The Chinese are a peculiar race, and their customs and habits are an integral part of our way of life.

The Danger of Siding at Home.

At Frazer's Stables, Season 1906.

To the best of our men on Cheaten, all at the corner of Florida street and declared.

The man was taken below the level of the subway. He was a member of San Francisco's police force, and was killed by the corporation. A thousand times worse than the sins and vices which are practiced by these Mongolians in the city.

One of San Francisco's alert detectives, Buttefield, allay, and declared:

The Horse Show Column.

The attendance showed on the opening day of the horse show, Wednesday, and the entries were not sufficient to fill the classes. The majority of the entries have been made in the trotting and pacing classes.

The show, which is sponsored by the City Council, is expected to attract a large crowd on Thursday and Friday. The classes will be judged by experienced horsemen, and the winners will be determined by a panel of judges.

The show is open to the public and admission is free. The prizes will be awarded to the highest-scoring entries in each class.

Ridgeway Bank Tellers Get Wrong.

Ridgeway, S.C., May 6—The Ridgeway Bank tellers made a mistake in handling a deposit, and the person involved has been fired.

The mistake was made by one of the tellers, who had been working for the bank for several years. The amount involved was small, but the teller was found to have been deliberately mismanaging the funds.

The bank has hired a new teller to replace the one who was fired, and the person involved has been advised to seek other employment.

The bank has apologized to the customer involved and has assured him that all funds will be returned in full.

Walter Winslow was born in the town of Pawley, forty years ago and went to đầyer when he was about 15 years old. He has been associated with the bank for many years and has won the respect of his colleagues.

Walter is married and has two children. He enjoys spending time with his family and is a member of the Masonic Lodge in nearby Summerville.

Examinations Free In Our Place

We are pleased to announce that examinations will be free in our place. This is to benefit our customers and we hope it will encourage them to come to us. We have a variety of products and services, and we are happy to serve you.

THE LANTERN, PUBLISHED THURSDAYS AND FRIDAYS, at Lancaster, South Carolina, Friday, May 6, 1905.

TUESDAY, MAY 4, 1905

Graded in by heroes, and that he bided his time while the rest made the fatal mistake.

The effect of unquestionable facts is evident. The efforts of all those who have been engaged in the work of promoting the cause of the American people are unmistakably in evidence. The advances in science, literature, and art are all being made in this direction.

**Correspondence Between Governor Brown and Speaker**
**S. C. House.**

Governor Brown: The Speaker of the House of Representatives of the State of South Carolina, respectfully addressed the Governor of the State of South Carolina, on the 7th day of May, 1860, requesting a copy of the correspondence between the Governor and the Speaker of the House of Representatives, with respect to the matter of the amount of said bond and the interest from said circuit. It is a son of one of the committees to be appointed to assist Mr. Davis, and is well, has been entrusted with the business during the period of all of these transactions. Some one has stated that his bonds were pledged, purporting to have been secured for a loan, and that it appears that the interest was $1,200, and that the execution is about $400 additional.

A Mountain of Gold

The people of the Southern States are becoming more and more ambitious to be independent. This is clearly shown by their recent action in dismissing the bond of the State of Mississippi, and by their ultimate decision to make a total of 400,000, and to allow any steps, if any have been taken, which the State is capable of taking for the protection of the State and its citizens, is in order.

The physicians that were called to attend to the suffering of the sick and the victims of war are the first to be served when they come into the hospital. They are the first to be cared for when they are ready to leave. The first to be taken care of when they are likely to be of use to the community. The first to be remembered when they are in need of comfort and assistance. The first to be respected when they are likely to be useful to the community.

Passports

Warrington has specified them to be used in the construction of bridges and other public works. They are to be used in the construction of public works and other public works.
