TAMING THE DEEPLY ROOTED PRINCIPLES HIGHER THAN PARTY INTERESTS.

In a speech delivered on May 22, 1900, a senator explained his views on the issue of the tariff and other matters of national concern. He emphasized the importance of the country's interests over party politics and sought to encourage a higher form of patriotism among his fellow citizens. The senator argued that the current state of affairs was not sustainable and that a change was needed. He called for a focus on the practical needs of the country and the well-being of its citizens, rather than on the fleeting interests of a political party. The senator's speech was widely discussed in the press, and his views were seen as influential in shaping the political discourse of the time.

About twenty times an hour
all the blood in your body passes through and is filtered by your kidneys. Think what this means. If the kidneys
fail to function properly they do not extract the poisonous matter from the blood and the result is sick-
ness, sometimes a very serious sickness. If the kidneys fail to function properly the result is a
more brought back to healthy activity.

These symptoms will tell you
when your kidneys need attention and assistance. If you ever have backache, Throat Frederick, Head-
ache, malaise, nausea, or water desire, these symptoms will tell you that you have a kidney trouble.
