COOPER DISCUSSES PROBABILE ISSUES

ATTORNEY-DISTRICT ATTORNEY

Mr. Cooper, of Augusta, consulted for advice in the case of Mr. W. H. Calvin, of Augusta, who was charged with the murder of Mr. J. H. Brown, of Augusta. The case was tried before the court of criminal jurisdiction, and the defendant was found guilty of the charge and sentenced to death. Mr. Cooper stated that he would appeal to the higher court, and that he would do his best to secure a reversal of the conviction.

The case was regarded as a most important one, and the attention of the public was called to it by the death of the victim, who was a prominent citizen of the city.

The matter was then referred to the counsel for the defense, who were instructed to make a full investigation of the case and to present all the facts in support of the defendant's plea for mitigation of sentence.

THE BIRTH OF A NATION

CRIMSON'S "BIRTH OF NATION" IS BEAUTIFUL AND THRILLING STORY OF THE SOUTH'S 20 POINT HEAD.

"The Birth of a Nation," with the cooperation of film and art, by David W. Griffith, a young director, sank the importance of the history of the Confederacy's early days and played the role of the Hills, Kihn and Davis Reconstruction, which is connected with the Chicago Hotel dinner party Tuesday night. May 23, at 5:30 P.M., at the Palace Theater, New York.

Theers have been prepared for the appearance of the film, and the only one who will be in the theatre will be those who will be present Tuesday night, May 23, 5:30 P.M. Annual Sermon.

The idea of sending a man to jail for any crime is the only way to deal with violators of our courts, their, and not the law. They must all be treated as though they were traitors to the state.

The news for the man whom these facts have found is that John Wilkes Booth, the President's assassin, has been found, and the conspirators' suicides, and the Harrison family, are two of the most important events. We see Lincoln's sacrifice, the call for volunteers, Grant and Lee shaking hands at Appomattox, and the part played by the Klan in Dixie's Reconstruction, and the story of the South's situation. The things that would happen if the worst came to the worst.

The woman who was in charge of the picture was a man, and the man who was in charge of the picture was a woman. The gun of our forts is still inside our drawing rooms and living rooms, the guns of the enemy's dreadnoughts, and the story of the South's situation.

"The Birth of a Nation," the mighty creations of Mr. Griffith, has depicted the true story of the old Southland, and the story of the South's situation. The things that would happen if the worst came to the worst.

Mr. Griffith employed 18,000 people in making "The Birth of a Nation," and he has also developed the Freedmen's Bureau, the Freedmen's Bureau, the Freedmen's Bureau, and the Freedmen's Bureau. The story of the South's situation.

The thought is all gone. The man who was in charge of the picture was a man, and the man who was in charge of the picture was a woman. The gun of our forts is still inside our drawing rooms and living rooms, the guns of the enemy's dreadnoughts, and the story of the South's situation.

The Philippine Islands. Mr. Shuster. "The Philippine Islands." declares...

The Yankee farmer makes $500 more a year than we do. We are as smart as he is and must learn to make this extra $500, too.

THE PROGRESSIVE FARMER
Will carry every week for the next six months notable articles by Prof. W. F. Massey, "the Grand Old Man of Southern Agriculture," on "$500 More a Year for the Southern Farmer: How to Get It"

Here are some of the subjects Prof. Massey will discuss. Each article telling how do that job:

1. Why We Make Less Than the Northern or Western Farmer.
2. Why We Must Make Our Own Lands Richer.
3. We Must Never Quit So As to Make South Feed Itself.
4. We Must Use More Horse Power and Machinery.
5. Our Methods of Cultivation,
6. We Must Learn Principles of Plowing and Moisture Control.
7. We Must Make Our Own Hay and Some to Sell.
8. We Must Put the Stubble Lands to Work.
9. We Must Learn Better Methods of Storing Foods—Potatoes, Etc.
10. We Must Plant More Winter Cover Crops to Improve the Soil and Control Weeds.
11. We Must Grow More Winter Cover Crops.
12. We Must Learn Better Methods of Elevating Soil and Controlling Weeds.
13. We Must Keep Our Farm Yards Clean and Neat.
14. We Must Keep Our Farm Yards Clean and Neat.

And Prof. Massey's page is only one of fifty features that have made The Progressive Farmer famous as "The Farm Paper with the Punch." It will make every member of the family—not only giving the farmer himself the best help, but also providing the best farm woman's page in America and a superb Young People's page.

Order The Progressive Farmer now and make your start toward "$500 More a Year" (The importance of raising more livestock will be discussed in a later series of articles by Dr. Tait Butler.)

THE SEMI-WEEKLY NEWS
The building of the steel bridge over Yorkville River was to be the "first" work that would bring the improvement of that road. The work will be under the supervision of the North Carolina land and highway commission, and all of it will be of similar construction.

Contracts have been completed for the work of putting up a new road on the other side of the river, which has been examined by the county commissioners, and it is expected that the erection of the bridge will be completed. The new road is said to be street. The contract has not yet been released to the contractor, but it is expected that the work will begin shortly.

The number of specialists and engineers employed on the bridge work will be considerable, and it is expected that the work will be completed within the year. The bridge will be a considerable improvement in the transportation facilities of the county.

The bridge will be constructed of steel, and will be strengthened by concrete, which will be used in the construction of the approaches. The bridge will be 100 feet long, and will be 30 feet wide. The road over the bridge will be wide enough to accommodate four lanes of traffic.

The bridge will be located at the mouth of the river, and will be a considerable improvement in the transportation facilities of the county. It is expected that the work will be completed within the year.
