CHESTER, S. C. FRIDAY MAY 25, 1917

THE GERMAN REVOLT

The Kaiser has been succeeded as German Emperor by his brother, the Grand Duke Philipp of Baden. This change was made necessary by the Kaiser's deposition by the people of Germany, who have risen in armed rebellion against his rule. The new government has declared a general strike and has ordered all industrial workers to cease work immediately. The people are determined to overthrow the throne and establish a republic.

BELGIANS GROW WEAKER.

Belgian physicians, in an effort to deal with the public health crisis, have announced that the country is in a state of emergency. They have requested that all doctors and nurses be made available to care for the wounded soldiers who are being brought to the country from the war zones.

DOCTORS FOR FRANCE.

London, May 15—Entertainment of doctors for service in France, made necessary by the partial closing of the hospital ship, is proceeding without greatly disturbing the medical arrangements in this country. Private practices and semi-private hospitals opened for the wounded will not be interfered with, and though some economies of staff will be effected in the large public hospitals, their efficiency is said to be unaffected, as the military authorities do not expect to take many men from them.

PLANT FORAGE CRISIS AFTER HARVEST.

Cheyenne, Col., May 27—The forage crisis appears to be passed, as heavy rain has come in the region of the Western Plaines. The forage season is expected to be good, and the cattle industry is looking forward to a prosperous year.

THE GERMANS ARE BARBARIANS.

Following the German revolts, the world newspapers have published reports of the brutal treatment of civilians by German soldiers. The German government has been criticized for its actions, and many countries have expressed their disapproval of the treatment of their citizens by the German military.

COMPELLS LABOR UNDER WAR MEASURE.

Chester, W. Va., May 29—Every able-bodied male citizen of West Virginia between the ages of 16 and 60 must work at least 36 hours a week under a law passed today by both houses of the legislature. The measure includes persons bartering incomes and who have no specified employment. It is to become operative in thirty days. The penalty for violation is enforced employment by counties or municipalities.

President Wilson has announced that he will proceed to France to confer with the Allied leaders. His visit is expected to be a symbol of the American commitment to the war effort.

MONS CHAINS NEGRO AND APPLIES TORCH.

According to reports from Mons, Belgium, German soldiers have chained a Negro and applied a torch to him. The German military has been criticized for its actions, and the incident has sparked outrage among Allied nations.

A TOLL LEFT STANDING.

Fort Worth, Texas—Fort Worth's Standing Toll Bridge, which was damaged by flood waters, has been repaired and reopened. The bridge is a critical link in the transportation network of the region and is expected to facilitate commerce and trade.

THE SEDAN DECREE IN WRECK.

Washington, D.C.—The Sedan Decree, which President Wilson signed to eliminate the Sedan Museum, has been rescinded. The museum is to be restored to its former glory. The President has expressed his regret for the action, but has stated that it was taken in the best interest of the country.

FLOODED ORE VALLEY HOLDS UP THE FRENCH.

Flood waters have held up the French advance in the ore valley, delaying the progress of the Allied forces. The French military has been working to clear the debris and restore the roadways, but the flood has caused significant delays.

RICH ROCKS.

Rich Rocks, W. Va., May 22—Rich Rocks has become a center of mineral exploration and mining. The area is rich in coal, iron, and other minerals, and is expected to become an important contributor to the war effort.
Chandler Price Must Advance
$200 June 30th

The price of the Chandler Six becomes $1595 on the first day of July. The present model, identically the same car, will be continued after that date.

Until that date the price remains $1395

It has always been a basic part of Chandler policy to keep the Chandler price low

We have kept it low. Men considered the original Chandler price of $1795 established four years ago an impossible price. Later when the Chandler Company reduced that price to $1595 the trade thought we were courting disaster. Further reductions came as a positive shock to the industry.

Meanwhile the Chandler Company prospered and Chandler business grew to front rank proportions: The Chandler car was never cheapened, but, rather improved and refined from season to season until the whole motor car purchasing public has come to recognize the Chandler car as a car of surpassing values.

Our whole purpose has been to build the best lightweight Six and sell it at the lowest possible price.

We have sold the Chandler car for hundreds of dollars less than cars of similar quality

We have built into the Chandler car, as fundamental features of construction and equipment, the most important features which are characteristic of the highest priced cars of all types—features which are not found in other medium-priced Sizes, or found, at least, to very slight degree.

Now, however, the Chandler price must be advanced

It must be materially advanced to cover greatly increased costs which have arisen this Spring by reason of unprecedented conditions in the material supply and labor markets and in problems of transportation.

Production costs throughout the past three months have advanced steadily and in long strides. This is a condition which we cannot control. It is a condition which we must meet.

So the Chandler price must be advanced. In making this advance we do not depart from our firmly established policy of keeping the price just as low as it can be kept and still provide reasonable manufacturing profit.

At $1595 the Chandler car will still be under-priced

It will be distinctly under-priced, as compared to other cars which some may consider of similar quality. By test of any conceivable comparison this statement is a provable fact.

Now you can buy this great Six at $1395, f. o. b. Cleveland.

While the $1395 price holds, the demand will continue to greatly exceed our production, and we cannot guarantee deliveries.

FIVE ATTRACTIVE CHANDLER TYPES OF BODY

Seven-Passenger Touring Car, $1395
Four-Passenger Roadster, $1295
Seven-Passenger Convertible Sedan (Fisher built) $1295
Four-Passenger Convertible Coupe (Fisher built) $1295

All prices f. o. b. Cleveland
