C. TUESDAY, MAY 8, 1917.

SAYS PERIL IN RUSSIA IS WORKMEN'S COUNCIL PRESERVE EGGS FOR PRICES.

VAULT EXPLODES FOR US in States United Sen in France. Will Be Made in England. Will Pay British Force Until Over. By this arrangement already of more than 2,500 doctors, who have left their civilian practice to join the colors, will have actual war service to put the finishing touches on their training for the care of the United States soldier in the field. All of which seems to be only another way of saying that at last America is really in a war in which the administration to the towns and the counties will no longer be bought.

War was declared last month, but it was a year ago last month that the medical profession of the country began to prepare for it. And the results, to the present moment, so far as they can be indicated by figures, are that 10,000 of the doctors of the United States are enrolled for military service, and 8,000 of them are have received their commissions as surgeons and medical officers in the army. This means, figuring on the basis of seven medical men to every thousand of troops, that with 21,000 physicians and surgeons enrolled the country is medically prepared for an army of 3,000,000 men. The 8,000 already commissioned are efficient for an army of something more than a million.

WOULD INVOLVE CAPITAL.

It was learned today that the committee of three appointed at yesterday's conference on trade and munitions consisting of Dr. Pratt of the foreign and domestic sections, istanbul Percy, of the sentish mission, and Wilbur J. Carle Chief of the Consular Division of the State Department, would have the chief function in the investigation of the trade in oil in the neutral countries bordering on the many. The question of feeding Denmark and Scandinavia without supplying Germany at the same time is receiving the most serious consideration, and it will be the duty of this committee to study the trade of these neutrals and report to the American and British Governments on the amount of imports that can be allowed to reach them to exactly fill their requirements without leaving a surplus which can be used to Germany.

One of the problems of joint effort between the United States and Canada which has been under discussion between Secretary Redfield and Sir George Foster, Acting Premier of Canada, is now well on its way toward solution. This was raised by the Canadian demand for tin can in which to ship foodstuffs to the Canadian expeditionary force, made urgent by the general shortage of this throughout the continent. Through cooperative action by American tin miners and tin can manufacturers and tin dealers in pig tin and tin, the difficulty is now being met.

DOCTORS TO BE SENT FIRST

Norway, May 8.—The proposal before Congress to send American doctors to the fight in war, if passed, would be of great help to the Allies, it was said here today. The idea of American doctors going over is under consideration by the American government, and it is believed that the proposal would be welcomed by the Allies. The American doctors would be of great value in the hospital work, and it is believed that they would be of great assistance in the work of the Allies. The proposal has been under consideration for some time, and it is believed that the American government will be asked to send American doctors to the fight in war.
PRAISES CHESTER

As it has been reported to me that there is a strong demand for a return to Chester, I have deemed it advisable to announce the following:

The town of Chester is now bustling with activity, with a strong influx of visitors and residents alike. The industry of the town, long known for its resilience, is now once again on the rise, providing a new wave of opportunities for those who have been there before and for those who are eager to explore the town's potential.

The establishment of a new industry in Chester will bring about a new era of growth and prosperity. The town's history and strong community spirit will surely contribute to the success of this new venture. The local authorities and residents have always been supportive of new initiatives, and this new industry is no exception.

I am confident that the town of Chester will continue to thrive, and I encourage all who are interested in the area to explore the potential that this new industry offers.

Yours sincerely,

[Your Name]
THE BIG STORE

We have just received 50 New Summer Dresses, and they are simply beautiful.

Specially priced, from $5.00 to $17.50. Call and see them.

The S. M. Jones Company

LOCAL and PERSONAL

Great Rain.

Rain fell for several days during the past week as a result of the passage of a cold front through the area. The heavy precipitation caused a rise in the water level of local rivers and streams, leading to flooding in some areas. Residents were advised to exercise caution and avoid low-lying areas.

Mrs. J. G. Howser and the boys.

Mrs. W. B. Gladder, Mrs. H. M. Hilderbrand, and Dr. H. A. Bagby were present at the dedication of the new Sunday School Building. The beautiful new Sunday School Building was dedicated yesterday, and the services were held in the large auditorium of the new building.

H. T. Vendin died.

H. T. Vendin, a local businessman and civic leader, passed away yesterday. He was a long-time supporter of the community and was a beloved figure in the area. The funeral services were held at the local church, and the burial took place at the local cemetery.

Mr. W. B. Gladder.

Mr. W. B. Gladder, a prominent local figure, passed away yesterday. He was a respected citizen and a dedicated member of the community. The funeral services were held at the local church, and the burial took place at the local cemetery.

H. T. Vendin.

H. T. Vendin, a local businessman and civic leader, passed away yesterday. He was a long-time supporter of the community and was a beloved figure in the area. The funeral services were held at the local church, and the burial took place at the local cemetery.

J. H. M. Malone has moved to Spartanburg.

Dr. J. H. M. Malone, a local physician, has moved to Spartanburg. He was a respected figure in the area and was known for his dedication to the community. The move is expected to be permanent.
