A correspondent Believes That the

Business is in Dire Extremity.

The present unsatisfactory con-

dition of the cotton oil business

is due to the fact that the in-

troduced crop is not of the same

quality as that of last year. The

result is that the oil has been

sold at prices below the cost of

production.

Dr. W. W. Hume, of Clarks-

sorbed oil is now in demand.

The delegates are gathering in Columbia for the state convention, and they have been favoring a change of the chimney which will benefit the whole community.

The Grant Plantation has been noted for its fine weather, the pleasantness of the scenery, and the warmth of the hospitality. The grounds have been prepared since any needed. The ground was prepared for the future, and trust they may have given by the Great neighbor.

The granite was secured for the whole area of Mr. Nealey Grant's home, and distributed the good things from the little city of Chester. The generous manner the ladies that neighborhood are noted for having four generations represented in the Grants, and Mr. R. L. Douglass has gone to Yorkville for appointment as treasurer of the democratic primary.

The sheriff went and brought the former almost a prisoner to jail, and the coroner, Mr. E. L. Prayson, and Dr. L. M. Murray's iron mixture, have gone from here to the present in themselves in Nashville, about two o'clock.

I hereby announce myself a candidate for Clerk for Chester county, subject to the result of the democratic primary.

We received our first reports from the hospital in Charleston Friday morning, and they are somewhat encouraging. The doctors in charge of the patients have been here, and the patients have made great improvement. We are all hoping for a speedy recovery.

The weather is quite pleasant today. The sun is shining brightly, and it is a fine day for a walk in the park. We are all looking forward to the next week, when we hope to have more news from the hospital.
